# HELP US CHANGE THE WORLD

Our staff, students and alumni are an innovative bunch. Our in-built desire to do things differently has seen us make discoveries that have resulted in a better world.

Everyone has the potential to help create change – and that includes you. But to do so, you need to be the best at what you do. You must be passionate about exploring the possibilities and looking at things differently.

At Massey University, we are all about making a difference and we want to help you to do the same. Imagine the possibilities:

- ▼ Generating enough food to feed the world, while decreasing the pressure on our environment
- Finding a cure for cancer
- Working out how we can live longer and be healthier at the same time
- Designing appliances that work better and are more environmentally friendly, efficient and accessible
- Or helping people to recover from the trauma of a major disaster.

Our people are already working on these, and more. Imagine what you could do.

Massey has a solid tradition of high-quality tertiary education. From our establishment as an agricultural college in 1927 to becoming a university in 1964, to our celebration in 2013 of 50 years of leading New Zealand's veterinary education, we are focused on helping you lead your home country or New Zealand.

As New Zealand's only truly national university (with campuses in Albany, Manawatū and Wellington and a leading distance learning programme) we foster and propel positive change, taking the best of our nation's creativity and innovation to every corner of the globe.

We will help you to get the skills and confidence you need to take your place in the world and make a difference.

He aha te mea nui o te ao? He tangata. He tangata. He tangata.  
What is the most important thing in the world? It is people.  
It is people. It is people.

We can change the world, but not without you.

## WELCOME FROM THE VICE-CHANCELLOR

Massey University is New Zealand's defining university and has a long and proud tradition of academic and research excellence.

The University has three campuses in Auckland, Manawatū and Wellington – as well as a fourth “virtual campus” of students who take advantage of Massey's well grounded expertise as a distance learning provider. Its expertise embraces a broad span of scholarly and scientific realms. Aviation and epidemiology, jazz and quantum physics, ecology and agri-food science, finance and robotics, biotechnology and volcanology: these are just some of the disciplines in which Massey is acknowledged as world class.

Massey has New Zealand's only Institute of Veterinary, Animal and Biomedical Sciences and New Zealand's only degree in aviation.

With its history, geographic spread, span of offerings and dense web of connections with a range of specialist and local communities, Massey is very much the university of New Zealand.

It is also a global university. Massey currently has agreements with more than 190 institutions worldwide, covering a variety of relationships from collaborative research to teaching, study abroad, and staff and student exchanges.

Each year, more than 3800 international students from more than 100 countries find a warm and welcoming environment at Massey and an intellectual climate in which they are encouraged to excel. Our students experience research-led teaching, outstanding student support services and high-quality facilities.

We recognise that choosing to leave your own country in order to achieve academic qualifications is a life-changing decision. I warmly invite you to be part of our diverse and stimulating student community. I want to assure you that we are committed to delivering a high-quality student experience and assisting you on your path to success.

A handwritten signature in black ink that reads "Steve Maharey". The signature is fluid and cursive, with a long horizontal stroke at the end.

**HON STEVE MAHAREY**

CNZM, BA, MA (Hons)

Vice-Chancellor, Massey University

 @SteveMaharey

## WELCOME FROM THE ASSISTANT VICE-CHANCELLOR (ACADEMIC AND INTERNATIONAL)

Massey University is an exciting and progressive New Zealand university. We offer you internationally recognised, research-led qualifications that are hugely relevant in today's world. Our qualifications can greatly enhance your career prospects and personal development.

Our research pedigree in key areas is internationally recognised and through these endeavours we are connected with research institutions, industries and businesses around the globe.

Massey is also a pioneer and world leader in the provision of online and distance learning. Our students have been receiving world-class distance education for more than half a century. Our teaching is research led and Massey ranks higher in international comparisons than any other major distance learning provider in Australasia.

We are committed to excellence in distance education and our programmes and short courses allow you to fit study around work, social and family commitments. Our qualifications are internationally accredited and recognised by relevant professional bodies.

Studying at Massey University is about doing things differently. It's about shaping the world, by coming up with innovative, practical solutions and ideas for how we can live our lives in a better way.

I welcome you to Massey University and wish you all the very best in your studies.

A handwritten signature in black ink, appearing to read 'Ingrid Day'.

**PROFESSOR INGRID DAY**

Assistant Vice-Chancellor Academic and International, Massey University

## WELCOME FROM THE DIRECTOR (INTERNATIONAL)

Massey University's programmes range from foundation to degree to postgraduate and we have relationships with more than 190 academic and research institutions around the world.

As a truly multicultural university, Massey is committed to providing a high level of care and support to you and all our international students. As an international student, you have access to a range of services to ensure you get the help and assistance you require as easily as possible.

You will be supported throughout your enrolment at Massey by our team of specialised international support staff, who are trained to assist and support international students with their academic and personal needs.

Once enrolled, you will have access to the full range of services available at any Massey campus, including accommodation, career advice, religious services, health and counselling, sport and recreation, and student learning centres.

A handwritten signature in black ink, appearing to be 'Arthur Chin', written in a cursive style.

**ARTHUR CHIN**

Director International, Massey University

 @achinmassey

**FOR MORE THAN 80 YEARS MASSEY HAS PLAYED A DEFINING ROLE IN THE DEVELOPMENT OF NEW ZEALAND THROUGH GROUNDBREAKING RESEARCH, A COMMITMENT TO INNOVATION, AND CLOSE LINKS WITH ITS COMMUNITIES AND INDUSTRY. MASSEY HAS ALSO GAINED RECOGNITION AND A SOLID REPUTATION ON THE INTERNATIONAL STAGE.**

Mirroring New Zealand's development from a primarily agrarian economy to a modern, mixed-economy global competitor, Massey was established as an agricultural college in Palmerston North in 1927. It was awarded university status in 1964. The Massey Albany campus in Auckland was established during dynamic growth in the 1990s, and in 1998 Massey's national portfolio was completed with the addition of the world-class School of Design and Conservatorium of Music in central Wellington.

Today, Massey is one of New Zealand's largest universities with about 33,000 students, from more than 100 countries, enrolled across its three campuses and its "virtual" distance-learning campus. The three physical campuses are well established and offer rigorous academic programmes complementary to their locations. The University is organised into 30 institutes, schools and departments in five academic colleges: Business, Creative Arts, Health, Humanities and Social Sciences, and Sciences. Together the colleges offer more than 200 programmes of study and more than 5000 classes, which are delivered through a robust multi-campus and multi-modal structure.

Fundamental to Massey's endeavours is an internationalising curriculum that integrates an international and intercultural dimension into the teaching and service functions of the University.

Massey has witnessed a more than 40 per cent rise in the number of higher-degree research students in the past 10 years, with more than 1700 research masterate students and more than 1000 doctoral students contributing to our research activities. Massey's success is further illustrated by Ako Aotearoa – New Zealand's first and only Centre for Tertiary Teaching Excellence.

Massey University continues to be ranked among the top three universities in New Zealand. Many academic staff are internationally renowned, and leading-edge research is carried out across the colleges, often in collaboration with other universities, research institutions and industries. Massey has a proud record of using its expertise to work with developing countries, and its focus on technology and business is also meeting new international demands.

#### **OFFSHORE DELIVERY, JOINT VENTURES AND PATHWAY PROGRAMMES**

The University is increasing its offshore delivery through the selective launching of key degree programmes including:

- ▶ **The Bachelor of Aviation Management** – implemented in partnership with the Singapore Aviation Academy and delivered in Southeast Asia
- Postgraduate dispute resolution programmes** – delivered in Thailand in partnership with Khon Kaen University
- The Bachelor of Food Technology** – in partnership with the Singapore Ministry of Education and located on the Singapore Polytechnic campus. Catering for Asia's growing demand for food technologists
- College of Business pathway programmes** - the college has established undergraduate and postgraduate pathway programmes with leading universities in China and Vietnam, including Wuhan University, Xiamen University, Renmin University of China and University of Economics (Hanoi). After completing part of their degrees in China or Vietnam, students come to Massey to complete their studies for Massey degrees in New Zealand.

## OUR GLOBAL CONNECTIONS

**MASSEY IS A GLOBAL UNIVERSITY THAT WORKS HARD TO DEVELOP MANY INTERNATIONAL PARTNERSHIPS. IT IS A RESEARCH-LED UNIVERSITY WITH STRONG CONNECTIONS TO INDUSTRIES AND PROFESSIONS, AND A DISTINCTIVE APPLIED APPROACH TO TEACHING AND LEARNING.**

As well as being recognised for our world-class research, Massey is a leader in teaching, from English and pre-degree foundation entry right up to PhD level.

Our international connections reflect these strengths and are equally global and comprehensive. Massey currently has formal international agreements with more than 190 institutions worldwide. These cover the full spectrum of University activities including student foundation and pathway arrangements, undergraduate and postgraduate articulation, home-government scholarship provision, study abroad and student and staff exchange relationships, transnational online and blended education delivery, and many joint research collaborations all over the world.

Massey University holds a number of accreditations from leading international bodies including:

- ▶ A five-star rating for both research and internationalisation from the QS world university ranking agency

Association to Advance Collegiate Schools of Business (AACSB)

Association of MBA's

Chartered Financial Analyst Institute (CFA) Program Partner

Association of Asia-Pacific Business Schools

American Veterinary Medical Association

Institute of Food Technologists

The Washington Accord through the Institution of Professional Engineers New Zealand.

Internationalisation at Massey University is defined by a complementary range of activities that integrate an international/intercultural dimension across all areas of university life from our teaching to our research and service functions. International student recruitment is critical to the University's economic, academic and cultural vitality, but internationalisation at Massey is about much more than that. It also involves the active engagement of New Zealand students with other cultures, exposure to a globalised economic and social environment, student mobility, strategic relationships with overseas institutions and governing bodies, engagement with Massey alumni overseas, and high-quality pastoral care and support for international students studying either on campus or at a distance.

At Massey, internships and industry placements provide opportunities for applied learning in many programmes

and enhance their attractiveness within the international marketplace.

Massey is a leader in international student pathways and articulation through undergraduate and postgraduate collaborative arrangements with partner institutions in China, Vietnam, Malaysia, Indonesia and Thailand.

Massey is New Zealand's leading university provider of online, blended and distance education. The University is increasingly taking these strengths to the world as part of mutually beneficial education collaborations, including the EpiCentre's delivery for the World Bank of One Health veterinary medicine and public health masterate programmes to 67 health professionals from India, Pakistan, Sri Lanka, Bangladesh, Afghanistan, Nepal, China and Mongolia.

We are committed to developing and sustaining international research, teaching and consultancy activities through collaboration with institutions of compatible standing and disciplinary profile.

Massey is among the top three New Zealand universities in winning external research income. Our research partnerships include tripartite research collaborations with leading Chinese universities, including Peking University and Shanghai Jiao Tong University, and membership of the Global Alliance on Food Security Research, under which six leading agri-food universities and research institutions have joined forces to find ways to increase world food production in a sustainable manner. The World Bank has also chosen Massey to help lead the Global Food Safety Partnership, which is a public-private partnership aimed at improving international food safety capacity. QS ranked Massey's agriculture programme 21st in the world in May 2013.

The School of Design is ranked top in Australasia by Red Dot, the global design award organisation.

The College of Creative Arts is the only school of art and design outside North America to receive NASAD Substantial Equivalency, the most comprehensive international benchmark of quality in art and design education in the world.

Massey hosts two of the seven Centres of Research Excellence supported by the New Zealand Government: the Allan Wilson Centre for Molecular Ecology and Evolution and the Riddet Institute for food and biomaterials research. Massey is a partner in three other Centres of Research Excellence.

Massey's academic capacity in security and defence is broad with topics covering the coherence and effectiveness of national mandates in Afghanistan, cyber warfare and international law, the New Zealand SAS in Borneo and Vietnam and security sector reform. Massey's Centre for Defence and Security Studies is currently Chair of the Council for Asian Transnational Threat Research. The council provides specialised research in the areas of terrorism, insurgency and other violent transnational threats in the Asia-Pacific region. It draws on a diverse range of expertise and perspectives from resident experts across the South and Southeast Asian regions.

# GAVEN MARTIN TAKING MATHEMATICS TO THE WORLD

Leaving Yale University to become one of New Zealand's youngest-ever professors, today Gaven Martin is one of the world's top mathematicians

He is an inaugural leader of the New Zealand Institute for Advanced Study, helping to drive our country towards its first Nobel prize.

UNIVERSITY OF NEW ZEALAND

# CAMPUS LOCATIONS

With three strategically located campuses in major cities, and as New Zealand's foremost university provider of distance learning, Massey is truly New Zealand's national university.

We have modern campuses: Albany, located on Auckland's North Shore; Manawatū, based in Palmerston North, the student city; and Wellington, based in the heart of the capital city. There is also the option of distance learning, either in New Zealand or overseas.

## NEW ZEALAND

**NEW ZEALAND (AOTEAROA) IS A MODERN, TECHNOLOGICALLY ADVANCED, GLOBALLY COMPETITIVE NATION OFFERING INTERNATIONALLY RECOGNISED UNIVERSITY EDUCATION WITHIN A UNIQUE CULTURAL AND NATURAL ENVIRONMENT.**

### YOUNG NATION, RICH HISTORY

With a little over a 1000 years of human settlement since Polynesians first reached Aotearoa, New Zealand has a rich and fascinating history, reflecting both Māori and European heritage. The first European contact occurred in 1769 with the landing of Captain James Cook. British sovereignty was claimed in 1840 following the signing of the Treaty of Waitangi, considered a founding national document. In 1907 New Zealand's independence and separate identity were further recognised when its status was changed from being a colony of Great Britain to an independent dominion.

### A COMPETITIVE GLOBAL TRADER

In the 21st century New Zealand is a modern nation with a well developed industrialised, free-market economy competing in the global marketplace. With almost 20 per cent of the country's output exported, New Zealand is heavily dependent on trade, with the principal export industries being agriculture, horticulture, fishing and forestry. Major export partners are Australia, the United States, Japan, China and Germany.

### MODERN, MULTICULTURAL SOCIETY

New Zealand's unique and dynamic culture blends a fusion of European, Māori, Pacific and Asian influences. The population comprises 69 per cent European ethnicity, 14.6 per cent Māori descent (the "tangata whenua" or indigenous people), 9.2 per cent Asian and 6.9 per cent Pacific Island origin. New Zealand has a high standard of living and is consistently ranked highly in international quality of life indexes. New Zealand society is diverse, sophisticated and multicultural, and the honesty, friendliness and openness of New Zealanders, or "Kiwis", is world-renowned.

## NEW ZEALAND QUICK FACTS

- Capital city: Wellington.
- Population: 4.4 million people (16 per square kilometre)\*.
- Largest city: Auckland, population of 1.5 million.
- Official languages: English, Māori, NZ Sign Language.
- Currency: New Zealand dollar (NZD).
- Government: Constitutional monarchy, gained independence from Britain in 1907.
- First country to give women the vote (1893).
- Area: 288,680 square kilometres.
- 15,000 kilometres of coastline, nowhere is more than 130km from the coast.
- New Zealand has the world's largest flightless parrot (kakapo), the oldest reptile (tuatara), the biggest earthworms, the smallest bats (the only native land mammals) and the heaviest insect (a weta), and is home to many of the world's oldest trees, and rarest birds, insects and plants.

\*2013 figures

PHOTOGRAPHY BY: MILES HOLDEN

### GEOGRAPHIC WONDERLAND

Comparable in physical size to Great Britain, Colorado and Japan, New Zealand has a population of about 4.4 million – making it one of the world's least crowded countries – approx 16 people per square kilometre\*. It is a haven for those seeking peace, rejuvenation and relaxation as well as a playground for thrill seekers and adventurers. New Zealanders also lead the world in sports participation.

A temperate climate with relatively small seasonal variation makes it an ideal place to live. New Zealand's spectacularly beautiful landscape includes vast mountain chains, steaming volcanoes, sweeping coastlines, deeply indented fiords and lush rainforests. And the great advantage of New Zealand is that all its diverse physical, cultural and artistic landscapes are easily accessible.

\*2013 figures.

### WORLD-RECOGNISED UNIVERSITY EDUCATION

New Zealand's university education was established in 1870 and has a similar structure and tradition to the British model. Today, there are eight state-funded universities in New Zealand, offering a broad range of subjects with different specialisations.

New Zealand university students enjoy a personalised approach to their learning, where people are recognised and valued for their individuality, within applied learning environments where theory and practice interrelate. New Zealand Bachelor degrees are recognised for enrolment in postgraduate programmes at universities throughout the world.

### QUALITY EDUCATION

New Zealand education is becoming increasingly international in character, driven by trends, which include the information and communications technology revolution, employment markets transcending national borders, and a globally mobile population of students, teaching staff and researchers.

The New Zealand education system is based on guiding principles including quality-assured and portable education qualifications, and the provision of flexible pathways for study. National policies and quality assurance provide continuity and consistency across New Zealand's education system.

The New Zealand Government-administered Code of Practice for the Pastoral Care of International Students is designed to ensure that a consistent, high standard of pastoral care is provided to all international students.

## ALBANY CAMPUS

### ALBANY CAMPUS

Massey's Albany campus is New Zealand's newest and most cutting-edge university destination, located in rolling parklands on Auckland's beautiful North Shore. Positioned right next to New Zealand's largest shopping centre and the North Harbour Stadium, this campus is the hub for many social and sporting events, and a five-minute drive to beautiful swimming beaches. It's also only 20 minutes from Auckland's city centre, with quick public transport access via dedicated bus lanes.

Accommodation choices abound, with options to stay in student villages, fully catered apartments or shared flatting with friends. There's plenty of parking on campus, and efficient public transport combined with increased facilities for bike users caters for the environmentally conscious student.

The growing campus offers 70 majors to more than 7000 students, including programmes in business, education, engineering, expressive arts, fundamental sciences, food technology, jazz, languages, mathematics and information sciences, nursing, public health, psychology, sociology and social work. It has an extensive programme of postgraduate studies and hosts distance learning contact courses. State-of-the-art science laboratories complement the newly opened Student Central complex at the heart of the campus.

Albany is Massey's "Innovation Campus", known for its excellence in innovation and the "new" economy. It has established key partnerships as the prime location for the Auckland Knowledge Exchange Hub, a preferred research partner of Auckland Council in the areas of economic and community development, and a partner with KPMG and other firms on financial sector analysis.

Home to the University's high-tech business incubator, the ecentre leads the way in shaping the businesses of the future.

Albany also has key partnerships with Smales Farm Technology Office Park – one of the largest technology parks in New Zealand.

### AUCKLAND: "CITY OF SAILS"

Auckland is New Zealand's largest and most multicultural city with more than 1.5 million people. It is the country's commercial and economic centre, and has rated highly in international surveys as one of the best cities in the world to live because of its sophisticated urban environment, great climate and numerous leisure options.

A city of immigrants, Auckland's colourful mix of Māori, Pacific Island, Asian and European cultures ensures access to a wide range of food and cultural touchpoints that celebrate diversity and encourage interaction.

Auckland is surrounded by water and is popularly known as the "City of Sails" because of the hundreds of yachts that sail on the three harbours that Aucklanders can access. Within half an hour of the city centre are two mountain ranges, 48 volcanic cones and more than 50 islands. As the main gateway to New Zealand, Auckland airport has direct flights to more than 33 cities worldwide, including those in the Pacific Islands, Asia and the Americas.

## MANAWATŪ CAMPUS

### MANAWATŪ CAMPUS

Located in Palmerston North city, the Manawatū campus reflects its history as the original campus, with lovely heritage buildings in a park-like setting. The campus leads the University's research culture, and offers more than 8000 students over 150 qualifications within sciences, health, business, and humanities and social sciences.

As New Zealand's premier institution for life sciences, agricultural, horticultural and veterinary teaching and research, Massey Manawatū champions industrial innovation within food science and technology, biotechnology, advanced material sciences and product development.

We partner with the Bio Commerce Centre (BCC) to support the commercial development of our research and widen our engagement with industrial partners both in New Zealand and worldwide.

The campus has a huge range of clubs and societies – so it's easy to make friends and start new adventures. It boasts rugby and soccer fields along with the Sport and Rugby Institute, an award-winning recreation centre, an equestrian centre (and some students do bring their horses to university with them) and an all-weather Olympic-standard athletics track. And, you will find four-star affordable accommodation on campus. What's more, there's a bus service that's free for students all over the city!

### PALMERSTON NORTH: "STUDENT CITY"

New Zealand's sixth largest city with about 80,000 inhabitants, Palmerston North was originally established to service the pastoral farming community of the greater Manawatū region.

The city has grown with Massey University and offers an energetic arts, entertainment and sports scene, while maintaining the friendly warmth of "heartland" New Zealand. It also boasts the lowest cost of living of any of New Zealand's university cities, and with 40 per cent of the population engaged in tertiary study, Palmerston North is truly New Zealand's "Student City"!

Palmerston North district is also home to Linton Military Camp, Royal New Zealand Air Force Base Ohakea, several leading research institutes, Toyota New Zealand's headquarters, and New Zealand's multinational dairy company, Fonterra.

Surrounded by spectacular scenery stretching from the magnificent Tararua and Ruahine Ranges to the coastal plains of Himatangi and Tangimoana, students have easy access to the great outdoors. The region is well connected by Palmerston North airport, and Wellington, the central plateau ski-fields, and the beaches and wineries of Hawke's Bay are just two hours' drive away.

[www.studentcity.co.nz](http://www.studentcity.co.nz)

## WELLINGTON CAMPUS

### WELLINGTON CAMPUS

Known as the 'Creative Campus', Massey Wellington is a vibrant place with groundbreaking research centres and an abundance of talented students. It's a place where you will be challenged to think differently and apply your creative thinking in new ways.

The centrally located campus, in the heart of Wellington's arts and cultural district, includes the magnificent New Zealand Dominion Museum building and a café, bar and student common room. The campus has about 3500 students and is small, friendly and casual. There is also a great student accommodation complex close to the campus and the city centre.

This niche campus offers internationally recognised programmes in business enterprise, communication, design and fine arts, health science, journalism and nursing.

Massey Wellington is also home to New Zealand's most distinguished School of Design, and world-class research centres including the Centre for Public Health Research, the Sleep/Wake Research Centre, the Māori Health Research Centre, the Centre for Small and Medium Enterprise Research, the Centre for Disaster Research, and the National Centre for Tertiary Teaching Excellence.

In addition, Massey University and Victoria University of Wellington have combined the strengths of their Conservatorium of Music and School of Music to establish Te Kōkī New Zealand School of Music.

With new facilities such as a media and drama lab, it is also home to New Zealand's oldest and most respected School of Communications, Journalism and Marketing.

With connections across the capital city of New Zealand, the campus forms an important point of reference and engagement for business, industry and government and contributes to the vibrant cultural life of Wellington.

**Wellington: "New Zealand's**

### Capital of Cool"

As the seat of New Zealand government, Wellington is also the headquarters of national organisations including the New Zealand Stock Exchange, the Reserve Bank, the Museum of New Zealand (Te Papa), the Royal New Zealand Ballet, the New Zealand Symphony Orchestra and the National Opera.

A magnet for creative and innovative people, Wellington is also home to film director Peter Jackson's Academy Award-winning Weta Workshop. Other leading industries include information, communication, technology, manufacturing and biotechnology.

Compact and welcoming, and with fewer than 200,000 residents, Wellington city is packed with cafés, boutiques and a colourful nightlife. The greater Wellington region (total population 487,000) is spread along 497 kilometres of magnificent coastline, with easy access to North and South Island tourist regions such as Martinborough's vineyards, sunny Nelson and the beautiful Marlborough Sounds.

[www.wellingtonnz.com](http://www.wellingtonnz.com)

## STUDYING BY BLENDED AND DISTANCE LEARNING

Massey University is a pioneer and world leader in the provision of blended and distance learning. Our students have been receiving world-class distance education for more than half a century. Our teaching is research led and Massey ranks higher in international comparisons than any other major distance learning provider in Australasia.

We are committed to excellence in blended and distance learning, and our programmes and short courses allow students to fit study around work, social and family commitments. Taught by leading researchers in their field, our qualifications are internationally accredited and recognised by relevant professional bodies. No matter where you study, you will experience research-led teaching, rich online resources, a world-class library, outstanding learning support services and an intellectual climate in which you are challenged to excel. Our qualifications are highly sought after by employers, and Massey graduates get jobs around the world.

More than 250,000 students from all over the world have chosen to study by distance at Massey University. In recent years, Massey has expanded to provide a greater range of fully and partially online courses and qualifications to international students living overseas. Massey is a modern, digital-era university with a five-star QS ranking for internationalisation and for research.

### WHY STUDY FROM OVERSEAS?

Massey's courses for students living overseas are designed to allow people to fit study around work and family commitments. We understand that people wishing to upskill and enhance their qualifications lead busy lives, and Massey helps to make university study possible for students who do not have the time or ability to get to a local university campus.

Learning online and by distance is the "new normal" of higher education, as more students choose to study part-time whilst continuing to work. A mix of blended and distance learning has the advantage of allowing students to achieve their personal and professional goals without having to leave their jobs. Our students can continue to earn as they learn, and importantly there is no difference in the teaching standards when studying from overseas, as the lecturers who teach you also teach on our campuses. This is why Massey is internationally regarded for the high quality of our education, wherever you live and whatever your lifestyle.

### HOW DOES STUDYING FROM OVERSEAS WORK?

Massey offers a range of study options depending on your programme of study. Your course may be fully online through Massey's virtual learning environment (Stream) or involve a mix of digital and conventional printed study resources. Both fully online and partially online courses allow students to access valuable learning resources related to their subjects, including online study notes,

recent journal articles, presentations, video clips, and tests and quizzes. At Massey we place a high value on creating a community of learners as we want our students to feel part of a real class. Therefore we encourage students to take full advantage of our online learning environment to share and exchange ideas with fellow classmates and teaching staff. In some courses we also offer the chance to meet teaching staff in person at face-to-face contact courses as we understand the value of using a blend of delivery methods.

Please note that most courses require some level of internet access. If courses require formal examinations, they usually take place at local institutions or may be done online.

### WHAT YOU CAN STUDY

#### English, pre-degree and short courses by distance

We offer fully customised professional development courses, study tours, delegations, immersion courses and other study visits to meet the specific learning needs of individuals and groups.

#### Undergraduate study from overseas

To meet the growing demand from students living overseas we are rapidly expanding our international delivery of key undergraduate degrees and qualifications. Study options include: Bachelor of Business Studies (Communication), Bachelor of Aviation Management, Diploma in Arts, Bachelor of Arts and Bachelor of Construction.

#### Postgraduate study from overseas

Our range of postgraduate courses gives our students the flexibility to continue working while further enhancing their learning, and future employment opportunities. Massey has a number of world-class specialisations and study options including: Postgraduate Diploma in Aviation, Master of Aviation, Graduate Diploma in Teaching (Secondary), Graduate Diploma in Emergency Management, Graduate Certificate in Emergency Management, Postgraduate Diploma in Education, Postgraduate Diploma in Arts, Master of Education, Master of Educational Administration and Leadership, Master of International Security, Postgraduate Diploma in Quality Systems, Master of Applied Statistics, Master of Quality Systems, and Master of Veterinarian Medicine.

For the full list of distance study options, please view our website or contact Massey's International Office.

#### Entry requirements

Students need to meet both the academic and English language requirements of their intended programmes of study. Specific criteria for pre-degree-, undergraduate- and postgraduate-level applications can be found on the individual course pages. All applicants are assessed on a case-by-case basis.

## STUDY ABROAD AND STUDENT EXCHANGE

**STUDENTS FROM AROUND THE WORLD COME TO MASSEY FOR A SEMESTER OR A YEAR ON OUR STUDY ABROAD AND STUDENT EXCHANGE PROGRAMMES. STUDYING AT MASSEY IS A FANTASTIC WAY FOR YOU TO EXPERIENCE THE NEW ZEALAND LIFESTYLE AND CULTURE, TRAVEL, AND MAKE NEW FRIENDS, ALL WHILE GAINING CREDIT TOWARDS YOUR HOME UNIVERSITY DEGREE!**

### STUDY ABROAD AND STUDENT EXCHANGE PROGRAMMES

Study abroad and exchange students normally study four papers (courses) per semester across numerous academic areas. Massey offers an extensive range of papers in the five academic Colleges of Business, Creative Arts, Health, Humanities and Social Sciences, and Sciences. The credits you earn are transferred back to your home institution.

International students from any overseas institution are welcome to apply to our Study Abroad programme. Upon acceptance, we will work with you and your home institution to ensure you get all the support you need for an easy transition to New Zealand's culture and life at Massey. From pre-departure advising, the festivities of Orientation Week, excursions planned by our student support teams, and ongoing assistance throughout your time with us, Massey provides all international students with a wealth of personally and academically enriching experiences.

Exchange students pay tuition fees to their home institutions, rather than to Massey. To apply as an exchange student, your home institution must have a current student exchange agreement with Massey University, and you must be nominated by your home institution to study at Massey. A list of Massey's student exchange partners can be found on our website. If your home institution does not appear on our list of exchange partners, you are welcome to apply to Massey through our Study Abroad programme.

### THREE CAMPUSES, ONE UNIVERSITY

As a multi-campus university, Massey offers our students a unique range of New Zealand locations and experiences. Double semester students can swap campuses in their second semester, enabling them to experience New Zealand from more than one perspective and location. Accommodation is guaranteed at all three campuses, and international students quickly integrate into our thriving student communities. Expert advice and assistance is available on each of our campuses, via a resident team dedicated to the support of international students throughout their Massey studies.

### NEW ZEALAND STUDIES

Enrolment in one or more papers focused on New Zealand is an excellent way to deepen your overseas experience. We encourage students to select papers that match their interests and that may not be available at their home institutions. Visiting international students typically enjoy New Zealand-focused papers. Some popular options include Māori visual arts, Māori language, flora of New Zealand, New Zealand cinema, New Zealand plant ecology, fauna of New Zealand, understanding New Zealand geology, contemporary literary forms of Aotearoa New Zealand, identity and culture in New Zealand and cross-cultural communication.

Some papers are also available through Te Kōkī New Zealand School of Music, including performance-based papers in Pasifika, Māori and Asian music. Many of these can be taken without prior musical study.

### OPPORTUNITIES BEYOND THE CLASSROOM

A characteristic of many of Massey's courses is their applied nature. Courses often provide a fieldwork component, where a period of practical learning takes place outside the formal laboratory or classroom setting. This enables students to get hands-on experience within a controlled and stimulating environment. These courses provide our visiting students with the opportunity to explore New Zealand as part of their academic studies.

Such courses include: organic farming, animal health, entomology, food and agribusiness value chains, travel writing, physical geography, earth materials, volcanology and mineralogy, plant ecology, natural resource management, and sports performance.

Volunteer placements are also available. Getting involved in extracurricular opportunities across campus and within the community is a great way to meet locals, enhance your skills, and add depth to your resumé.

Marief Hagen from the Norwegian University of Science and Technology originally chose New Zealand as her study destination because of “the novelty of being just about as far away as I could get, yet being able to study in English, within a similar cultural environment”.

Arriving in New Zealand from a cold Norwegian winter was a great start to Marief’s travel and study experience, and like many visiting students she decided to arrive a couple of weeks early to take full advantage of the New Zealand summer. And with a different adventure almost every weekend since, whether tramping with Massey’s Alpine Club, taking a trip to the coast with the Surf Club, tandem skydiving or catching some of Wellington’s colourful nightlife, there’s always something on!

For more information on Study Abroad and Student Exchange programmes at Massey, please contact the International Office by email at [studyabroad@massey.ac.nz](mailto:studyabroad@massey.ac.nz) or online at [studyabroad.massey.ac.nz](http://studyabroad.massey.ac.nz), or call us on +64 6 350 5599.

# PAUL SPOONLEY THE CHANGING FACE OF NEW ZEALAND

In 2036, the New Zealand population will have significantly increased, the Asian population will have soared, and every region in the country will be more multicultural.

Predicting these changes is the job of internationally renowned Distinguished Professor of Sociology, Paul Spoonley. The Massey professor has been chosen to study future immigration to ensure that we are prepared for the new New Zealand, and what it will mean for you.

Distinguished Professor Paul Spoonley | Author | Director of Research for College of Humanities and Social Sciences | [Massey University](#)

## YOUR GUIDE TO MASSEY'S PROGRAMMES

Massey has the largest selection of professionally recognised degrees available anywhere in New Zealand.

At Massey, you can choose from a wide variety of undergraduate degrees with extensive subject majors, as well as many diploma and certificate programmes. Many of our degrees, such as veterinary science and aviation, are only available at Massey.

## AGRI-FOOD AND ANIMAL SCIENCES

Massey is world-renowned in agri-food and animal sciences education, and is the leading provider of knowledge and expertise to New Zealand's primary production industries. Our graduates end up working at home and abroad in agriculture, horticulture, viticulture, supply chain management, food and beverage; and the retail, finance, international trade, marketing, policy, regulations, human resources and research arms of primary industries.

**AGRICOMMERCE** Our agricommerce programme incorporates the most recent developments in agribusiness and primary production because we are constantly involved in and researching our subject matter. You will gain management skills that can be used across the primary industries and a strong understanding of what it takes to be sustainable and competitive in the global food and fibre markets.

You will integrate up-to-date scientific, technological and business knowledge to shape a brighter future for what is arguably the most important industry on the planet. Career opportunities are possible in international marketing, economics, rural banking, rural valuation, government, business, sales, purchasing, consultancy, farm management, farm ownership and purchasing management.

**AGRISCIENCE** Massey's agriscience degree provides the knowledge, and the analytical and management skills, to improve the productivity and sustainability of agricultural systems. You will study the latest developments and can choose to specialise in equine, horticulture or agriculture science.

**VETERINARY SCIENCE AND ANIMAL STUDIES** The health and well-being of our farmed animals, our native species and our domestic pets are integral to our economy and our international image as staunch conservationists and animal-lovers.

Massey celebrates 50 years of veterinary education in 2013 and offers New Zealand's only veterinary science degree – one that is recognised internationally, offering graduates the opportunity to work overseas. Other study options include animal science, equine studies, physiology, veterinary technology and zoology.

## ARTS, HUMANITIES AND SOCIAL SCIENCES

The humanities and social sciences are the study of the diversity of the human condition.

They look at how people think and interact within communities, cultures and wider society.

You will study values, beliefs and histories and learn about critical thinking and problem solving, along with the fundamentals of governance and communication.

**HUMANITIES** The humanities disciplines focus on the linguistic, intellectual and cultural processes determining how humans make, recognise and argue life's meanings and values.

**MĀORI STUDIES AND MĀORI VISUAL ARTS** Māori language, society and culture are a rich, vibrant and dynamic part of Aotearoa New Zealand. Study in this area and you will develop an understanding of Māori cultural, social and economic development, and explore the retention and development of New Zealand's proud indigenous heritage.

**SOCIAL SCIENCES AND PSYCHOLOGY** The social sciences disciplines aim to understand the institutional, geographical, belief and cultural foundations of society. These fields also focus on the application of theoretical knowledge in the professions concerned with human well-being and the sustainability of communities and wider society.

**AVIATION**

For more than 25 years Massey University's School of Aviation has spearheaded the training of career pilots by paying constant attention to academic excellence, seasoned training methodologies, and state-of-the-art technology.

We offer internationally recognised training at one of the few universities in the world with a Bachelor of Aviation for air transport pilots. The Massey Diamond training fleet is the only one of its kind in New Zealand, featuring flat-panel digital avionics.

Our School of Aviation is also a collaboration partner with and preferred training provider for the Air New Zealand Aviation Institute.

**AVIATION** Massey's School of Aviation educates and trains the next generation of the world's pilots. As a Massey aviation graduate you will receive superior academic teaching, and training and knowledge with only the most modern equipment, to launch yourself into piloting aircraft in New Zealand or overseas.

**AVIATION MANAGEMENT** Aviation management combines the study of aviation with business studies. If you are wanting to enter the aviation industry, or are already employed in the field but have no previous tertiary qualifications, aviation management will prepare you for a management role or qualify you for career advancement in aviation.

## BUSINESS

At Massey we are in the business of advancing enterprise and inspiring leadership to transform the way the business world works. We offer our students the opportunity to develop the knowledge and skills they will need to excel in any area of business.

You will learn to think clearly, creatively, critically and analytically, developing just the right mix of practical and theoretical skills to apply in real-life business situations. Upon graduation you will be well equipped to add value to any enterprise, at home or abroad.

Massey strives to create a stimulating learning and research environment to enrich students' learning in areas such as accounting, economics, entrepreneurship, finance, international business, management, marketing, property and valuation (and more!).

**BUSINESS** With a Massey business studies degree you will have the flexibility and freedom to choose one or two majors across 11 subject areas. You will graduate with a broad base of business knowledge combined with specialist knowledge of a particular area within business – chosen by you. The areas you study will open up great career opportunities in almost any area of business enterprise.

**ACCOUNTANCY** With accountancy you will acquire the knowledge and technical skills to analyse the whole gamut of accounting and business problems. In addition, you will discover how best to communicate and use financial information to support business decisions and drive growth for enterprises ranging from small businesses right through to corporations and nations.

**APPLIED ECONOMICS** Applied economics is the application of economic theories and principles to real-world situations with the aim of predicting potential outcomes. In other words this is a practical degree in economics that prepares you for a role such as an economic analyst or policy-maker, in New Zealand and overseas.

## COMMUNICATION, JOURNALISM AND MEDIA

In the 21st century communication has changed significantly and is now recognised as a key component of carrying out any successful business operation. And right in the centre of this modern communication are the fields of journalism and the media.

With a communication or media qualification from Massey, you will have a clear advantage in this dynamic, competitive and expanding field, with opportunities in publicity, journalism, multimedia, organisational communication, radio, television, writing and public relations.

**COMMUNICATION** This degree is an integrated, comprehensive, unique three-year qualification bringing together programmes from the College of Business and College of Humanities and Social Sciences.

Your studies will look into interpersonal, organisational and mass communication through a fascinating blend of theory and "real life" practice. Following graduation, you will have the opportunity for an exciting career in the public and private sectors.

**JOURNALISM STUDIES** While news is constantly changing in both content and delivery, journalism remains a fascinating area of study. Developing an understanding of theoretical and applied issues in journalism and related areas will provide you with invaluable techniques from news gathering to feature writing and editing.

**MEDIA STUDIES** You will acquire a thorough understanding of the information-rich society in which we live with this exciting and challenging discipline, which provides an understanding of the importance of media within cultural, social, political and economic spheres.

Massey's media studies students have pursued careers in radio, film and television, teaching, government agencies and many other media-related industries.

## DESIGN AND FINE ARTS

*Natalie Sherwin, textile designer*

Graduating with a design or fine arts degree from Massey puts you amongst some of New Zealand's most illustrious designers and fine artists, and can set you up for a highly successful career in the creative industries.

Innovative ideas are valued alongside the ability to develop and express these in practice, with the support of expert teachers as well as your peers.

Staff members include artists, designers and academics who are well connected with industry and the international design and art world.

**DESIGN** A design degree opens the doors to many creative careers, from being a creative director in advertising or film to a set designer for theatre or a fashion photographer. If you like digital media then you can explore jobs in web development or computer game design, and if you are into inventing things, then maybe being a product or industrial designer for a big brand will be your destination.

**FINE ARTS** A degree in fine arts develops expertise in painting, sculpture, time-based arts and photography, using conventional as well as digital media. Practical learning is complemented by history, theory and critical thinking to develop creative and informed graduates who can become artists, curators, commentators and much more in a broad range of creative endeavours.

## EDUCATION, TEACHING AND SPEECH AND LANGUAGE THERAPY

Education is a broad subject area. Massey recognises this by teaching specialist skills in all aspects of the field, from teaching English as an additional language to education support workers.

Massey's education and speech and language therapy degrees can give you a satisfying and challenging future by providing you with skills that are in demand throughout New Zealand and overseas. Check out qualifications in human development, speech and language therapy, teaching English as an additional language and education support workers.

**SPEECH AND LANGUAGE THERAPY** This four-year degree is a combination of academic coursework and supervised clinical experience. The disorders you will study include language, phonological and articulation disorders, fluency, voice, motor speech, aphasia and swallowing disorders.

**TEACHING** More and more, skilled educators are in demand around the world. As a teacher, you can extend the skills, talents and knowledge of people of all ages, changing lives and shaping futures. Massey will provide you with real experience and the chance to apply your knowledge as you learn.

**MUSIC THERAPY** A Master of Music Therapy is also offered through Te Kōkī New Zealand School of Music, the only postgraduate degree of its kind offered in New Zealand. This is a two-year course of study: an initial year of coursework followed by a year of case work and research.

## ENGINEERING AND TECHNOLOGY

Massey's engineering and food technology programmes are fostering a new breed of multi-skilled and commercially savvy engineers and food technologists, driving innovative and world-changing development projects for industry in New Zealand and overseas.

Today's employers are demanding quality graduates with knowledge and practical skills in the engineering, construction, manufacturing, processing and food industries. At Massey, we will give you not only the technical skills, but also the creative, marketing and business expertise to turn your ideas into reality.

**FOOD TECHNOLOGY** Upon graduating with a food technology degree with a major in food process engineering or food product technology, you can look forward to being involved in developing new food products and technologies, while helping to make food safe, nutritious, attractive and affordable. Coming up with the latest taste sensations and the technology to produce them is what food technology at Massey is all about.

**PRODUCT DEVELOPMENT** Fancy yourself as an inventor? With a particular focus on taking products to market, Massey's product development major will give you a sound basis in engineering principles complemented by innovation, industrial management, design and marketing, to make your ideas come to life as commercially viable products.

**ELECTRONICS AND COMPUTER ENGINEERING** Innovations like iPads, smart-phones and online shopping are just a few examples of the technology of the future. Enter this exciting field and discover how to design electronic products and systems and learn about engineering and systems software, data communication, computer organisation and architecture.

**MECHATRONICS** Mechatronics is about developing intelligent mechanical, electronic, computer and precision engineered products and systems. With this degree you will learn how to design such products and their processes to be efficient and profitable, and acquire the business skills to take those products to market.

**CONSTRUCTION** Making aesthetically pleasing, cost-effective and functional buildings in which to live, work and play is fundamental to our sense of well-being. With a Massey Bachelor of Construction you will gain the knowledge required to plan, cost and roll out construction projects, along with a solid understanding of building industry regulations and sustainable construction practices.

**CHEMICAL AND BIOPROCESS ENGINEERING** New Zealand's economy relies on adding value to quality raw ingredients from the land and sea. But there's always room for improvement, and manufacturing and processing are no exception. With this degree you will learn how to assess and create economically and environmentally sustainable manufacturing processes to create new, innovative products.

## HEALTH AND WELL-BEING

Massey takes a fresh approach to looking at the complex fields of health, wellness and well-being, believing that talented and compassionate graduates are at the heart of any health system, and their education and ongoing training need to reflect this.

Inclusive of administration, health policy and promotion, along with the frontline hands-on professionals dealing with people every day, the field of health and well-being offers some of the most rewarding careers available worldwide.

Massey's health and well-being educators draw their experience from public health, food science and technology, nutrition and physiology, sport and exercise, rehabilitation, nursing, Māori and Pasifika health, occupational health and safety, social work and social policy and medical laboratory science.

**NURSING** Nursing combines compassion, knowledge and sophisticated health technologies to restore, maintain and promote the health of individuals and communities. Massey's nursing programmes, taught across all three campuses, are delivered by experienced staff in a supportive learning environment, providing the best possible learning experiences.

We prepare students to become registered nurses or, if you are already a registered nurse, can assist you to develop your career in nursing. Our high-quality undergraduate and postgraduate programmes are approved by the Nursing Council of New Zealand and recognised in many countries around the world.

**SOCIAL POLICY AND SOCIAL WORK** Social policy is about promoting policy options to produce better relationships and environments within which people can thrive. Social work is about making a real difference on the ground by facilitating social change for individuals, families and communities. A Massey qualification in either of these fields provides a pathway to professional success in New Zealand and internationally.

**HEALTH SCIENCE** Health science joins the teaching of health policy and the sociopolitical importance of health with specific majors in the factors that directly affect physical and mental health and rehabilitation.

## SCIENCES

Sciences at Massey are exciting and cutting edge – they combine intellectual challenge with the satisfaction of discovery and application. Leaders and influential thinkers see the training, nurturing and appointment of well qualified scientists as instrumental to positive growth and development. At Massey you are taught by those making a difference in their fields.

**AGRISCIENCE** Massey's agriscience degree provides the knowledge, and the analytical and management skills, to improve the productivity and sustainability of agriculture. You will study the latest developments, can choose to specialise in equine, horticulture or agriculture and will be highly sought after by input supply firms such as fertiliser companies and seed suppliers, as well as technical advisers and agronomists.

**NATURAL SCIENCES** A Massey science degree will provide you with an integrative and interdisciplinary knowledge of the natural sciences. You could study areas such as the sociology of science, sustainability, philosophy and project management, and selected students will be invited to participate in a fast-track masterate programme at the end of their second year.

**INFORMATION SCIENCES** Better computer systems give businesses a competitive edge: they improve services and they improve our lives. Massey offers you an extensive course range to get into the exciting international industry of information and computer technology. Check out qualifications in information sciences, science, business information systems, engineering and design.

**BIOLOGICAL, MATHEMATICAL AND PHYSICAL SCIENCES** What makes the world tick? Why are we the way we are? Sciences is about discovery and provides us with the knowledge and skills to answer fundamental and relevant questions in today's world. Exciting careers in fields as diverse as science, conservation, policy and law are possible with an excellent understanding of sciences and the right motivation.

## SPORT

Sport and exercise are integral to New Zealand society. You can turn your love of sport and exercise into an exciting career.

Massey is committed to the pursuit of excellence in both the teaching and the research of all aspects of sport and exercise. Our programmes are closely tied to local, national and international sporting bodies. Study sport and exercise and look forward to a career in sports management and administration, facility and event management, sport marketing and sponsorship, coaching and teaching, or the fitness and leisure industry.

**SPORT** Massey's sport and exercise degree programmes encompass learning in various disciplines, with the opportunity to specialise through a major in one of the fields of management and coaching, physical education, or exercise prescription and training. You will learn to think critically and analytically, and relate ideas to practical business situations within sport.

## MUSIC

Music is as old as humanity itself. Whether it's the rich interweaving of baroque instruments or the complex interplay of contemporary electronica, music reaches out and connects us: to our past, to other cultures, and to each other.

Massey students are able to take some music courses as a minor for their Bachelor of Arts. Some of these courses are also available as distance learning papers through Massey.

Students can also study towards a full Bachelor of Music (BMus) by enrolling as Te Kōkī New Zealand School of Music (NZSM) students.

Through NZSM, the degree is jointly awarded by Massey and Victoria Universities. Programmes include classical performance, composition and sonic arts, jazz and music studies.

An audition and background in music theory is required for some courses, while for others no prior study of music is required.

Contact NZSM for more information about the BA minor in music or the BMus majoring in music: see [www.nzsm.ac.nz](http://www.nzsm.ac.nz), phone +64 4 463 5369 or email [music@nzsm.ac.nz](mailto:music@nzsm.ac.nz)

**MUSIC** In 2006, NZSM was created through the merger of the Massey University Conservatorium of Music and the Victoria University School of Music. At NZSM you will study under some of New Zealand's leading performers, composers and academics, encouraging you to achieve your musical potential and gain presentation, creative and academic skills that are highly transferable to a wide range of professions.

## PROFESSIONAL AND CONTINUING EDUCATION

**Massey University's Centre for Professional and Continuing Education (PaCE) offers a range of short courses and programmes to meet the needs of national and international students.**

### PATHWAYS TO STUDY AT MASSEY

#### Academic English programmes

PaCE delivers academic English proficiency programmes such as the Direct English Entry Pathway (DEEP) – an intensive, four-month English language course designed to facilitate the entry of international students to Massey University's undergraduate and postgraduate degree programmes.

DEEP is helpful for those who have the relevant academic entrance requirements but don't meet the English language or literacy admission requirements for degree study.

#### Intensive English language programmes

PaCE also offers the pre-degree Certificate in English with courses available at four levels of language proficiency. Students from all over the world become part of a strong learning community and often choose to go on to DEEP or a university preparation programme for further tertiary study, or choose to sit an internationally recognised English language test (IELTS).

#### University preparation programmes

PaCE delivers effective foundation studies programmes for international students. In the Certificate of University Preparation and the Certificate in Foundation Studies, Massey academic staff provide study skills and academic input to prepare students for entry to their undergraduate degree programmes.

The Certificate of University Preparation prepares and qualifies students for undergraduate study at university. The programme is made up of four subjects: communication and study skills and two academic subjects. The course takes one semester. The successful completion of the certificate will provide an entry-level qualification, and you will be able to enrol in a degree in the semester after completion.

The Certificate in Foundation Studies is a full-time programme that will help you meet the academic and English language/literacy requirements for university entrance at undergraduate level.

The programme is made up of six subjects: academic English, study skills, and four academic subjects, and takes two semesters.

The certificate will provide you with a strong foundation in a variety of disciplines as well as English language for academic purposes and study skills. It also allows students to learn about and adapt to the New Zealand university study environment.

### CUSTOMISED LEARNING AT MASSEY

#### Customised short courses and learning tours

The University also offers short study tours of lectures, seminars, workshops and field trips in selected subjects for international groups and delegations. Massey University is one of New Zealand's most experienced providers, and has been specialising in developing these courses and tours for more than 20 years. In this time we have been working with a wide variety of organisations – from partner universities to government ministries and professional organisations.

The length, start dates and number of participants for the customised courses and tours can be negotiated with the University.

[pace.massey.ac.nz](http://pace.massey.ac.nz)

[english.massey.ac.nz](http://english.massey.ac.nz)

[uniprep.massey.ac.nz](http://uniprep.massey.ac.nz)

## STUDYING WITH US AT MASSEY

This section contains practical things you need to know before you choose to study at Massey.

## ESSENTIAL INFORMATION FOR INTERNATIONAL STUDENTS

### CODE OF PRACTICE FOR INTERNATIONAL STUDENTS

Massey University has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Ministry of Education. Copies of the code are available on request from Massey or from the New Zealand Ministry of Education website at [www.minedu.govt.nz/international](http://www.minedu.govt.nz/international)

### IMMIGRATION

Full details of visa and permit requirements, advice on rights to employment in New Zealand while studying and reporting requirements are available through the New Zealand Immigration Service, and can be viewed on its website at [www.immigration.govt.nz](http://www.immigration.govt.nz)

### WORKING IN NEW ZEALAND WHILE ON A STUDENT VISA

Most international students can work part-time up to 20 hours per week while studying in New Zealand on a student permit.

Please refer to [www.immigration.govt.nz](http://www.immigration.govt.nz) for details.

### LIVING COSTS

The cost of living in New Zealand is generally lower than in most developed countries. In addition to the tuition fees at Massey, students need to plan carefully to have sufficient money to cover their accommodation and daily living expenses, such as food, telephone and electricity, daily transport, recreational activities, insurance and other personal needs. It is estimated that students will need

on average NZ\$360 per week or NZ\$15,000 per academic year to cover their living expenses. Individual student expenses will vary depending on a student's own personal requirements and also the Massey campus chosen. For further information, please visit [international.massey.ac.nz](http://international.massey.ac.nz)

### ELIGIBILITY FOR HEALTH SERVICES

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details of entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on its website at [www.moh.govt.nz](http://www.moh.govt.nz)

### ACCIDENT INSURANCE

The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website at [www.acc.co.nz](http://www.acc.co.nz)

### MEDICAL AND TRAVEL INSURANCE

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand. For further information please visit [international.massey.ac.nz](http://international.massey.ac.nz)

ESTIMATED AVERAGE COST FOR A STUDENT LIVING IN UNIVERSITY-MANAGED HOUSING	TOTAL (NZ\$)
Accommodation and utilities <sup>1</sup>	\$10,348
Supermarket food	\$2574
Personal expenses (clothing, recreation and miscellaneous)	\$3120
Bus transport <sup>2</sup>	\$1260
Textbooks and supplies	\$1000
Total estimated living costs PER YEAR (42 weeks)	\$18,302
Total estimated living costs PER SEMESTER (21 weeks)	\$9151

<sup>1</sup> Note, utilities are included in accommodation fees at the Manawatū campus

<sup>2</sup> Note, bus transport is free at the Manawatū campus

Note, the arrival collection service for new students at the Albany campus costs \$75

Costs as of May 2013

International Student Support

INTERNATIONAL STUDENT SUPPORT

# STUDENT SUPPORT SERVICES AND FACILITIES

**MASSEY PROVIDES MODERN FACILITIES AND STUDENT-CENTRED SERVICES ON ALL CAMPUSES TO ENSURE A WELL ROUNDED, FULFILLING AND ENJOYABLE STUDENT EXPERIENCE.**

#### **THE INTERNATIONAL OFFICE**

The first point of contact for information on courses, fees and admission requirements, and for any other questions you might have is Massey's International Office. Email us at [international@massey.ac.nz](mailto:international@massey.ac.nz)

#### **SUPPORT FOR INTERNATIONAL STUDENTS**

An International Students' Support team on each campus assists with accommodation, student insurance, visa arrangements and airport collection if requested, and organises the introduction to Massey through the international students orientation programme, as well as providing ongoing student support throughout the year.

#### **WELCOME AND ORIENTATION WEEK**

During the week prior to semester start, a number of workshops and fun activities are delivered through Massey's mandatory international students orientation programme. This helps assimilate international students into university life within the context of the wider New Zealand culture.

#### **FULL ACADEMIC SUPPORT**

Massey students enjoy access to a full range of support services, including modern computer facilities, a Massey username and email account, free internet access and Information Technology Services support.

The Student Learning Centre helps students to develop good study practices and examination skills by running regular workshops and individual consultations: [learning.massey.ac.nz](http://learning.massey.ac.nz)

#### **LIBRARIES**

Libraries are located on each Massey campus, with Massey's Library Service holding more than one million books, plus access to thousands of online print and electronic journals: [library.massey.ac.nz](http://library.massey.ac.nz)

A specialist Disability Service ensures that the University learning environment is accessible, comfortable and supportive for those with special needs.

#### **COMPUTING**

Our Information Technology service provides you with a range of computer facilities on all campuses, and over the internet. Every student is assigned a Massey student usercode and email address, which can be used to access online services such as course and campus information, email and enrolment online. Once enrolled, you can use the online courses provided on the Massey website. There are also facilities for you to store and print the files you need for your coursework. There is also free wi-fi available at all three campuses.

#### **HEALTH AND WELL-BEING**

The Massey University Medical Centre operates on each campus during normal office hours and also provides an after-hours emergency service. The University Counselling Service provides professional, confidential counselling for students experiencing personal problems, study difficulties, family concerns or issues with career planning and assessment.

The Chaplaincy Service serves the needs of students and staff from a variety of faiths and traditions. Christian groups for prayer and Bible study operate on all campuses, and each campus also has a Muslim prayer room.

For student services and contact information for each campus, please visit [studentservices.massey.ac.nz](http://studentservices.massey.ac.nz)

## RESEARCH

The Graduate School Office provides support and guidance for doctoral students joining the Massey University research community.

## CAMPUS LIFE AND LEISURE

Massey is committed to ensuring an active, enriching campus life beyond the academic experience, and has facilities, associations and clubs to meet the needs of the student community. Sport and recreation facilities differ between campuses and include quality training rooms, group fitness studios, exercise classes and playing fields.

You can view the facilities and activities at [recreation.massey.ac.nz](http://recreation.massey.ac.nz)

Massey Students' Associations on each campus act as student advocates to the University and wider community, and work with the University to deliver events such as Orientation Week and the annual "Unity in Diversity" festival, radio broadcasting and publishing the campus magazine. The hundreds of Massey student clubs, societies and cultural groups include debating, drama, snowboarding, surfing and martial arts.

Massey's marae (Māori meeting place), Te Kuratini at Wellington, welcomes international students and provides the opportunity to learn more about the fascinating and unique culture of New Zealand's indigenous people.

## TOP-QUALITY ACCOMMODATION

Massey University offers a range of quality housing and living options on and off campus; students can also live with local home stay families. The bedrooms in University accommodation are single-person occupancy and include a bed and study desk with shared kitchen and bathroom facilities. The University also provides fridges, ovens, cooking utensils, televisions and laundry facilities. University housing is managed and regularly assessed by Massey University.

The Accommodation Office on each campus provides advice on accommodation options, tenancy agreements and dispute resolution. To view the housing options available, please visit: [accommodation.massey.ac.nz](http://accommodation.massey.ac.nz)

## CAREER INFORMATION AND ALUMNI RELATIONS

Career and Employment Services on each campus provide career advice, job search strategies and help with interview skills, as well as networking opportunities and access to graduate vacancies via a careers website: [careerhub.massey.ac.nz](http://careerhub.massey.ac.nz)

The Office of Development and Alumni Relations networks with the global Massey University community and organises regular social events. Go to [alumni.massey.ac.nz](http://alumni.massey.ac.nz) for more information.

# STEPHANY TARILEO TAKING TO THE SKIES

Stephany had always wanted to fly planes. Her father is a pilot, and she spent her childhood plane-watching at the airport. But in a male-dominated industry, in a country where women are destined to become housewives, it seemed an impossible dream.

After being awarded an NZAID scholarship, she left behind her family and a place in Vanuatu's under-21 netball team to study aviation at Massey.

Today, she has become only the second woman from Vanuatu to become an airline pilot.

Stephany Tarileo | Bachelor of Aviation (Air Transport Pilot)

Massey University

UNIVERSITY  
TE KUNENGA KI PŪREHUROA

UNIVERSITY OF NEW ZEALAND

## SCHOLARSHIPS AND FINANCIAL AID

**INTERNATIONAL STUDENTS PLANNING TO STUDY AT MASSEY UNIVERSITY ARE WELCOME TO APPLY FOR A SCHOLARSHIP TO SUPPORT THEIR STUDY FINANCIALLY IN NEW ZEALAND.**

**NZAID NEW ZEALAND DEVELOPMENT SCHOLARSHIPS**

The New Zealand Government, through its International Aid and Development Agency (NZAID), provides scholarships to citizens of some developing countries to undertake tertiary-level study in New Zealand. For further information on these scholarships, please visit [www.aid.govt.nz/funding-and-contracts/scholarships/](http://www.aid.govt.nz/funding-and-contracts/scholarships/)

**FEDERAL AID**

Massey University is accredited to participate in the Direct Loan Programme, under which American citizens and qualifying non-American citizens are eligible to access United States federal student loans while studying at Massey towards Bachelor, Master or Doctorate degrees.

For further information or to apply, please email [intl.studentfinancialaid@massey.ac.nz](mailto:intl.studentfinancialaid@massey.ac.nz) or refer to the international section here: [www.massey.ac.nz/massey/international/study-on-campus/fees-insurance/fees-insurance\\_home.cfm](http://www.massey.ac.nz/massey/international/study-on-campus/fees-insurance/fees-insurance_home.cfm)

Please note the Massey University Direct Loan school code is G13153.

**COMMONWEALTH SCHOLARSHIPS**

These are offered to students from other parts of the Commonwealth under the Commonwealth Scholarship and Fellowship Plan. The scholarships' aim is to provide opportunities for students to pursue advanced courses or undertake research at a universities in New Zealand. For further information please visit [www.aid.govt.nz/funding-and-contracts/scholarships/types-scholarship/commonwealth-scholarships](http://www.aid.govt.nz/funding-and-contracts/scholarships/types-scholarship/commonwealth-scholarships)

**MASSEY UNIVERSITY DOCTORAL SCHOLARSHIP**

The value of the Doctoral Scholarship is NZ\$25,000 per annum. For full details and to apply, please visit [awards.massey.ac.nz](http://awards.massey.ac.nz)

**MASSEY UNIVERSITY VICE-CHANCELLOR'S DOCTORAL SCHOLARSHIP**

The value of the Vice-Chancellor's Doctoral Scholarship is NZ\$28,000 per annum for a maximum of three years. For full details and to apply, please visit [awards.massey.ac.nz](http://awards.massey.ac.nz)

**NEW ZEALAND INTERNATIONAL DOCTORAL RESEARCH SCHOLARSHIPS (NZIDRS)**

The New Zealand International Doctoral Research Scholarships provide financial support for postgraduate students seeking doctoral degrees by research in New Zealand universities. For further information, please visit [www.newzealandeducated.com/nzidrs](http://www.newzealandeducated.com/nzidrs)

## ACADEMIC ENTRY REQUIREMENTS

The information provided is a guide only and entry requirements are subject to change.

All applications are assessed on a case-by-case basis. If your qualification is not listed, please submit an application with verified copies of your transcripts to the International Office so that your application can be assessed.

Refer to [international.massey.ac.nz](http://international.massey.ac.nz) for the current requirements.

COUNTRY	FOUNDATION	UNDERGRADUATE DEGREE
Australia	Successful completion of Year 12 with a minimum TER of 50	Successful completion of Year 12 with a minimum TER (or ATAR) or equivalent of 74
Canada	Grade 12 certificate	General: high school graduation with minimum achievement of 65% Ontario: secondary diploma with a minimum average 65% in Grade 12; CEGEP one year with 65% across 6 subjects including English. Higher levels of achievement will be required for limited entry courses All other qualifications will be considered on a case by case basis
China	Year 3 certificate of graduation, minimum 70% <b>or</b> completion of Senior Middle 2 exams with superior grades of 80% (average), <b>or</b> completion of Vocational Senior High School 2 with a minimum of five academic subjects and a minimum GPA of 80% overall in all academic subjects undertaken, <b>or</b> completion of Vocational Senior High School with minimum of 70% (this only applies to students who've done academic subjects in their vocation high school study)	Successful completion of one year's study at a recognised tertiary institution plus one year's study at undergraduate level <b>or</b> successful completion of a two-year diploma at a recognised institution, <b>or</b> a minimum of successful completion of two years out of a three-year diploma at a recognised institution, <b>or</b> completed Gaokao (General/National College Entrance Examination) with tier one score from the province where Gaokao was sat
Denmark		Successful completion of Studentereksamen (upper secondary school leaving examination) or Avgagsbetyg
Fiji	Fiji School Leaving Certificate: 65% in four academic subjects	Fiji Form 7 Certificate: aggregate over four subjects 250 marks out of 400, with a minimum of 50 in English, <b>or</b> USP foundation year in either science or social sciences with a grade average of B and no grade lower than C in the seven required courses
Germany	Mittlere Reife/Realschulabschluss	Successful completion of Senior High School (Zeugnis der Allgemeinen Hochschulreife – Abitur)
Hong Kong	Hong Kong Certificate of Education, minimum of two C and two D grades or equivalent, or Hong Kong Diploma in Secondary Education with score of 11 over five best academic subjects (excluding Chinese)	Three Hong Kong advanced level passes with one at grade C or higher in academic subjects; <b>or</b> holders of the Hong Kong Diploma in Secondary Education must present at least three subjects achieved at Level 4 or better, including English language and two elective subjects
India	All India Higher Secondary Certificate (Year 12), minimum 65% over four academic subjects, <b>or</b> Higher Secondary School (Year 12) minimum 75% over three academic subjects	Higher secondary school examination or All-India Senior School Certificate with 75% in each of four academic subjects
Indonesia	SMU 7.0	SMU with a minimum GPA 8.5, <b>or</b> one year of successful study at an internationally recognised tertiary institute
Japan	Upper Secondary School Leaving Certificate with a C average	Associate degree/diploma from a Junior College (Jun-Gakushi) with a B (3.5) average
Malaysia	SPM: Grade 4 average in five subjects, or UEC: Grade 6 average over five subjects	STPM with three passes with one C or better, <b>or</b> UEC with a maximum of 15 points over six academic subjects excluding English but including one of chemistry, physics or advanced mathematics, <b>or</b> GCE A-levels with at least three results with one grade at Level C or above, <b>or</b> SAM (or equivalent) with a minimum tertiary entrance rank of 74

COUNTRY	FOUNDATION	UNDERGRADUATE DEGREE
<b>New Zealand</b>	Completion of Year 12 with a minimum of 50 NCEA credits at Level 2 in approved subjects, including at least 14 credits and Level 1 or higher in mathematics and 14 credits at Level 1 or higher in English	NCEA – 42 credits at Level 3 or above, including a minimum of 14 credits at Level 3 in each of two subjects from an approved subject list, with an additional 14 credits at Level 3 taken from no more than two additional subjects – eight credits at Level 2 or higher in English (four credits reading, four credits writing)
<b>Norway</b>		Successful completion of Videregaende Skole (upper secondary school)
<b>Oman</b>	General Secondary School Leaving Certificate with 70% average in best five subjects (excluding Arabic/Islamic Education) and 70% in math	Successful completion of a two-year diploma from a recognised tertiary institution
<b>Pakistan</b>	Secondary School Certificate with 60% average (B Grade or Division 1)	Successful completion of one year's study at an internationally recognised tertiary institution
<b>Papua New Guinea</b>	Higher School Certificate with Grade B in five academic subjects	Successful completion of one year's study at an internationally recognised tertiary institution Successful completion of the South Pacific Form 7 Certificate (with three or more B grades in academic subjects)
<b>Philippines</b>	Secondary school with superior grades (Grade B) in Year 4	Successful completion of one year's study at an internationally recognised tertiary institution
<b>Russia</b>	Certificate of Secondary Education with a Grade 4 average	Successful completion of one year's study at an internationally recognised tertiary institution
<b>Saudi Arabia</b>	General Secondary Education Certificate with a Very Good grade (75%) over four best academic subjects	Successful completion of either undergraduate study or an associate degree at a recognised tertiary institution
<b>Singapore</b>	GCE O-level Grade B4 over four subjects	A minimum of two H2 passes and a third pass at H1 or H2 level, plus at least an E grade in N-level/O-level mathematics or additional mathematics, <b>or</b> successful completion of NUS High School Diploma
<b>Solomon Islands</b>	Completion of secondary school with a B average	USP foundation year, seven passes with a minimum of C in communication
<b>South Africa</b>	Senior Certificate with two B and two C grades at Standard Grade	Successful completion of the South African National Senior Certificate that enables entry to university. A minimum of D in English
<b>South Korea</b>	High school diploma with a C average	Korean CSAT with a minimum score of 80%, <b>or</b> High School Diploma with a B average (80-84%) in academic subjects
<b>South Pacific Countries</b>	Completion of South Pacific Form 7 Certificate	South Pacific Form 7 Certificate: three or more B grades in academic subjects with a minimum of Grade 5 in PSSC English and Grade 6 in PSSC maths
<b>Sri Lanka</b>	GCE O-levels with credit grade in four subjects	GCE A-levels with three credit passes
<b>Sweden</b>		Successful completion of Avgangsbetyg or Slutbetyg
<b>Taiwan</b>	Senior high school with a C average	Successful completion of one year's tertiary study at an internationally recognised university
<b>Thailand</b>	Matayom 6 with grade average of 2.5	Successful completion of one year's tertiary study at an internationally recognised tertiary institution
<b>Tonga</b>	Successful completion of Form 7	Successful completion of the USP Foundation Programme
<b>United Kingdom</b>	GCSE with two B and two C grades	GCE A-levels with three passes and a minimum of one at C grade
<b>United States of America</b>	High School Diploma	High School Diploma with a C grade average plus SAT with a minimum score of 550 in both verbal and math, <b>or</b> ACT composite score of 22, <b>or</b> successful completion of an associate's degree from an internationally recognised tertiary institution
<b>Vietnam</b>	Senior secondary graduation with a Grade 6 average	Successful completion of one year's tertiary study at an internationally recognised tertiary institution
<b>Worldwide (international qualifications)</b>	International Baccalaureate (IB) with aggregate 21 in six subjects (average 3.5 on 1-7 scale)  Cambridge International Examination or Advanced International Certificate of Education (CIE/AICE) with pass grades in four academic subjects	International Baccalaureate (IB) with successful completion of 24 points minimum  If taken in New Zealand, Cambridge International Examination or Advanced International Certificate of Education (CIE/AICE) A or AS levels a minimum of 120 points on the UCAS tariff and a minimum D grade in each of at least three subjects. Plus a minimum E grade in AS English and a D grade in IGCSE mathematics.  Taken in countries other than New Zealand, Cambridge International Examination or Advanced International Certificate of Education (CIE/AICE) three A-levels including at least one C grade or better. A result in general studies cannot be included among the three on which the application is based

## WHAT CAN I STUDY?

The A–Z of Massey qualifications.

## ENGLISH LANGUAGE PROGRAMMES

- Certificate of Attendance in General English
- Intensive English Language Studies (Certificate ESOL)
- Direct Entry English Pathway**
  - Academic English Pathway (UG DEEP)
  - Advanced Academic English Pathway (PG DEEP)

## PRE-DEGREE AND BRIDGING PROGRAMMES

- Certificate in Foundation Studies (Full Foundation)
- Certificate of University Preparation (Fast-track Foundation)
- Foundation Certificate in Jazz NZSM

## UNDERGRADUATE CERTIFICATES AND DIPLOMAS

- Certificate in Art and Design Studies
- Certificate in Arts
- Certificate in Aviation Studies
- Certificate in Business Studies
- Certificate in Science and Technology
- Diploma in Arts
- Diploma in Business Studies
- Diploma in Health Science
- Diploma in Photography
- Diploma in Science and Technology

## UNDERGRADUATE DEGREE PROGRAMMES

### Bachelor of Accountancy

### Bachelor of AgriCommerce

- Agricultural Economics
- Farm Management
- Food Economics and Society
- Food Marketing and Retailing
- International Agribusiness

### Bachelor of AgriScience

- Agriculture
- Equine
- Horticulture

### Bachelor of Applied Economics

### Bachelor of Arts

- Business Psychology
- Economics
- Educational Psychology
- English
- Environmental Studies
- Geography
- Linguistics
- Mathematics
- Media Studies
- Philosophy
- Politics
- Psychology
- Social Anthropology
- Social Policy
- Sociology
- Statistics

### Bachelor of Aviation

Air Transport Pilot (Aeroplane only)

### Bachelor of Aviation Management

(Palmerston North or Singapore Aviation Academy)

### Bachelor of Business Studies

- Accountancy
- Business Information Systems
- Communication
- Economics
- Entrepreneurship and Small Business
- Finance
- Human Resource Management
- International Business
- Management
- Marketing
- Valuation and Property Management

### Bachelor of Communication

- Communication Management
- Expressive Arts
- Journalism Studies
- Linguistics
- Marketing Communication
- Media Studies
- Public Relations

### Bachelor of Construction

- Construction Management
- Quantity Surveying

### Bachelor of Design (Honours)

- Fashion Design
- Industrial Design
- Photography
- Spatial Design
- Textile Design
- Visual Communication Design

### Bachelor of Engineering (Honours)

- Chemical and Bioprocess Engineering
- Electronics and Computer Engineering
- Mechatronics
- Product Development

### Bachelor of Fine Arts (Honours)

### Bachelor of Food Technology (Honours)

- Food Process Engineering
- Food Product Technology

### Bachelor of Health Science (Honours)

- Environmental Health
- Psychology
- Sport and Exercise

### Bachelor of Information Sciences

- Computer Science
- Information Technology
- Software Engineering

### Bachelor of Māori Visual Arts

### Bachelor of Medical Laboratory Science

### Bachelor of Music NZSM

- Classical Performance
- Composition/Sonic Arts
- Jazz
- Ethnomusicology
- Musicology
- Music Studies

## STUDY ABROAD

Study Abroad programme

## APPLY TO STUDY AT MASSEY

We warmly invite you to consider Massey University as your study destination in New Zealand. At Massey, you will be part of a diverse international community whose contribution to academic and cultural life will be encouraged and valued. We welcome enquiries and applications directly from students or through the services of our registered agents around the world.

### INTERNATIONAL OFFICE

Massey's International Office is the first point of contact for course information and advice. Please contact us for any information about university programmes, fees and admission requirements, and with any other questions you might have about studying at Massey.

### ADMISSION CRITERIA

Students need to meet both the academic and the English language requirements of their intended programmes of study. Please refer to [international.massey.ac.nz](http://international.massey.ac.nz) for the specific criteria for pre-degree, undergraduate and postgraduate applicants.

**PhD:** A high-calibre Master or Bachelor degree with Honours and demonstrated research skills.

**Postgraduate:** An appropriate undergraduate degree from a recognised tertiary institution.

**Graduate diploma:** An appropriate three-year diploma or undergraduate degree from a recognised tertiary institution.

**Undergraduate:** Achieved the equivalent to Year 13 in New Zealand (NCEA Level 3 University Entrance).

**Pre-degree:** Achieved the equivalent to Year 12 in New Zealand.

### ENGLISH LANGUAGE REQUIREMENTS

The minimum English language requirements for admission to Massey University are:

#### Postgraduate (including PhD)

Academic IELTS 6.5 (no band less than 6.0); or TOEFL 575 (paper) TWE 4.0 or TOEFL 232 (computer) ER 4.0, or, iBT 90 (Internet) with writing score of 20.

#### Undergraduate (including Graduate Diplomas)

Academic IELTS 6.0 (no band less than 5.5); or TOEFL 550 (paper) TWE 4.0 or TOEFL 213 (computer) ER 4.0, or, iBT 80 (internet) with writing score of 19.

#### Pre-degree (including Certificate of Foundation Studies)

Academic IELTS 5.5 (no band less than 5.0); or TOEFL 525 (paper) or TOEFL 196 (computer) ER 4.0, or, iBT 70 (internet) with writing score of 18.

### Note:

1. English language test results are valid for two years only.
2. Applicants with TOEFL/iBT results please request ETS to send the results directly to Massey University. The institutional code is 9480.
3. English language requirements for some programmes are higher than the minimum. Please check the specific course requirements before you apply.

### CREDIT TRANSFER

Massey may grant credit or advanced standing for undergraduate-level study undertaken at another tertiary institution. To apply for credit, international students should provide course summaries of the equivalent courses completed. These course summaries should be submitted to the International Office together with the Application for Admission as an International Student form for assessment.

### APPLICATION FORM AND PROCESS

To be considered for admission to Massey University, international students need to complete and return the Application for Admission as an International Student form along with their supporting documents to the International Office.

All applications will be acknowledged and assessed for eligibility. There is no application fee charged. Successful applicants will be sent an Offer of Place together with information on the enrolment procedures and details about how to apply for University-managed accommodation.

Our website also provides a full and detailed list of the steps in the application process. Please refer to [international.massey.ac.nz](http://international.massey.ac.nz)

### APPLICATION CLOSING DATES

(These dates will be clarified when 2014 semester dates are released)

#### Semester One (February):

Applications close December 8 previous to the year of intended study.

#### Semester Two (July):

Applications close May 1.

Please note applications can be submitted at any time by PhD candidates and English language applicants. For all other programmes, applications received after the closing dates will be considered on an individual basis and are subject to programme space and campus availability.

#### Intake Three (August, September and November):

Applications close July 1 and August 1.

#### Summer School (November):

Applications close October 30, 2013.

For more information about studying at Massey University, please contact the International Office by email at [international@massey.ac.nz](mailto:international@massey.ac.nz) or call us on +64 6 350 5599.

## STUDY AT MASSEY

**EVERY YEAR, THOUSANDS OF INTERNATIONAL STUDENTS FROM MORE THAN 100 COUNTRIES FIND A WARM AND WELCOMING ENVIRONMENT AT MASSEY UNIVERSITY. OUR INTELLECTUAL CLIMATE ENCOURAGES STUDENTS TO EXCEL IN PROGRAMMES THAT ARE INNOVATIVE, PROGRESSIVE AND INSPIRING.**

### THE ACADEMIC YEAR

The academic year is divided into two semesters. Semester One runs from late February to late June, and Semester Two from mid-July until early November. Most programmes (except teaching) are 17 weeks per semester, including 12 teaching weeks, three weeks for holiday and study breaks, and two weeks for examinations. In addition, international students are required to attend the compulsory international students orientation programme, which normally commences one week prior to the start of classes.

### INTAKE THREE

With programmes starting in August, September and November, this intake is open to all students but specifically targeted at students from Europe, North America, Asia and the Middle East, who finish their studies in the middle of the calendar year.

### SUMMER SCHOOL

Some students find it beneficial to learn more about subjects before they start formal programmes of study, while others use Summer School to fast-track their qualifications. Massey's Summer School makes this possible with papers covering a wide range of subjects, such as foundation sciences, mathematics and English. Summer School runs from mid-November to mid-February. Visit [study.massey.ac.nz](http://study.massey.ac.nz) to find out more about Summer School at Massey.

### PROGRAMME INFORMATION

Massey has the largest selection of professionally recognised degrees available in New Zealand. Many programmes are unique to Massey, such as aviation and veterinary science. This prospectus provides a general overview of the study programmes available. For specific programme details, including structure and course descriptions, as well as associated tuition fees, please refer to the International Office website [international.massey.ac.nz](http://international.massey.ac.nz)

### ENGLISH LANGUAGE STUDY

Students whose first language is not English are required to provide evidence of their proficiency in English to study at Massey University. Students whose English proficiency is not sufficient for a particular programme may be advised

to take an intensive English language course at the Centre for Professional and Continuing Education (PaCE). For more details on English language programmes, please refer to page 32 or visit the Massey website [english.massey.ac.nz](http://english.massey.ac.nz)

### ADMISSION AND ENROLMENT

International students need to meet both academic and English requirements for admission to specific programmes at Massey. For details on the admission and enrolment process, please refer to page 48. Alternatively, please visit the International Office website at [international.massey.ac.nz](http://international.massey.ac.nz)

### FULL-TIME STUDY

Full-time students typically study 60 credits (four papers) per semester or 120 credits (eight papers) per year. This pace enables their degree qualifications to be completed within the specified timeframes. For example, a Bachelor of Business Studies three-year degree course requires students to complete 360 credits in total in order to graduate.

### PAPERS

Papers (also known as classes, units or modules) are the building blocks of any degree. Introductory papers start at 100-level, then increase to 200-level, 300-level and 400-level in subsequent semesters or years. Each Massey University paper has a six-figure code to distinguish the subject and level, eg 152.261, where "152" denotes the subject (management in this case), "2" shows it is a 200-level paper, and "61" is the specific description of that paper.

### PAPER CREDITS

In general the standard undergraduate paper is 15 credits.

The credit value indicates the time a student might reasonably be expected to spend on the paper, including all lectures, laboratories, tutorials, visits and study time, in order to meet the assessment requirements satisfactorily. Converted into hours per week, this is referred to as a paper's effective weekly hours.

For a standard undergraduate (15-credit) single-semester paper, about 12.5 hours of study time per week are reasonably expected. Therefore, an equivalent 15-credit double-semester paper would require a commitment of around 6.25 hours per week.

### MAJOR

A major is a combination of set papers making up the specialisation within a degree. Double majors are available in some degrees and require specialisation in two combinations of papers. For example, the Bachelor of Arts with two majors – business psychology and economics, is one possibility.

# UNDERGRADUATE STUDY

**MASSEY IS CHARACTERISED BY THE APPLIED NATURE OF MANY OF ITS PROGRAMMES, AND SPECIAL EXPERTISE IN THE AREAS OF TECHNOLOGY, SCIENCE, APPLIED SCIENCE AND BUSINESS STUDIES. OUR STUDENTS GO ON TO SUCCESSFUL CAREERS IN NEW ZEALAND AND INTERNATIONALLY.**

Massey University offers more than 40 undergraduate degrees delivered by its five colleges. Bachelor degrees range in length from three to four years and there are also a number of undergraduate diplomas and certificates available.

### TYPES OF QUALIFICATION

#### Bachelor degree

New Zealand universities generally follow the British model of a three-year Bachelor degree, with an increasing level of specialisation in each year. The degree structure almost always includes a subject major, and may incorporate a few optional interest subjects.

#### Bachelor with Honours degree

This is an undergraduate qualification comprising an additional year of study beyond the standard three-year Bachelor degree. For example, the Bachelor of Engineering and Bachelor of Design are both four-year Honours degrees. Entry to an Honours year is at the discretion of the college and requires high academic performance as an undergraduate.

#### Graduate diploma

This is an undergraduate qualification that can be used as a "bridging" programme to a postgraduate qualification, or to add a second area of specialisation to a Bachelor degree. This qualification duration is typically one year of full-time study.

Example of the structure of a typical Bachelor degree:

BACHELOR OF SCIENCE (BSc)		
YEAR 1	YEAR 2	YEAR 3
BSc major 100-level 30 credits		
	BSc major 200-level 60 credits	BSc major 300-level 60 credits
		Additional 300-level paper 15 credits
Non-major BSc papers 60 credits	Second BSc major 200-level or non-majoring BSc papers 45 credits	Non-major BSc papers 30 credits
Communication paper 15 credits		
Elective* paper 15 credits	Elective* paper 15 credits	Elective* paper 15 credits

*\*An Elective is a non-compulsory paper chosen by a student*

### THE TYPICAL ACADEMIC PATHWAY AT MASSEY UNIVERSITY

**KEY:**

Some programmes have higher English language requirements and additional criteria and/or selection processes.

Refer to [international.massey.ac.nz](http://international.massey.ac.nz) for further details.

- High school
- Foundation studies
- Certificate
- Diploma

IELTS\* 6.0

# POSTGRADUATE STUDY

**MASSEY UNIVERSITY OFFERS SOME OF THE BEST OPPORTUNITIES IN NEW ZEALAND FOR POSTGRADUATE AND RESEARCH STUDENTS. OUR STRONG DOMESTIC AND INTERNATIONAL RESEARCH REPUTATION, COMBINED WITH OUR RESPECTED RESEARCH CENTRES, MEANS WE MAINTAIN CLOSE LINKS TO RELEVANT INDUSTRIES AND THE LATEST KNOWLEDGE.**

Every year about 20 per cent of Massey's student population studies a postgraduate qualification at diploma, masterate or doctorate (PhD) level. There are more than 100 postgraduate courses available in business, creative arts, health, humanities and social sciences, and sciences.

Postgraduate study at Massey offers qualifications through taught courses or research. Taught courses normally offer a chance to gain higher professional qualifications, while research courses allow for in-depth research in chosen subject areas.

## TYPES OF QUALIFICATION

### Postgraduate diploma

A postgraduate diploma is a one-year, full-time specialist qualification providing a pathway to research-based study. Postgraduate diplomas offer students taught courses, as well as the opportunity for research. Progression to a masterate from a postgraduate diploma requires good academic performance.

### Master degree

The Master degrees at Massey are typically research only; however, some have the flexibility to combine research and taught courses.

The progression to a Master from Bachelor level normally involves two years of full-time study, typically comprising taught courses in year one, and research in year two. For most, the postgraduate diploma is year one of a Master qualification, with progression into a Master based on academic performance.

### Doctoral degrees

This is the most advanced postgraduate qualification and involves the completion of a research thesis that makes an original contribution to new knowledge. Doctoral degrees can either be degrees of Doctor of Philosophy (PhD) or Named Doctorates. The PhD is an entirely research-based degree, whereas the Named Doctorates, which include the Doctor of Education (EdD) and the Doctor of Clinical Psychology (DClinPsych), also include a taught component. All doctoral programmes normally involve a maximum of four years' full-time study, or up to six years' part-time study. As the Named Doctorates target professionals in private and public sector institutions, they are tailored programmes and therefore do not necessarily meet the visa requirements of the New Zealand Immigration Service. Interested parties should make direct enquiries to secure guidance before applying.

### Graduate Research School

As part of Massey's ongoing commitment to research excellence, the University established the Graduate Research School (GRS) in 2004 to oversee Massey's doctoral degrees and scholarships. The school provides students with information and administrative services, and runs student courses and training workshops for supervisors. The GRS works closely with Massey's colleges across all campuses and with the International Office. See [grs.massey.ac.nz](http://grs.massey.ac.nz)

### TEACHING METHODS

The Massey model of teaching and learning identifies our key characteristics in both orientation and operation. Its goal is to engender a strong culture of creativity, innovation and connectedness in our students, our staff and our curriculum. It comprises six "defining elements" (Applied, Research-Led, Digital, Comprehensive, International, and Distance and Lifelong Learning) that we are committed to strengthening through implementing strategies and quality assurance and enhancement processes.

### CLASS TIMETABLE

Most lectures and tutorials are scheduled in two-hour blocks, between 8.00am and 6.00pm Monday to Friday. An hourly 10-minute recess enables students to move on to their next classrooms. The public class timetable can be viewed at [publictimetable.massey.ac.nz](http://publictimetable.massey.ac.nz)

### ASSESSMENTS

Assessments for most papers include various assignments, essays, tutorials and laboratory work throughout the semester, as well as examinations.

At the start of the semester, an Administration and Study Guide is provided to students, clearly defining the learning objectives and assessment requirements.

Massey University has a 9.0 grade point average scale. Letter grades and percentages are used when marking coursework. The pass grade is C, which equates to 50%.

### LEARNING SUPPORT

Learning support staff on each Massey campus provide a series of workshops and individual tutorials for students requiring additional assistance with assignment writing, note-taking skills or exam preparation. In addition, academics are available, both directly and via email, to address any student enquiries relating to lecture or tutorial content.

For other student support services, please refer to page 35.
