MARAETAI BEACH, AUCKLAND

**WHERE IN THE WORLD IS NEW ZEALAND?**

New Zealand consists of two main islands in the South Pacific, three hours to the east of Australia by plane, an overnight flight west of the USA, or a ten to twelve hour direct flight from most Pacific Rim countries.

New Zealand is a stable English-speaking democracy with a population of four million people. Internationally, it is known for the beauty of the landscape plus the culture of the Maori – New Zealand’s first nation people. The cities are clean, open and lively, with Auckland in particular showing many Pacific influences. New Zealand’s oceans, mountains, and open spaces provide many opportunities for sport and exciting adventure. New Zealand has earned an international reputation for its politically independent stance, support for environmental causes and radical economic reforms. Its people have made significant contributions to the worlds of science and technology, the arts, medicine, conservation, food, wine, sports and fashion.

The quality of education in New Zealand ranks high by world standards.

**LOCATION AUCKLAND: CITY OF SAILS**

Auckland is a vibrant multicultural city beside the sea, sprawled between two harbours and two oceans, the Tasman and the Pacific. It is the main centre of business and industry and its international airport has daily flights to Europe, Asia and the USA. It offers the best of both worlds – all the buzz, entertainment, nightlife and cultural activities of a big city, as well as an outdoor lifestyle with numerous sporting and leisure activities. Auckland’s harbour location provides beautiful beaches and offshore subtropical islands to explore, as well as endless opportunities for water sports. The cultural calendar in the city offers a wealth of local and international festivals, exhibitions and performances.

**AUT UNIVERSITY – A UNIVERSITY FOR THE NEW WORLD**

AUT is New Zealand’s most contemporary university with study programmes designed for professions in the modern economy through a wide range of postgraduate and undergraduate degrees. Because of established close relationships with employers and professionals, the teaching and research is relevant to current and future industry, which accounts for our 95% graduate employment rate.

AUT is also New Zealand’s fastest growing university, with a student population of 24,000, including 4,000 international students from 85 countries around the world. AUT’s two campuses, the main City Campus and the North Shore Campus, both have a full range of student support and academic services. The City Campus is located in the heart of downtown Auckland, within walking distance of your residence hall, clubs, theatres and restaurants.

As a Study Abroad student you have a huge range of choice when it comes to selecting your papers (courses). The main fields of study are Business, Health Sciences, Art and Design, Communication, Sport and Recreation, Engineering, Tourism and Hospitality, Educational and Social Sciences, and Computing and Mathematical Sciences. Te Ara Poutama, the Faculty of Maori Development provides a range of papers which provide the opportunity to learn about our unique culture and heritage.

### THE PROGRAMMES

AUT offers two short term options, both of which earn you credit towards your home degree, and can be undertaken for a semester or a year.

#### THE STUDY ABROAD PROGRAMME

Students undertake a full time load of four papers (courses) per semester or eight per year. You will have a wide choice of subjects across the disciplines offered on campus, enabling you to meet the requirements of your home institution, but also to broaden your educational experience by studying subjects not available to you at home.

#### THE STUDY/INTERNSHIP PROGRAMME

This is a full time semester-long programme which gives you the opportunity to undertake a part time supervised work placement in your chosen field, along with two mainstream AUT papers, earning you a full semester's credit to your home degree. The AUT internship programme offers a unique opportunity to learn first hand about the culture and society of New Zealand in a work place setting, while gaining invaluable experience in intercultural communication so necessary in today's world.
