

# Course Catalogue Manual (Seoul Campus)

**Office of International Affairs** 

### **Course Catalogue Manual**

#### Confirm the settings.

- Your study status at HYU = COLLEGE (NOT ERICA College)
- Year = 2024
- Semester = Spring or Fall (If students wish to check courses from previous semesters, they can refer to the course lists of 2023 Spring or Fall or etc.)

#### Choose the course year.

- For example, if you want to look for courses mainly opened for 3<sup>rd</sup> year students, you may click on '3'.
- Click on 'English-only Courses'.
- Only if you click on this button, you will be able to see the English taught courses on the system.
- You may also additionally click on other options based on your preference. For detailed information regarding course types, please go to Page 3.

To look for major courses of a certain major, you have to click on the '**Major Courses**' button as above picture. Once you click on the button, 5 will appear at the bottom of the menu bar.

After you click on the 'Major Courses' button, you will be able choose your **College** and **Department / Major**.

### **Course Catalogue Manual**

### Step 2 Check the Course Description and Syllabus.

B Please click 'Course Code' for Course Description and 'Course no.' for Syllabus.

Course outline	Statics is a fundamental course in mechanics. Provided various problems, students will learn how to solve the problems in real engineering. This course will be expanded for the sophomore class, "Mechanics of Materials". This course provides an online lecture. Both midterm and final will be announced later after observing the situation of Corona virus control.				< >									You	can find	a b	rief	introd	luction in the <b>c</b>	ourse des	cription.					

## Information About Course Types
