

# Study at a university for the real world

A GUIDE TO  
UNDERGRADUATE STUDY  
IN 2016

Queensland University of Technology  
BRISBANE AUSTRALIA

# Welcome to QUT

QUT ambitiously positions itself as a university for the real world of today and tomorrow. In choosing QUT for your studies, you will become part of a dynamic learning community. The university combines academic strength with practical engagement in the world of the professions, industry and government and we aim to link cutting-edge knowledge with the most pressing problems of the age.

QUT's two main campuses are located in the heart of Brisbane, voted one of the Asia-Pacific Top 10 cities of the future by London Financial Times. You will benefit from imaginatively designed learning and research spaces including the world-class Science and Engineering Centre at our Gardens Point campus, and the exciting Kelvin Grove Creative Industries Precinct. There are also excellent facilities for social interaction, sport and recreation.

We have a reputation for producing graduates who can thrive in volatile environments, who work well in teams, and who combine professional knowledge with broad perspectives and an understanding and appreciation of the world. As a result, our graduates enjoy excellent employment prospects. QUT draws on the expertise of professionals to ensure that students learn from the rich experience of industry leaders, and our courses—designed by discipline experts—offer excellent learning experiences, enriched by technology and conducted in world-class learning environments.

QUT is a richly diverse and multicultural university, teaching Australian students from a wide variety of backgrounds. Our international students come from some 160 countries and we welcome the diversity of perspectives this brings. From your arrival through to your graduation you will have access to a wide range of services including career planning, work placement opportunities, and the largest Career Mentor Scheme of its kind offered by any Australian university. And you can rely on the friendly, professional support offered by our International Student Services team.

We look forward to welcoming you to QUT.

PROFESSOR PETER COALDRAKE AO  
Vice-Chancellor, QUT

**Every year many people make QUT their first choice for study. Here's why you might like to make it yours.**

## ► **Real-world courses**

As one of Australia's leading universities, we can offer you a broad range of undergraduate degrees that will lead to a successful career. Our courses are regularly reviewed and updated to maximise your career opportunities and ensure your degree reflects industry developments.

## ► **Convenient campuses**

QUT has two major campuses just minutes from the CBD: Gardens Point and Kelvin Grove. With high quality academic, recreational and support facilities, QUT is the perfect place to study.

## ► **Be job ready**

QUT prepares graduates for a successful career, and we have one of the best records in Australia for graduate employment.

## ► **Global outlook**

QUT has world-class courses and learning facilities, as well as overseas exchange programs to help prepare you for work anywhere in the world. And we provide strong support to help international students feel right at home in Australia.

## ► **Research excellence**

QUT researchers are tackling some of the biggest challenges facing the global community, and our work in many fields is world renowned. If you have a passion for discovery, a QUT research degree can launch you into a highly successful career—no matter what your interest.

## ► **Great lifestyle**

Your time at university will be life changing. QUT provides support, social activities and development opportunities to help you discover your place in the world and make the most of your time at university.

## ► **Top lecturers**

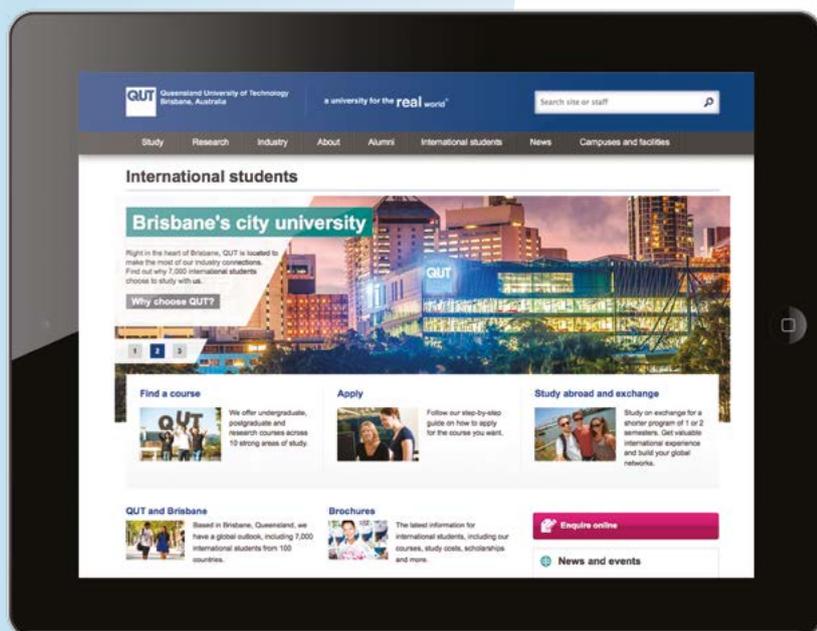

With QUT's balance of award-winning teaching staff, practical courses and industry-standard facilities, you will be well equipped for your career.

## ► **Industry links**

With strong connections to business and industry, we are able to ensure our courses provide you with the very latest knowledge. You will also have many opportunities for real-world learning.

# A university for the real world

**At QUT, we don't  
just teach theory.**

We teach you how to **put theory  
into practice.**

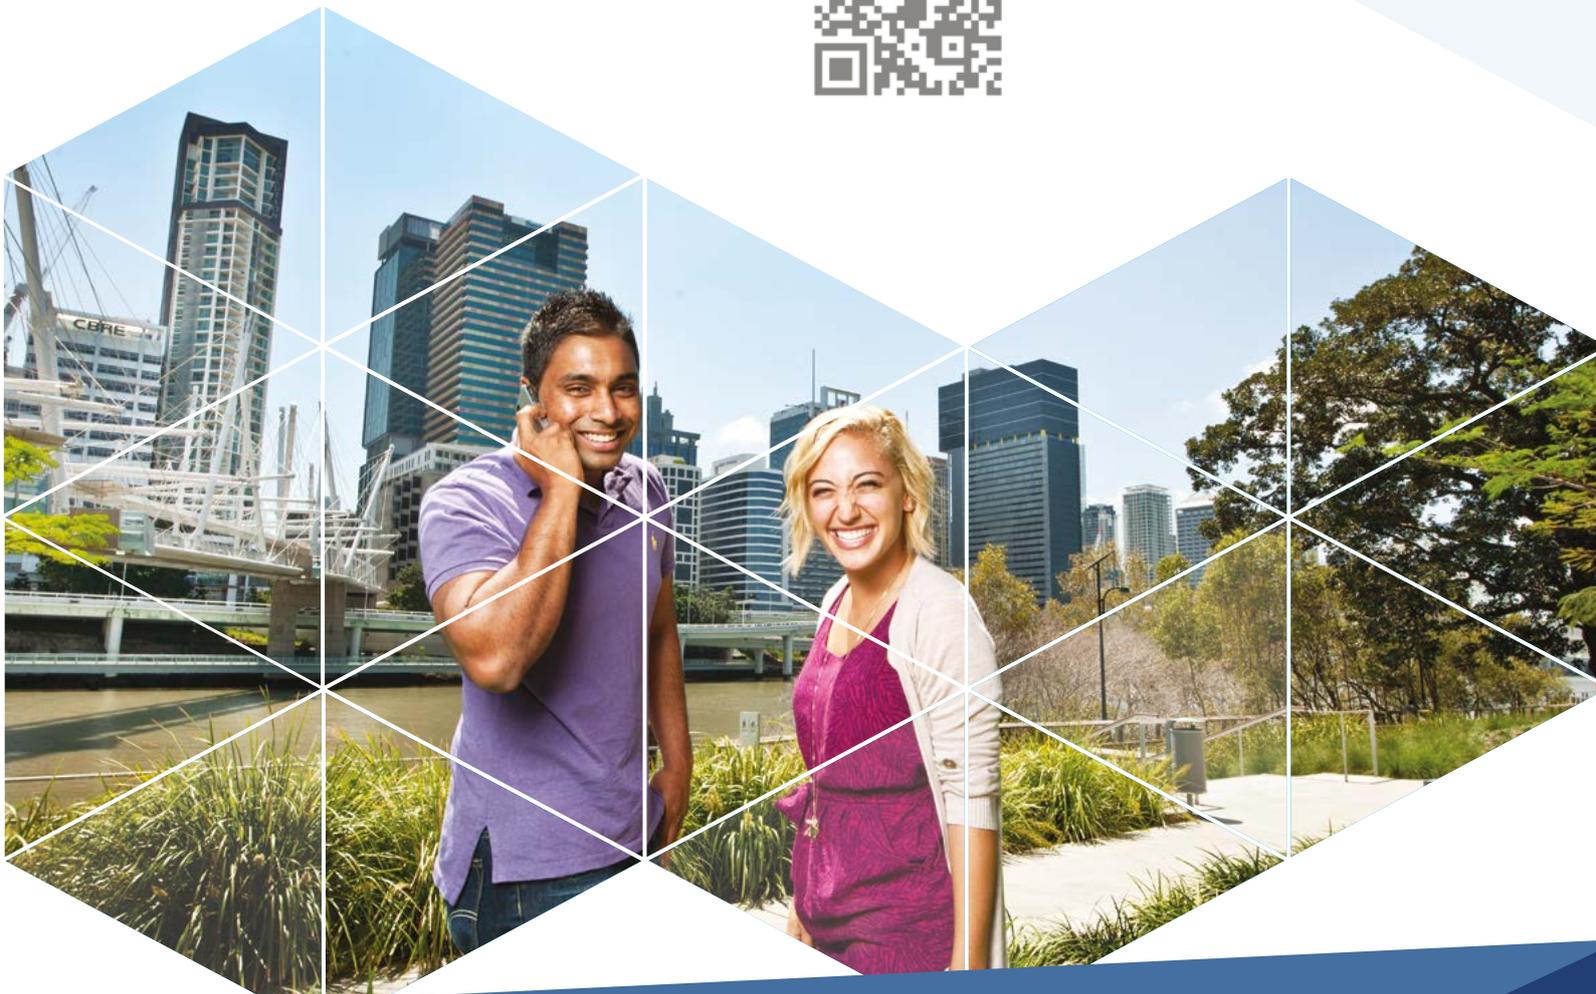

Study with us and we'll encourage  
you to **take your ideas and make  
them REAL.**

We'll teach you practical skills you can use to develop  
a successful career, and take on whatever challenges  
come your way.

QUT's international reputation means your qualifications  
will be well regarded wherever you choose to pursue your  
career. In 2014, QUT was the highest ranked Queensland  
university in the prestigious Times Higher Education  
world's top 100 universities under 50 years.

**Interested in finding out more  
about QUT?**

Simply watch our video by scanning the QR code below,  
or go to the International Students playlist at  
[www.youtube.com/TheQUTube](http://www.youtube.com/TheQUTube)

# Convenient campuses

**We have two campuses located within two kilometres of Brisbane's CBD.**

## Our campuses

A range of facilities are available on both campuses to enrich your university experience and make life easier:

- 24-hour computing laboratories
- automatic teller machines
- bookshops
- cafés and food outlets
- campus shops and newsagency
- centres and sporting facilities
- student centres
- childcare centres
- counselling and QUT medical centres
- fitness centres
- libraries
- licensed Guild bars: *Botanic Bar* and *The Grove*
- swimming pools.

## Transport

QUT's campuses are well serviced by public transport, and Gardens Point and Kelvin Grove campuses are linked by a free shuttle bus.

Gardens Point campus boasts its own ferry stop and is a short walk from central city train stations and is close to all city bus services. The Goodwill Bridge—a pedestrian and cyclist bridge—links the campus to several cultural precincts.

Kelvin Grove campus is conveniently linked to the city and suburbs by a dedicated public bus network.

## Gardens Point campus

With over 25000 students, Gardens Point campus is a prime location in Brisbane's city centre, beside the Brisbane River, City Botanic Gardens and Parliament House—a position that reinforces QUT's links with business, industry and government.

The Science and Engineering Centre brings together teaching and research in science, technology, engineering and mathematics disciplines. It also includes stimulating learning and research spaces, food and retail outlets, and a 50-metre swimming pool and gym.

The Gardens Cultural Precinct presents a full theatre and exhibition program including student productions in acting, dance and music, and works by visiting Australian and international companies.

QUT Art Museum and the William Robinson Gallery in historic Old Government House offer a program of changing exhibitions.

This inner-city campus is within easy walking distance of shops, restaurants, theatres and galleries.

## Kelvin Grove campus

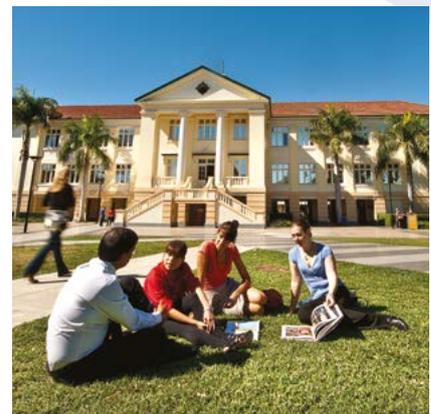

Kelvin Grove campus, with over 14000 students, is situated two kilometres from the city centre. The campus is part of the Kelvin Grove Village, a master-planned community that brings together residential, educational, retail, health, recreational and business opportunities.

The campus is a vibrant community with excellent research facilities. QUT's Institute of Health and Biomedical Innovation, a collaborative research institute, is dedicated to solving the health problems that affect Australia and our neighbouring communities.

QUT Health Clinics provide quality clinical education to the next generation of healthcare professionals, and free or low-cost care to staff, students and the community. Services are available in exercise, nutrition and dietetics, optometry, podiatry, psychology and counselling, wound healing and chronic disease support.

The Creative Industries Precinct, Australia's first site dedicated to creative experimentation and commercial development in the creative industries, is also located at the Kelvin Grove campus.

A fitness club and aquatic centre with gymnasium, 25-metre pool and indoor sports stadium, as well as tennis courts and sports fields, are located on campus or in the village precinct.

# Gardens Point campus

# Kelvin Grove campus

# Discover Brisbane and Australia

**QUT is located in Brisbane, the capital of Queensland. Brisbane is renowned for its relaxed, outdoor lifestyle and offers a wide range of activities including sports, arts and entertainment, shopping, dining and great nightlife.**

With a population of approximately 2.12 million people and with 25 per cent of Brisbane residents born overseas, it's clear why Brisbane is regarded as Australia's new world city\*.

## A gateway to Queensland

Queensland is a state of many contrasts – from tropical coasts and green rainforests to desert and sand country.

It is home to many tourist destinations including the Great Barrier Reef, Cairns, the Gold Coast, the Whitsundays and the Sunshine Coast. All of these amazing locations are easily accessible from Brisbane.

Sydney and Melbourne are one hour and two hours away respectively by air.

## Work while studying in Australia

You can work while studying in Australia. The current student visa entitles students to limited working hours a week during semester and full time during vacations. For more information on visas visit [www.immi.gov.au](http://www.immi.gov.au)

It is best to budget so you don't rely on part-time work to cover your expenses while studying. Our International Student Services team can assist you with information and advice on finding part-time work. Visit [www.qut.edu.au/international](http://www.qut.edu.au/international)

## The sunshine state

With an average of 261 days of sunshine\* every year, Brisbane offers a subtropical climate with warm summers and mild winters. Temperatures average from a high of 30 degrees Celsius in the middle of summer to a low of 10 degrees Celsius in winter.

Brisbane	Min°C	Max°C
Summer (Dec–Feb)	20°C	28°C
Autumn (Mar–May)	16°C	24°C
Winter (Jun–Aug)	10°C	21°C
Spring (Sep–Nov)	15°C	25°C

# Accommodation

**There are many accommodation options in Brisbane, and we can help find one that suits you.**

Our accommodation service can help you find somewhere to live when you arrive in Brisbane. We can assist with information and advice on:

- living in Brisbane (suburbs, transport, facilities) and setting up a home (furniture, appliances, internet)
- searching for temporary and permanent accommodation
- dealing with real estate agents and landlords
- any tenancy related questions or issues that may arise.

Find out more about accommodation in Brisbane at [www.qut.edu.au/international/qut-and-brisbane/accommodation](http://www.qut.edu.au/international/qut-and-brisbane/accommodation)

Brisbane offers a wide range of accommodation options, including:

- homestay with an Australian family
- shared living
- independent living
- limited on-campus accommodation.

## Homestay accommodation

Stay with an Australian family who will provide you with meals, a room, and help you get accustomed to living in Brisbane. Homestay is a great opportunity to get to know Australian culture, improve your English, and live with a supportive family.

You can apply for homestay accommodation once you're enrolled.

## Living costs

Brisbane is an affordable city but you still need to plan and budget carefully to make sure you have enough money for your living expenses.

You will typically need approximately \$21 000 a year (not including your tuition fees) to pay for accommodation, food, study materials, transport, entertainment and personal expenses.

*All prices are to be used as a guide only and are accurate as at June 2015.*

Establishment costs for your first week	
Temporary accommodation	<b>\$1700 to \$2000</b>
Bond and rent for permanent accommodation	
Connection to telephone, electricity and gas, internet plan	
Basic furniture and homewares	
Food and transport	

Ongoing weekly expenses	
Rent	<b>Approximately \$400</b>
Food	
Transport	
Electricity, internet and telephone bills	
Photocopying and stationery	
Entertainment	

# Scholarships

## Faculty scholarships

Our faculties offer a range of different scholarships including merit scholarships for high-achieving diploma graduates to complete a full degree at QUT.

If you're interested in studying business, creative industries, engineering, information technology, mathematics or science, you could receive:

- a tuition fee sponsorship of 25 per cent of your first semester fees, based on your entry score
- an ongoing tuition fee sponsorship of 25 per cent per semester, based on your GPA maintenance score.

Find out more about all the scholarships available to you at [www.qut.edu.au/international/scholarships-and-prizes](http://www.qut.edu.au/international/scholarships-and-prizes)

## Australian government scholarships

The Australian government provides scholarships to students from nominated countries under the Australia Awards program for undergraduate, postgraduate and research study. These scholarships assist individuals in developing the skills needed to contribute to development outcomes in their home country.

## Research scholarships

If you are interested in research study, you could be considered for an International Postgraduate Research Scholarship (IPRS), which covers your tuition fees and health-cover costs for you and your dependants.

## Home scholarships

Many countries offer scholarships to their citizens to enable them to study overseas. Some of the programs which QUT participates in are:

- China Scholarship Council Scholarship
- Becas Chile Scholarship
- Malaysian Australian Alumni Council (MAAC) Scholarship
- Science Without Borders scholarship

## My story

Wasula Prathap Kumbukage

Biological sciences student

Ever since I was a child I wanted to be a research scientist in biology. Studying at QUT provides the ideal platform from which to pursue my dreams. Thanks to QUT and the International Merit Plus Scholarship, I better understand real world problems and am analysing them with the help of some of the most prestigious people in their fields.

# Be job ready

**QUT provides employment assistance and free advice on career planning, and was the first university in Australia with an international career counsellor who works exclusively with international students and employers.**

Give yourself the best chance of securing your dream job with our wide range of career planning services.

You can develop your professional skills and make valuable connections throughout your time at QUT with:

- interactive career development programs
- career planning advice
- feedback on your résumé
- assistance with your job application
- workshops and online guides for employment seeking and interview preparation
- on-campus careers fairs and employer presentations

## Work preparation workshops

This series of seven workshops covers all facets of the recruiting process—accessing the job market, resumes and applications, interviews, workplace communication and work culture—and can help prepare you for the real world.

## Career tools to equip you

Some of our many tools to help you with your career include:

- CareerHub, containing job listings, presentations, workshops and job-seeking help
- Student ePortfolio, where you can create an online record for employers of your academic results, projects, skills and attributes.

Find out more at [www.careers.qut.edu.au](http://www.careers.qut.edu.au)

# Link with a mentor

QUT can help build your expertise through the largest career mentor scheme of all Australian universities. Linking with a mentor can prepare you for your career, increase your employment opportunities and help you develop a professional network.

You can receive advice and feedback on career development, discuss particulars of the industry and develop valuable networks that can last a lifetime.

## Opportunities for work experience

Gain work experience in your home country while you're still studying. This placement helps you establish a familiarity with real work and industry practices in your home country,

links theory to practice, creates networks for future employment and shows you how recruitment and employment practices work overseas.

## Career counsellor

Amy Ezzy

I have the privilege of working with international students on all aspects of their career management and development. We love to see students succeed in their studies, so we help them by offering a range of programs and services such as career counselling, mentor schemes, Real Work Placement Programs and work preparation workshops. Whether students are hoping to source graduate opportunities in Australia or their home country, the Careers and Employment team will assist students achieving their short and long term career goals.

# Global outlook

**Set yourself apart with global experience and make new friends from around the world as a Study Abroad or exchange student at QUT. You can also go on exchange as part of your degree.**

If you study at one of QUT's partner institutions you may be eligible to come to Brisbane to study for one or two semesters on an exchange program. Students from other universities are welcome to study at QUT in our Study Abroad program.

We have a dedicated Study Abroad and Exchange team that can help design a program to suit your interests and meet the requirements of your home university.

You can select units from a wide range of QUT study areas including business, information technology, engineering, psychology, and performing arts. There may also be an opportunity to include research in your Study Abroad or exchange program.

For more information visit [www.qut.edu.au/international/study-abroad-and-exchange](http://www.qut.edu.au/international/study-abroad-and-exchange)

## Work on international projects

QUT courses often include opportunities to work with international companies and travel overseas for study-related projects. For example:

- journalism students cover international events and issues in their annual reporting trips to locations such as South-East Asia, China, Papua New Guinea and Europe
- Bridges Across Borders South-East Asia takes law students on a three week internship in Asia where they work on a community legal education project. This year students visited Thailand, where they designed and delivered legal seminars on human rights and social justice issues
- nutrition, social work, public health and nursing students have visited Singapore and Vietnam to work with local clinics and rural hill tribes to provide community health care and education.

## Exchange as part of your QUT degree

Students studying degree programs at QUT can undertake an exchange as part of their study program. We have more than 150 partners in 35 countries across Asia, Europe, the Americas and Africa. A number of travel bursaries and scholarships are also available to assist you.

## My story

**Ben McGarry**

Nursing graduate

'I've always been interested in nursing abroad and the opportunity to travel to Norway was the perfect way to start exploring my prospects. Through the QUT outbound experience program I was able to meet nursing students from University of Stavanger and complete hospital placements in paediatric, surgical, cardiac, orthopaedic and theatre wards. It was such a captivating experience and has given me the courage to pursue a career overseas.'

# Great lifestyle

University is a chance to meet new people, make lifelong friends and enjoy new experiences. It can be the most exciting time of your life.

## Soak up the experience

At QUT, you can volunteer, get involved in campus culture and develop your personal and professional skills with various projects. There are also regular social events organised by students such as dinner groups, international food stalls, the QUT Ball, QUT Dragon Boat Race and several festivals throughout the year. Visit [www.qut.edu.au/international](http://www.qut.edu.au/international)

The QUT Guild manages a variety of events including campus parties, live bands, market days and much more.

Between lectures you can enjoy coffee on campus with your friends at stylish cafés. The QUT Guild also manages licensed bars where you can relax with friends at the end of the day. Visit [www.qutguild.com](http://www.qutguild.com) for more details.

## Hear from international students

If you want to find out about life as a student, there's no better way than to hear from our current students on the QUT international student blog. You can also comment and ask questions.

Visit the international student blog at [blogs.QUT.edu.au/international-students](http://blogs.QUT.edu.au/international-students)

## Join clubs and societies

The QUT Guild manages and supports many clubs and associations that organise social events such as lunchtime barbeques, formal dinners, balls, sports teams, or cocktail and dance parties.

Some QUT Guild clubs and societies also hold 'meet the professional' evenings and career seminars and invite guest speakers to help you on your chosen career path.

There are more than 100 clubs including sporting, international, political, religious, faculty, recreational and special interest clubs.

The East West program also offers fun activities, including:

- weekend trips
- cultural celebrations
- weekly café lunches
- soccer matches
- language exchange program
- buddy schemes for academic and social support.

## Keep fit

QUT Sport provides premier and social competitions as well as training and organisation for Australian University Games. Social sports include basketball, netball, volleyball, dodgeball, touch football and soccer. Visit [www.unisport.com.au/qutsport](http://www.unisport.com.au/qutsport)

Fitness and sporting facilities at Kelvin Grove include a fitness club and aquatic centre at Kelvin Grove Urban Village with a gymnasium, 25-metre pool and indoor sports stadium, and tennis courts and sports fields located on campus.

At Gardens Point campus students can enjoy the FINA-approved, 50-metre indoor swimming pool and gym with running track, weight training, cardio machines and group fitness studio.

# Real support

**At QUT we provide services that will support you in every aspect of your life as a university student.**

## Pre-departure briefings

QUT holds pre-departure briefings in many cities. These are a great opportunity for you and your parents to meet a current QUT student from your home country and learn more about living in Brisbane and studying at QUT.

## Free airport reception service

We offer a free airport reception service for new students, making it easy to get from the airport to your accommodation.

## Help with your studies

QUT language and learning advisers can help you to improve your English and develop your study skills, including:

- assignment help
- study tips
- learning skills
- language development workshops
- writing advice.

You can set up an individual appointment with an adviser, or attend one of the regular, free workshops on topics including academic writing, communication skills and time management.

## Counselling services

A free, professional counselling service is available to help you deal with personal issues such as stress, relationships and financial matters. Counsellors also provide advice and information about courses, careers and university procedures. You can talk to a counsellor in person, on the phone or by email. All sessions are private and confidential.

## Religious facilities and support

We provide chaplaincy services at both of our campuses.

The chaplains are available on both campuses to help people of all faiths with personal needs, pastoral care and the services of the church. All religious groups are welcome to use the chaplaincy meeting room for quiet prayer or meetings. Muslim prayer rooms are located at both campuses and Jummaa, or community prayers, are held each Friday at Kelvin Grove.

Contacts for Bahai, Buddhist, Christian, Catholic, Jewish, Latter Day Saints and Muslim groups on campus are also available from the chaplaincy centre.

## Security

QUT and Brisbane are very safe environments. Security guards monitor both campuses 24/7, can escort you between buildings, and can come to your assistance at a phone call's notice. Our free intercampus bus runs on a regular schedule between both campuses, and there are emergency call points and closed circuit television (CCTV) for your safety.

Brisbane has a low crime rate and is a safe city by world standards.

## Well-equipped libraries

We have libraries at both of our campuses. Each library has space designated for individual or group study. Copying and printing services are also available. All libraries have wireless laptop access.

## Numerous study spaces

QUT has many different study spaces on both campuses:

- student lounges with big-screen computers
- meeting rooms with couches
- outdoor areas with tables.

Most areas are freely available or can be reserved in advance.

## Student centres

Student centres are located on both campuses and can help with:

- timetables
- ID cards
- fee payments
- enrolment assistance
- other administrative services.

The centres have computing facilities to check timetables and personal details, and a range of university guides to help you settle in to life at QUT.

## Health services on campus

Health and medical services are available on the Kelvin Grove and Gardens Point campuses. A number of university clinics are also open to the public and QUT community:

- family therapy and counselling
- optometry
- podiatry
- psychology.

There are also human movement and exercise clinics, as well as nutrition, dietetics and wound healing clinics. Visit [www.qut.edu.au/about/services-and-facilities/health-and-wellbeing](http://www.qut.edu.au/about/services-and-facilities/health-and-wellbeing)

## Easy access to technology

QUT provides technology to assist with your study and help you organise your student life including:

- QUT Virtual which lets you enrol, manage your timetable, check your exam timetable and unit results, and pay your fees online
- QUT Blackboard, a web-based learning system that gives you access to unit outlines, reading lists and interactive activities to support your study
- access to library staff by phone, email, online chat and in person to help you find the resources you need
- wireless internet access across both campuses
- 24-hour student computing labs at Gardens Point and Kelvin Grove
- low-cost and convenient facilities for printing, copying and scanning course materials

# English and pathway programs

If you want to improve your English language proficiency, QUT International College offers a range of courses from General English to academic pathway programs, all located on the university campus.

## My story

Alina Kuzminova

EAP graduate and Mass Communication student

My teachers at QUT International College were fantastic. They created a friendly and warm atmosphere, and used different mediums when teaching, which helped us to understand the English language more effectively. We also had a great community of students, and we often explored Brisbane together – there's plenty to do.

Brisbane is a beautiful city. I can find everything I need, and the local residents are always happy to help out.

## What QUT International College offers you

- Access to university services and facilities across campuses
- Dedicated Welfare Advisors
- Individual and group language and learning support
- Mentor program (assists students with adjustment to living and studying in Australia)
- The opportunity to become familiar with the relevant QUT faculty
- Smooth transition to university, through the use of the university-wide on-line system.

## Our programs

- English language programs
- IELTS test preparation
- Foundation
- Diplomas
- University Certificate in Tertiary Preparation

## Guaranteed entry

**EAP/EAP Plus:** Meet the faculty academic requirements and achieve the required percentage from your EAP/EAP Plus program and progress to your chosen faculty program (programs that have an IELTS entry of 6.5 or lower).

**EAP Advanced:** Meet the faculty academic requirements and achieve the required percentage from your EAP Advanced program and progress to your chosen faculty program (programs that have an IELTS 7.0 for entry).

**Foundation:** Meet the faculty requirements and progress directly into the first year of most QUT undergraduate programs.

**Diploma in Business/Information Technology:** Meet the faculty requirements and receive two semesters of advanced standing and guaranteed entry into the second year of the relevant QUT program.

**Diploma in Creative Industries:** Meet the faculty requirements and receive up to two semesters of advanced standing and guaranteed entry into one of the available creative industries undergraduate programs.

## Class environment

- Small classes
- Greater interaction with teachers
- Highly experienced teaching and administrative staff
- Excellent rate of students progressing to their preferred QUT degree

## Language, learning and counselling support

- QUT International College (QUTIC) Language and Learning Advisors provide support to all University Entry Program students through individual consultations and group workshops
- Academic or personal counselling support is provided by our Welfare Advisors

## Facilities

- Dining room and common lounge
- Independent Learning Centre
- Language laboratory
- Multimedia-enabled lecture theatres
- Seven computer labs (two are open 24 hours a day, seven days a week)

## Orientation

- All QUTIC students receive a comprehensive orientation to the college and the university.
- Staff assist with everything from course enrolment to adjustment to life and study in Brisbane.

## QUT IELTS Test Centre

Located at QUTIC, our IELTS Test Centre offers academic and general modules to current and external students. Our testing rooms are classroom-sized and have quality sound systems and air conditioning, offering a supportive testing environment. See [www.qut.edu.au/ielts-test-centre](http://www.qut.edu.au/ielts-test-centre) for more details.

[www.qut.edu.au/qutic](http://www.qut.edu.au/qutic)

# Course information

## General English (ELICOS)

**CRICOS code:** 062077K

**Campus:** Kelvin Grove

**Fee:** \$2000 per 5 weeks

**Enrolment fee:** \$175

**Dates of entry:** Approximately every 5 weeks

**Duration:** 5 weeks full time, 25 hours per week, including two hours of guided individual learning

The course code for General English is determined by the number of weeks studied. Students are required to study a minimum of five weeks.

Course code	Number of weeks
QE05	5 weeks
QE10	10 weeks
QE15	15 weeks
QE20	20 weeks
QE25	25 weeks
QE30	30 weeks
QE35	35 weeks
QE40	40 weeks
QE45	45 weeks

This course will develop your core skills of reading, writing, speaking and listening, and increase fluency and accuracy. It will prepare you to take further QUTIC language programs including English for Academic Purposes (EAP) and EAP Plus.

There are no specific academic or English language entry requirements

### Program structure

- Computing skills development
- Cultural studies
- Field trips
- Grammar in context
- Independent learning centre program
- Integrated skills of speaking, listening, reading and writing
- Language laboratory
- Regular tests and individual counselling
- Social and recreational activities
- Vocabulary development

## English for Academic Purposes (EAP) (QC10)

**CRICOS code:** 011424G

**Campus:** Kelvin Grove

**Fee:** \$4800

**Enrolment fee:** \$175

**Dates of entry:** February, June and October

**Duration:** 12 weeks full time, 25 hours per week (including two hours of guided individual learning)

EAP is designed to improve students' English language proficiency to meet university entry requirements. This program prepares students for independent study and familiarises them for study in an Australian academic setting. EAP provides a direct pathway into QUT undergraduate, foundation and diploma programs.

There are two EAP programs. **EAP for direct entry** is for students progressing into a QUT undergraduate program (with an IELTS entry requirement of 6.5). **EAP for foundation/diploma** is for students entering a QUT foundation or diploma program. Students who wish to enter a degree program that has an entry requirement of IELTS 7.0 may undertake the EAP Advanced or IELTS Advanced pathway.

### English language entry requirements

Completion of the EAP entry test with the required score or:

**EAP for direct entry:** IELTS 5.5 with reading and writing sub-scores of at least 5.5 and no other sub-scores below 5.0, or approved equivalent (for students preparing for a degree program with an IELTS entry of 6.5).

**EAP for Foundation/Diploma:** IELTS 5.0 with sub-scores of at least 5.0 in reading and writing, or approved equivalent.

### Program structure

- Academic reading and note-making
- Academic study skills
- Academic writing
- Computer word processing
- Internet research skills
- Library research
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations

### Progression

Academically eligible students may progress into the relevant following program if they achieve the required overall scores in EAP.

**EAP for direct entry:** minimum 65 per cent to progress into a QUT undergraduate program (IELTS 6.5 entry). Students who achieve 50-64 per cent may take the University Certificate in Tertiary Preparation program as an alternative pathway into their approved degree program.

**EAP for foundation/diploma:** minimum 50 per cent to progress into foundation or diploma.

## EAP Plus (QC24)

**CRICOS code:** 064814K

**Campus:** Kelvin Grove

**Fee:** \$9600

**Enrolment fee:** \$175

**Dates of entry:** March, July, November

**Duration:** 24 weeks full time, 25 hours per week (including two hours of guided individual learning)

EAP Plus is suitable for students who have met the academic requirements for a QUT degree program but have not achieved the required English language level. EAP Plus prepares students for successful study in a university environment, providing a pathway for students into a QUT undergraduate program (that has an IELTS entry requirement of 6.5).

During the first 12 weeks, students will have more in-depth academic English instruction, while the second 12 weeks further develops students' independent study skills in an academic context.

### English language entry requirements

Completion of the EAP entry test with the required score; or an IELTS score of at least 5.0 (with reading and writing sub-scores of at least 5.0); or approved equivalent (for students preparing for a degree program with an IELTS entry of 6.5).

### Program structure

- Academic reading and note-making
- Academic study skills
- Academic writing
- Computer word processing
- Internet research skills
- Library research
- Listening and note-taking from lectures
- Seminars and presentations
- Speaking in academic settings

### Progression

Academically eligible students may progress into a QUT undergraduate program (IELTS 6.5 entry) if an overall minimum score of 65 per cent in EAP Plus is achieved. Students who achieve between 50-64 per cent may undertake the University Certificate in Tertiary Preparation program as an alternative pathway into their degree program.

For EAP entry test information, see [www.qut.edu.au/qutic/eap-entry-test](http://www.qut.edu.au/qutic/eap-entry-test)

## EAP Advanced (QC12)

**CRICOS code:** 078120C

**Campus:** Kelvin Grove

**Fee:** \$4800

**Enrolment fee:** \$175

**Dates of entry:** February, October

**Duration:** 12-week program, 25 hours per week including two hours of guided individual learning

This program is designed for international students who need to meet the English language entry requirements for QUT degree programs that require IELTS 7.0, where the EAP Advanced program is an approved equivalent.

### English language entry requirements

IELTS 6.5 (with sub-scores of at least 6.0) for students preparing for degree programs that have an entry requirement of IELTS 7.0 (with no sub-scores less than 6.5) or approved equivalent; or successful completion of the QUT EAP for direct entry/EAP Plus program with a minimum score of 65 per cent.

### Program structure

- Academic reading and note-making
- Academic study skills
- Academic writing
- Computing and internet skills
- Library research
- Listening and note-taking from lectures
- Seminars and presentations
- Speaking in academic settings

The EAP Advanced course has its own internal assessment.

EAP Advanced cannot be packaged with QUT degree programs that have quota restrictions.

### Progression

Academically qualified students who achieve a minimum score of 65 per cent in the EAP Advanced program may progress directly into specified faculty programs that have an entry requirement of IELTS 7.0 without the need to take another IELTS test.

## IELTS Advanced (QC15)

**CRICOS code:** 073922J

**Campus:** Kelvin Grove

**Fee:** \$6000 for the program (includes one IELTS test)

**Enrolment fee:** \$175

**Semester of entry:** July

**Duration:** 15 weeks full time, 25 hours per week

This program is designed to prepare candidates who have already achieved IELTS 6.5 (with no sub-scores less than 6.0) or approved equivalent, for the IELTS Test, Academic Module. It is offered to those seeking to achieve a score of IELTS 7.0 or higher. This is a test preparation program and students must take an official IELTS test to achieve the required score to enter their chosen program.

IELTS Advanced cannot be packaged with QUT degree programs that have quota restrictions.

### English language entry requirements

IELTS 6.5 (with no sub-scores less than 6.0) or approved equivalent or successful completion of the QUT EAP for direct entry program/EAP Plus program with a score of 65 per cent.

### Program structure

The IELTS Advanced program has formative assessment and includes:

- academic study skills
- computing and Internet skills and library research
- examination skills
- reading, writing, listening and speaking skills
- seminars and presentations.

## English for Tertiary Preparation (QC22)

**CRICOS code:** 045062C

**Campus:** Kelvin Grove

**Fee:** \$800 for the course

**Enrolment Fee:** \$175

**Date of entry:** February

**Duration:** 2 weeks full time

This course is designed to enhance the English language proficiency of students who already meet the language entry requirements for a QUT foundation or diploma program.

### Academic entry requirements

An unconditional offer for a QUT foundation or diploma program.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0 or approved equivalent.

### Program structure

- Academic reading and note-making
- Academic study skills
- Academic writing
- Computer word processing
- Library skills
- Listening and note-taking from lectures
- Speaking in academic settings

## FOUNDATION PROGRAMS

QUTIC foundation programs have been registered on CRICOS for delivery in Australia to overseas students, providing academic preparation for those seeking entry into the first year of QUT undergraduate study or its equivalent.

### Standard Foundation (QC02)

**CRICOS code:** 065045E

**Campus:** Kelvin Grove

**Fee:** \$8687 per semester

**Semester of entry:** February, June and October

**Duration:** 2 semesters full time

This program provides a two-semester pathway for students who do not meet the entry requirements for QUT bachelor or diploma programs. Students who complete the foundation program with the required faculty grade point average (GPA), meet prerequisite requirements and have the required grade in Academic English 2 are guaranteed a place in the first year of their chosen QUT bachelor program (that has an IELTS entry requirement of 6.5).

There are eight different foundation streams, each with 10 units. Students are placed in the foundation stream relevant to their chosen bachelor program.

For more information on the foundation streams, see [www.qut.edu.au/study/international-courses/standard-foundation](http://www.qut.edu.au/study/international-courses/standard-foundation)

### Academic entry requirements

Australian Year 12 high school with pass grades or Year 11 with very good grades, or equivalent.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0, or approved equivalent, or completion of the QUT EAP for foundation/diploma program with the required score of 50 per cent.

### Program structure

#### Semester 1

- Accounting
- Economics
- Foundation English
- Introduction to Creativity
- Life Science
- Physical Sciences

#### Semester 2

- Chemistry
- Economics
- Information Processing
- International Perspectives
- Life Science
- Organisations and Management
- Physics

### Elective units

Standard Foundation is a streamed course and students' choice of elective units will depend on the stream associated with their chosen degree program.

## Extended Foundation (QC04)

**CRICOS code:** 050167G

**Campus:** Kelvin Grove

**Fee:** \$19 112 full course fee

**Semester of entry:** February

**Duration:** 1 academic year (February to December)

This program provides a pathway for students who do not meet the entry requirements for QUT bachelor or diploma programs. Students who complete the program with the required faculty GPA, meet prerequisite requirements and have the required grade in Academic English 2 are guaranteed a place in the first year of their chosen QUT bachelor program (that has an IELTS entry requirement of 6.5).

### Academic entry requirements

Australian Year 12 high school with pass grades or Year 11 with very good grades, or equivalent.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0, or approved equivalent, or completion of the QUT EAP for foundation/diploma program with a minimum score of 50 per cent.

Academically eligible students with an IELTS result of 5.0 (with sub-scores of at least 5.0) or equivalent may undertake seven weeks of English classes from early January before commencing the Extended Foundation program in February.

### Program structure

#### Semester 1

- Foundation English
- Mathematics A1 or B1 or Practical Mathematics
- Elective unit x 2

#### Semester 2

- Academic English 1
- Computing
- Mathematics A2 or B2 or Professional Studies
- Elective unit x 2

#### Semester 3 (intensive)

- Academic English 2
- Australian Studies

### Elective units

- Accounting
- Chemistry
- Economics
- Information Processing
- Introduction to Creativity
- International Perspectives
- Life Science
- Organisations and Management
- Physical Sciences
- Physics

## Diploma in Business (BS40)

**CRICOS code:** 081618F

**Campus:** Kelvin Grove

**Fee:** \$9307 per semester

**Semester of entry:** February, June and October

**Duration:** 2 semesters full time

This program provides a pathway into the QUT Bachelor of Business for students who do not meet the academic and/or English language entry requirements for direct entry. Graduates of this diploma who achieve a GPA of 4.0 will receive 96 credit points of advanced standing (usually one year) towards the QUT Bachelor of Business.

### Academic entry requirements

Australian Year 12 high school with good grades, or equivalent.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0, or approved equivalent, or successful completion of the QUT EAP for foundation/diploma program with a score of 50 per cent.

Students commencing the Bachelor of Business, (BS05) in Summer Semester and choosing majors in economics, human resource management, public relations or advertising will require five semesters to complete the remaining units in BS05 due to prerequisite requirements and unit availability. All other majors can be completed in four semesters.

### Program structure

- Accounting
- Economics
- Global business
- Management
- Marketing
- Working in business
- Professional communication 1
- Professional communication 2

## Diploma in Information Technology (IT10)

**CRICOS code:** 081616G

**Campus:** Kelvin Grove

**Fee:** \$9307 per semester

**Semester of entry:** February, June and October

**Duration:** 2 semesters full time

This program provides a pathway for students who do not meet the academic and/or English language requirements to enter the following information technology related bachelor programs:

- Bachelor of Information Technology
- Bachelor of Games and Interactive Entertainment\*

Graduates of this diploma who achieve a GPA of 4.0 will receive 96 credit points of advanced standing (usually one year) towards the information technology-related bachelor programs listed above.

\* The semesters required to complete this program will depend on the major chosen and the semester of entry.

### Academic entry requirements

Australian Year 12 high school with good grades, or equivalent.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0, or approved equivalent, or completion of the QUT EAP for foundation/diploma program with a minimum score of 50 per cent.

### Program structure

- Building IT systems
- Computer Technology Fundamentals
- Designing for IT
- Impact of IT
- Modelling Information Systems
- Programming Principles
- Professional Communication 1
- Professional Communication 2

## Diploma in Creative Industries (IF06)

**CRICOS code:** 081617G

**Campus:** Kelvin Grove

**Fee:** \$9307 per semester

**Semester of entry:** February, June and October

**Duration:** 2 semesters full time

This program provides a pathway into a range of creative industries bachelor programs for students who do not meet the academic and/or English language entry requirements. Graduates of this diploma who achieve a GPA of 4.0 will receive up to one year's advanced standing and a guaranteed place in one of these courses.

### 96 credit points of advanced standing with:

#### Four semesters to complete:

- Bachelor of Mass Communication
- Bachelor of Creative Industries
- Bachelor of Media and Communication
- Bachelor of Journalism – February intake only
- Bachelor of Fine Arts (Creative and Professional Writing)
- Bachelor of Fine Arts (Film, Television and New Media Production)
- Bachelor of Fine Arts (Drama) – February intake only
- Bachelor of Entertainment Industries – February intake

#### Five semesters to complete:

- Bachelor of Entertainment Industries – July Intake

#### Six semesters to complete:

- Bachelor of Fine Arts (Animation)

#### Eight semesters to complete:

- Bachelor of Design (Honours) with majors in Interactive and Visual Design, Industrial Design or Interior Design - February intake only

### 72 credit points of advanced standing with:

#### Eight semesters to complete:

- Bachelor of Design (Honours) with majors in Architectural Studies or Landscape Architecture - February intake only

### Academic entry requirements

Australian Year 12 high school with good grades, or equivalent.

### English language entry requirements

IELTS 5.5 with sub-scores of at least 5.0, or approved equivalent, or completion of the QUT EAP for foundation/diploma program with a minimum score of 50 per cent.

### Program structure

- Strategic Speech Communication
- Creative Industries: Making Connections
- Photomedia and Artistic Practices
- Creative Industries: People and Practices
- Introducing Design History\*
- Design and Sustainability\*
- Professional Communication 1
- Professional Communication 2

\* Students choosing the Bachelor of Entertainment Industries or Bachelor of Mass Communication are recommended to study Marketing in place of one of these design units.

## University Certificate in Tertiary Preparation (QC05)\*

**CRICOS code:** 065044F

**Campus:** Kelvin Grove

**Fee:** \$8687 per semester

**Semester of entry:** February, July and October\*

**Duration:** 1 semester full time

This one-semester program leads into a range of QUT undergraduate programs that have an IELTS entry requirement of 6.5. In addition to studying two communication units, you will undertake one (stream A) or two (stream B) faculty units, in this program. Students in stream A must also study Computing as a compulsory unit. When successfully completed, students who are academically qualified will progress to their chosen degree program and the faculty unit/s will be credited towards their program.

### English language entry requirements

#### Stream A:

IELTS 6.0 with sub-scores of at least 5.0, or approved equivalent, or successful completion of the QUT EAP/EAP Plus program with a minimum score of 50 per cent.

Students who wish to gain entry into QUT degree programs that require IELTS 7.0 cannot study University Certificate in Tertiary Preparation (UCTP). UCTP cannot be used as a pathway into EAP Advanced.

#### Stream B:

IELTS 6.5 (with sub-scores of at least 6.0) or approved equivalent, or completion of the QUT EAP/EAP Plus program with a minimum score of 65 per cent.

### Program structure

#### Stream A

- Communication 1
- Communication 2
- Computing
- Faculty unit

#### Stream B

- Communication 1
- Communication 2
- Computing (optional)
- One or two faculty units

\* Students who wish to gain entry into QUT degree programs that require IELTS 7.0 cannot study University Certificate in Tertiary Preparation (UCTP). UCTP cannot be used as a pathway into EAP Advanced. The faculty units offered in the summer semester (October entry) are limited. Not all disciplines offer summer units. In order to complete the certificate in the minimum duration, students will be required to study an academic unit from the range of disciplines available.

\* Under review

## QUTIC entry dates

QUTIC offers a range of English language and university entry programs with flexible entry dates for 2016, below.

Standard Foundation	February, June or October	2 semesters
Extended Foundation	February	1 academic year
Diploma programs (Business, Creative Industries or Information Technology)	February, June or October	2 semesters
University Certificate in Tertiary Preparation	February, July or October	13 weeks
English for Academic Purposes (EAP)		
EAP for direct entry	February, June or October	12 weeks
EAP for foundation/diploma		
EAP Plus	March, July or November	24 weeks
EAP Advanced	February or October	12 weeks
IELTS Advanced	March, July or October	15 weeks
English for Tertiary Preparation	February	2 weeks
General English	Starts every 5 weeks (approximately)	5 weeks

# Building and planning

- ▶ Architecture
- ▶ Engineering
- ▶ Urban development

## The power to create a better world.

Want to make your corner of the world more beautiful, more functional, more liveable? Studying building and planning at QUT can empower you to achieve these goals. It's an exciting, highly respected field of endeavour at QUT, with our practical, real world approach helping students to make their mark on cities and communities the world over. QUT's reputation for industry connections is larger than life in the study of building and planning, you'll have opportunities to collaborate with working professionals, and rub shoulders with designers, planners, engineers and architects. Your work will be guided by awarded industry leaders when you take part in tutorials, industry events, competitions and work placements. All the better for taking your vision for the future and bringing it to life on a large scale.

## My story

Yen Trinh

QUT urban and regional planning graduate

Yen has worked in urban design in Toronto and New York and now uses her transferable skills as an experience design manager at the Queensland Museum.

Yen is also part of U.R[BNE] Collective and their annual urban design festival was an outcome of Yen's Queensland Emerging Design Leader Award. U.R[BNE] works to affect lasting change in the urban fabric by supporting artists, designers and community members who have ideas for making public spaces more vibrant.

# Shape the world according to your vision

## The most up-to-date learning

QUT provides an inspiring blend of extraordinary minds and stimulating spaces to help you explore the huge potential of a career in building and planning. Study here and you'll have the chance to graduate with a degree created in close collaboration with top industry professionals. World-class specialists and experts in enquiry-based learning give you the essential theoretical knowledge and practical experience you need to become an effective professional in the workforce. Knowledge you can put to use as soon as you graduate.

Our physical learning environments have been transformed to meet the needs and aspirations of modern students. Our state-of-the-art laboratories, workshops and research facilities are designed to mirror the real-world environments you'll encounter in your career. And your experience at QUT is enhanced by the innovative integration of teaching, space and technology.

## Research that redraws boundaries

QUT building and planning research is making waves in many areas vital to the world economy and for the benefit of communities.

We're a research partner of the Construction Industry Institute of Australia, the Institute of Future Environments, and the Centre of Emergency and Disaster Management and the Sustainable Built Environment National Research Centre. Our research projects include Airport Metropolis and Airports of the Future. Our Samford Ecological Research Facility is a unique teaching and learning base for ecological, engineering, built environment and educational programs which let QUT project teams research urban development and its impact on ecosystems. We're proud to host the Construction Industry Institute of Australia, focused on the needs of the property, design, construction and facility management sectors.

## World class people. World class programs.

At QUT, your teachers can include real-world researchers involved in major commercial and government projects, part-time lecturers from local industry, and Queensland's first Planner in Residence. We set the highest standards for our people, and our course content, and it's paying off.

For example, QUT's civil engineering degree was ranked in the top 50 globally, in the 2014 QS Top Universities ranking. More than 3000 universities around the world were assessed, so this very high ranking is a measure of QUT's superiority in factors such as academic reputation, employer reputation, faculty-to-student ratio, and citations.

# Course information

If you're interested in architecture or design related courses, please go to page 28.

## Bachelor of Urban Development (Honours) (UD01)

**CRICOS code:** 080479J  
**Indicative fee:** \$13500 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February and July  
**Duration:** 4 years (8 semesters) full time

Specialise in construction management, quantity surveying and cost engineering, or urban and regional planning. Professional work experience will enhance your academic learning and career prospects, and is a requirement of this course.

### Construction management

Coordinate the construction and maintenance of large and complex projects such as low-rise and high-rise housing developments, hotels, factories, office blocks, schools and hospitals. Learn to become an effective construction manager with comprehensive technological knowledge, management principles and communication skills.

- Gain practical experience on field trips, site visits, lab-based work and industry placements.
- Learn skills to manage resources (plant, materials, subcontractors and labour)
- Develop foundational construction management skills in measurement, estimating, site management, scheduling and programming and technical communications

### Professional recognition

This course is accredited by the Australian Institute of Building.

### Careers

- Construction manager
- Contract administrator
- Estimator
- Project manager

### Example units

- Commercial Construction
- Residential Construction
- High-rise Construction
- Measurement for Construction
- Construction Estimating
- Strategic Construction Management
- Construction Legislation
- Residential construction

## Quantity surveying and cost engineering

Provide professional advice to the construction industry on the financial and legal aspects of new constructions and operation of existing buildings, and advise on and manage cost in the resource and infrastructure sectors. Learn how to manage and administer construction costs and contracts, bills of quantities, tender appraisals, valuations, project audits, property taxation and life-cycle cost advice.

- Gain practical experience on field trips, site visits, lab-based work and industry placements.
- Study building management, cost planning, building development and research, policy development, measurement and construction and legal issues.

### Professional recognition

The course maintains various accreditations with the Australian Institute of Quantity Surveyors and the Royal Institute of Chartered Surveyors, and the Board of Quantity Surveyors Malaysia.

### Careers

- Cost engineer
- Estimator
- Quantity surveyor

### Example units

- Introduction to Heavy Engineering Sector Technology
- Construction Estimating
- Advanced Measurement for Construction
- Services and Heavy Engineering Measurement
- Risk Management in the Resources Sector
- Cost Planning and Controls

## Urban and regional planning

Plan large-scale projects such as new cities, suburbs, ports, recreational and industrial areas, and transport infrastructure. Learn how to design and manage the use of land and natural resources

- Work on inclusive community planning, integrated infrastructure provision, creative design and practical problem-solving projects in collaboration with partners in local and state government, developers and community groups. to meet human needs in a sustainable way.

### Professional recognition

This course is accredited by the Planning Institute of Australia (PIA).

### Careers

- Environmental planner
- Policy officer
- Transport planner
- Urban and regional planner
- Urban designer

### Example units:

- Community Planning
- Environmental Analysis and Planning
- Regional Planning
- Transport Planning
- Urban Design
- Urban Planning Practice

## Bachelor of Property Economics (UD05)

**CRICOS code:** 080478K  
**Indicative fee:** \$13,300 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Value, manage and market property to optimise the benefits from ownership or occupation. Develop in-depth knowledge of economic, managerial, legal, and technical aspects of the property industry, both locally and internationally.

- Gain practical experience with site visits, field trips and Work Integrated Learning.
- Focus on sustainable development and environmental and energy efficiency in all forms of property

### Professional recognition

The degree has professional accreditation from the Australian Property Institute, the Valuers' Registration Board of Queensland, the Royal Institution of Chartered Surveyors, and the Board of Valuers, Appraisers and Estate Agents Malaysia (application pending).

### Careers

- Property valuer
- Property developer
- Asset manager
- Corporate real estate manager
- Funds manager

### Example units

- Asset Performance
- Boutique Valuations
- Property Development
- Property Investment Analysis
- Property Legislation
- Property Software

Double degrees require an enrolment of more than the standard credit point load in some semesters.

# Business

## Next generation thinking

Study business at QUT and you can take on the world with confidence. Our lecturers have always been at the forefront of global business thinking, so you can be totally prepared for a successful career. You'll be taught practical, real-world skills from industry experts, and enjoy extraordinary learning experiences. One measure of our success is the extraordinary record of our students in international business competitions—including QUT teams winning the Sasin mai Bangkok Business Challenge for the second consecutive year in 2014. Employers look to QUT Business School because we produce highly competent graduates—and because we have a reputation as one of the very best business schools in Australia. What great things would you like to achieve?

- ▶ Accountancy
- ▶ Advertising, marketing and public relations
- ▶ Economics and finance
- ▶ International business
- ▶ Journalism
- ▶ Management and human resources
- ▶ Media and communication
- ▶ Philanthropy and non-profit studies
- ▶ Project and commercial leadership
- ▶ Project management
- ▶ Public sector management and leadership

## My story

Danielle Sun

Finance graduate

'Studying finance at QUT taught me the valuable technical knowledge and practical skills I use every day in my role in PwC's Corporate Advisory and Restructuring team.

I love the challenges and variety of what I do—there is no such thing as a typical day and I find the diversity one of the most rewarding aspects of my job. QUT inspired my passion for learning and gave me the confidence to embrace any given task. I was touched by the lecturers' dedication and passion for teaching, and their endless support for their students.'

# For a brighter, more successful future

## Theory you can put to work

Business at QUT combines cutting-edge theory with practical experience.

It's the best of both worlds. You can develop a deep knowledge of the latest business principles and apply what you learn, as part of real-world projects and industry placements. You'll work with real products, real clients and real markets. You could even take it a step further by entering one of the international business case competitions in which QUT teams have been some of the most successful in the world. It's a brilliant way to prepare you for your career.

## The best people in the business

Strong industry connections between our lecturers and working professionals are a key reason our course content is so up to date. You'll have the chance to work with mentors from industry, and build your networks at industry events. You'll also have the opportunity to hear from business leaders the calibre of Apple's Steve Wozniak and Virgin's Sir Richard Branson, at the QUT Business Leaders' Forum.

## Independent recognition

One of Australia's best business schools? Don't just take our word for it. The proof is in our triple international accreditation. QUT Business School was the first business school in Australia to gain this honour and it puts us in the one per cent of business schools worldwide. We've gained the top rating of five stars for excellence in employability by QS Stars. Our programs also meet the tough national standards of professional bodies including CPA Australia, Chartered Accountants Australia, the Australian Institute of Company Directors, and many more.

You can be confident your qualification will be recognised throughout Australia and in many places internationally.

Australia's first **business school** with triple international accreditation

## Strength in research

QUT Business School has a strong research focus and is one of only eight Australian universities whose business and economics research is consistently rated at or above world standard. We've gained major research grants to fund many large and important projects—many in collaboration with top researchers in other countries. Our projects include topics like economics, consumers and markets, finance, corporate governance and accountability, and entrepreneurship. QUT's Professor Russell-Bennett has an international reputation for her research in the field of Social Marketing, using commercial marketing to address social problems, while QUT's Professor Per Davidsson is the Director of the Australian Centre for Entrepreneurship Research and a world authority on entrepreneurship.

## Reputation and rankings

QUT Business School has a strong reputation for innovation and high quality courses and graduates. We pioneered business degrees in areas such as advertising. We rank highly in many independent international comparisons. *The Financial Times* ranked QUT as having the best Master of Business (Applied Finance) in Australia (2014). *The Australian Financial Review* has ranked our MBA and EMBA among the nation's best. In the area of corporate education, QUT is one of only three Australian universities to feature in *The Financial Times*' world's best' list.

## Widen your worldview

At QUT, we like to expose our students to more of what the world of business has to offer. That's why we offer you the chance to study at one of more than 70 leading universities around the world. You can complete a student exchange for part of your course or enjoy a short term study tour. You may even be able to apply for one of our global study scholarships.

## Flexible programs

Whatever you want to achieve in business, QUT's flexible programs and double degrees can help make it happen. Our three-year Bachelor of Business lets you major in one or more areas of study. Or you can combine your first degree with another in business or in another QUT study area. You can even take one of nine language options as part of your course. The new Bachelor of Business—International combines the three-year Bachelor of Business standard degree with one year of compulsory overseas study. Your year of overseas study could offer you a second degree, cultural immersion or a flexible exchange program. Whichever combination you choose, QUT provides the flexibility to change things as your needs and preferences change.

## The Triple Crown Scholarship

If you're a high achiever, this scholarship could be for you. International students who have an excellent prior academic record and who enrol for the QUT Bachelor of Business automatically qualify. You'll gain the chance to have 25 per cent of your fees covered for the first year. Then, if you maintain a minimum grade point average for the remainder of your studies, you'll continue to receive the 25 per cent scholarship. There's no need to make a separate application. If you meet the requirements, we'll automatically offer you the scholarship.

Find out more by searching 'QUT triple crown scholarship'.

## We're here to help

If you're ever faced with a problem or challenge during your time at QUT, we have skilled and friendly people who will be happy to help you.

Our Language and Learning Advisers can help you improve your language skills or become better at tackling academic challenges. Our Study Skills program features workshops and personal tutoring to help you through core units. The staff at our student centre can answer all your questions about admission, enrolments and administration, while Student Learning Advisers can assist you with course and exam preparation.

# Course information

## Bachelor of Business (BS05)

CRICOS code: 003491G

Indicative fee: \$13300 per study period (48 credit points)

Campus: Gardens Point

Semester of entry: February, July and November

Duration: 3 years full time (6 semesters)

QUT's Bachelor of Business combines theory and practice and is recognised for its quality by employers in Australia and around the world. As a QUT business graduate, you can look forward to diverse career opportunities.

- Learn how to think creatively and critically, communicate professionally, make ethical business decisions and work in a global context.
- Combine your major with a set of complementary studies to meet your own interests.

**CORE UNITS:** You will complete these eight core units introducing you to the principles of business:

- Accounting
- Business law and ethics
- Economics
- Data analysis
- Marketing
- Global business
- Management
- Working in business

**MAJOR STUDY AREA:** Your major is your main professional area of study. There are nine majors to choose from, each consisting of eight units.

### ACCOUNTANCY

- Accounting systems and technologies
  - Audit and assurance
  - Company accounting
  - Financial accounting
- Financial accounting issues
- Management accounting
  - Taxation law
- Accounting capstone

### FINANCE

- Corporate finance
  - Economics 2
  - Finance 1
- Financial markets
- International finance
  - Investments
- Risk management and derivatives
- Finance capstone

### MANAGEMENT

- Entrepreneurship and innovation
- Intercultural communication and negotiation skills
  - Leading organisations
- Managing business growth
  - Managing operations
  - Project management
  - Strategic management
- Sustainability in a changing environment

### ADVERTISING

- Advertising campaigns
- Advertising copywriting
- Advertising management
- Advertising theory and practice
  - Consumer behaviour
  - Digital portfolio
- Marketing and audience research
  - Media planning

### HUMAN RESOURCE MANAGEMENT

- Contemporary employment relations
- Human resource issues and strategy
  - Human resource decision making
  - Leading organisations
- Learning and development in organisations
  - Performance and reward
- Personal and professional development
  - Recruitment and selection

### MARKETING

- Consumer behaviour
- e-Marketing strategies
- Integrated marketing communication
  - International marketing
- Marketing and audience research
- Marketing planning and management
  - Services marketing
  - Strategic marketing

### ECONOMICS

- Contemporary application of economic theory
- Economics 2 • Intermediate macroeconomics
  - Intermediate microeconomics
- Options (select four):**
  - QUANTITATIVE ECONOMICS UNIT SET
    - Applied behavioural economics
    - Game theory and application
    - Introductory econometrics
  - Quantitative methods for economics and finance
    - APPLIED ECONOMICS UNIT SET
      - Economics for the real world
    - Environmental economics and policy
  - Financial markets • International economics

### INTERNATIONAL BUSINESS

- Finance for international business
  - Importing and exporting
- Intercultural communication and negotiation skills
  - International accounting
- International business in the Asia-Pacific
  - International business strategy
    - International marketing
    - International logistics

### PUBLIC RELATIONS

- Global public relations cases
- Introduction to public relations
- Issues, stakeholders and reputation
- Marketing and audience research
  - Public relations campaigns
  - Public relations management
  - Public relations planning
  - Public relations techniques

Selected from any  
faculty of QUT

## Bachelor of Business – International (BS08)

**CRICOS code:** 083019B

**Indicative fee:** \$13300 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of Entry:** February and July

**Duration:** 4 years full time (8 semesters)

Increase your global employment opportunities and develop your intercultural skills with the Bachelor of Business – International which combines the three-year Bachelor of Business with one additional year of international studies in another country. Choose from one of nine majors outlined in the Bachelor of Business (BS05) program.

You undertake your international year as an exchange student at one of QUT's partner universities. You can design your studies to take advantage of specialist options including:

- language and cultural immersion
- a second degree program
- a certificate program
- flexible exchange studies.

### Course structure

Your course structure is similar to the three-year Bachelor of Business program. You will study the same core units, plus one additional unit—Bridging Cultures – International (nine units), choose a major study area (eight units) and choose from a range of complementary options (seven units). The international study year is equivalent to eight units of study and will commence in your third year. You will be provided with an individual study plan dependent on your international study year choice.

### Additional requirements

While we hope to accommodate your first preference of overseas study, some options may be capped based on the number of places on offer at the partner institution. You are also required to maintain the required GPA of 4.5 out of 7 (on QUT's 7-point scale) to be eligible for the international study year. If you do not maintain the required GPA or feel you are unable to continue in the Bachelor of Business – International you may be able to transfer to the standard Bachelor of Business degree.

### Additional costs

As this degree includes a year of overseas study you need to plan for all additional costs associated with travelling and living in another country, for example, additional visas and airfares. During your international study year, you continue to pay tuition fees at QUT, however you will not pay tuition fees at the partner institution.

[www.qut.edu.au/study/international-courses/bachelor-of-business-international](http://www.qut.edu.au/study/international-courses/bachelor-of-business-international)

## Accountancy

Prepare for accreditation as a professional accountant.

- Talk to experienced professional practitioners about real client cases in a chartered accountancy environment through the Pitcher Partner Seminar Series, the Deloitte Boardroom Seminar Series and Forensic Accounting Fair.
- Integrate your accounting knowledge through the final-year capstone project.
- Gain hands-on experience working in teams to research issues and develop practical solutions.

### Careers

- Business analyst
- Business risk and governance consultant
- Certified practicing accountant
- Chartered accountant
- Chief financial officer
- Financial adviser/analyst/planner
- Financial project manager
- Forensic accountant
- Investment manager
- Wealth management consultant

### Professional recognition

Graduates who complete the accountancy major and the professional accounting extension meet the academic component of requirements for membership of CPA Australia, the Chartered Accountants Australia and New Zealand, the Institute of Public Accountants, and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants (ACCA) and the Chartered Institute of Management Accountants.

Graduates who complete only the accountancy major will need to do additional units after graduation to meet these professional requirements. Students who complete specified units under the regulation and tax extension minor may also meet the academic entry requirements for registration as a tax agent with the Tax Practitioners Board.

## Advertising

QUT offered the first comprehensive advertising degree in Australia and is still a leader in its approach to innovative advertising education. This program covers the theory and practice of advertising including account management, planning, media, creative and digital.

- The degree connects strongly with the advertising industry on a local level and with the advertising discipline internationally.
- Work as part of a team to create a real-world advertising campaign.

### Careers

- Advertising account executive
- Copywriter
- Digital strategist
- Media planner
- Planner

## Professional recognition

Graduates are eligible for membership of the Account Planning Group Australia (APG Australia), the Australasian Writers and Art Directors Association (AWARD), and the Australian Direct Marketing Association.

## Economics

Economics gives you a contemporary understanding of the world. Economic issues are everywhere—inflation, interest rates, competition, business strategy, the sustainable use of resources, government, and unemployment.

QUT's economics major meets contemporary business needs with two streams available for your choice: a quantitative stream and a policy (applied) stream. Both streams will ensure you gain expertise in understanding and applying economic concepts. The quantitative stream provides training in econometrics (the key modelling tool used by economists), as well as game theory and behavioural economics. Alternatively, students may specialise in the public policy stream which incorporates units in environmental economics, economics of the real world and international economics.

### Careers

- Business analyst
- Business consultant
- Private and public sector economist
- Public sector manager

### Professional recognition

You will meet the academic requirements for professional membership of the Economics Society of Australia.

## Finance

Understand, analyse and manage major financial decisions, exposures and risks faced by organisations, including those in the financial services sector and those with international exposures.

- Learn core concepts and skills in finance areas such as: project evaluation, capital structure, security analysis and pricing, portfolio management, international finance and risk management.

Take part in hands-on projects including capital investment appraisal, firm valuation, portfolio allocations, hedging and risk management using up-to-date information from our Securities Dealing Room.

### Careers

- Commercial banker
- Financial analyst
- Investment manager
- Financial markets dealer

### Professional recognition

Graduates of the finance major meet the academic requirements for associate membership of the Financial Services Institute of Australasia.

## Human resource management

Develop skills in managing people in organisations including recruitment, performance and reward systems, employment relations, and staff development.

- Explore and critique real-world cases and projects and apply your knowledge to develop strategic policies for organisations.
- Acquire knowledge about how self-management and the management of others contributes to organisational performance, and develop personal, interpersonal and group skills.

### Careers

- Employee relations adviser
- Human resource manager/officer
- Recruitment consultant
- Training and development adviser
- Workforce planning manager

### Professional recognition

This program is nationally accredited through the Australian Human Resources Institute, and internationally accredited with the Society of Human Resource Management. You will also be eligible to join the Australian Institute of Management and the Australian Institute of Training and Development.

## International business

Gain international industry skills covering trade procedures, logistics, negotiation techniques, languages, regional understanding and offshore business strategies.

- Study real business cases involving planning, decision making and strategic management.
- Discover how business operates in many markets around the world.
- Learn about the international aspects of importing and exporting, communication accounting, logistics and marketing.

### Careers

- Customs and freight forwarding
- International banking and finance executive
- International business specialist
- Procurement specialist
- Supply chain manager

### Professional recognition

You may be eligible for membership of the Australian Institute of Export, the Supply Chain and Logistics Association of Australia and the Chartered Institute of Purchasing and Supply Australia depending on the units chosen.

## Management

Graduates with management skills can apply these skills to all occupations and industries — solving problems, making decisions and working with others to achieve targets, efficiency and profitability.

- Learn from real-world managers and develop your understanding of entrepreneurship and innovation, intercultural communication and negotiation, and how to manage in a business environment.
- In your capstone unit, develop a project management plan to demonstrate your knowledge of how to reach project goals and those of the organisation, while addressing the time challenges, cost, risk and resources.

### Careers

- Business development manager
- International management consultant
- Project officer
- Small business owner/manager
- Team leader

### Professional recognition

You will meet the requirements for membership of the Australian Institute of Management (AIM).

## Marketing

Marketing plays a pivotal role in business strategy and is in a constant state of evolution. It's about creating value for customers, shareholders and society and aligning this with what organisations offer.

- Gain a thorough understanding of the marketing mix from products to services to the not-for-profit area of business.
- Learn about the fast-changing world of e-Marketing and integrated marketing communications through the use of industry case studies.
- Learn to analyse consumer behaviour and design and use market research.

### Careers

- Business development manager
- Marketing communications officer
- Market researcher
- Product manager

## Professional recognition

You may meet the requirements for membership of the Australian Marketing Institute, the Market Research Society of Australia, the Australian Institute of Management, the American Marketing Association and the Australian Institute of Export.

## Public relations

Public relations helps organisations build and protect their reputation and relationships with the community, customers, and other stakeholders.

A public relations career can take you from publicising a new movie, to launching a social media campaign to improving relationships with customers to developing a government safety campaign.

- Learn how to build organisational relationships, write for and liaise with the media, and make public relations decisions across the corporate, government, agency and not-for-profit sectors.
- Pitch an idea to a real-world client and prepare a campaign to address their needs in your final year.
- Graduate with a portfolio of work to demonstrate your skills and potential to employers.

### Careers

- Media advisor or press secretary
- Corporate relations executive
- Media and communications officer
- Public relations consultant
- Publicist

### Professional recognition

This course is accredited by the industry's peak professional body, the Public Relations Institute of Australia, which provides access to professional education and career opportunities. QUT maintains strong links with this body and a number of our teaching staff hold executive positions.

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
070078J	IX17	Bachelor of Business /Bachelor of Exercise and Movement Science	Gardens Point + Kelvin Grove	4 years	February	\$13900
084925D	IX59	Bachelor of Business/Bachelor of Engineering (Honours)	Gardens Point	5 years	February	\$14400
059596B	IX34	Bachelor of Business/Bachelor of Creative Industries	Gardens Point	4 years	February	\$13400

083022G	IX81	Bachelor of Business/Bachelor of Laws (Honours)	Gardens Point	5.5 years	February	\$12900
085233B	IX92	Bachelor of Biomedical Science/Bachelor of Business	Gardens Point	4 years	February	\$14100

Double degrees require an enrolment of more than the standard credit point load in some semesters.

## Award-winning staff

### Professor Gayle Kerr

School of Advertising, Marketing and Public Relations

Gayle has always had a passion for advertising. She was the first non-US academic to win the American Academy of Advertising Billy I Ross Award for Education. In 2013, Gayle was recognised with an Australian Award for University Teaching for leading programs such as the advertising challenge, AdSpace, and developing the first digital advertising unit in Australia. Her passion for advertising continues to grow by providing students with engaging real-world connections and interactions.

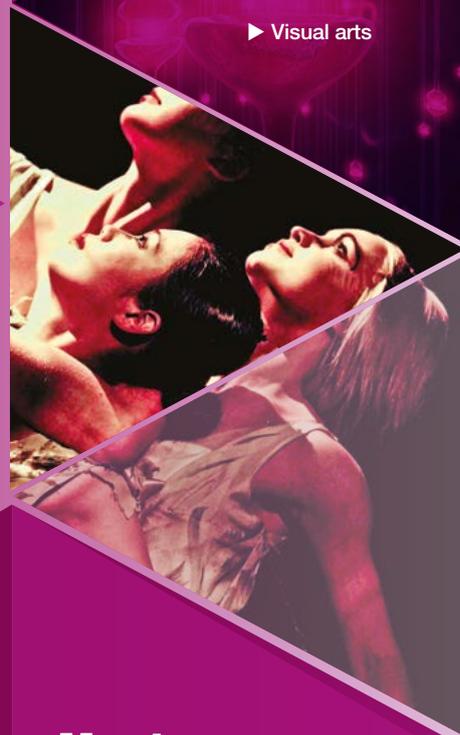

# Creative, design and performance

## Harnessing the economic and human potential of creativity.

If you're a creative thinker, QUT can help make your vision of a creative career come to life. We understand the passion that drives creative people. We also know how much creative expression is valued in today's world. So we offer courses which can help you to develop your talent, and to help you choose a fulfilling and rewarding career path. You'll be guided by lecturers who have experienced major success on the world stage and who can give you a real feeling for what a life in the pursuit of creative excellence is like. Get ready to be inspired.

## My story

Masako Mizusawa

Acting student

My favourite subject is acting fundamentals, because it's the essential tool to touch and communicate with people's hearts that is derived from various backgrounds and cultures. My tutor helps me understand how to interpret context written in English correctly.

# Where inspiration comes to life

## Gain professional skills

Design, media and the arts make vital contributions to economic and cultural life around the world. Now, more than ever, creative skills are valued by employers. QUT can give you the knowledge and the skills to help develop your creative ability to a level that meets the high professional standards of creative industries, in ways that will open up exciting career opportunities for you. Many QUT graduates have gone on to great success internationally, in almost every creative field. Their work has featured in film festivals like Cannes, Tribeca and Tropicfest. They have won Oscars, Emmys, BAFTAs and AFI Awards. They have designed iconic stadiums and facilities for events like the 2012 Olympic Games and the British Formula 1 Grand Prix. They've worked with leading design, theatrical and dance companies in the most creative cities worldwide. They've won Walkley Awards for excellence in journalism. And they've played key roles in events and design projects which have had a lasting impact on the cultural life of communities.

## Explore, experiment, collaborate

At QUT, we'll encourage you to explore creativity through many different experiences – practical and theoretical. You'll be able to collaborate on projects, performances and exhibitions. All the while, we'll aim to give you the confidence to achieve your true creative potential through exploration and creative experimentation.

## Work with inspiring people

Many QUT lecturers are distinguished scholars in the arts, media and design fields. Many of our tutors are working professionals who are expert in the latest thinking. And our connections with internationally recognised and award-winning practitioners, academics, artists and researchers from around the world add another exciting dimension to your QUT experience. Imagine being able to work with such inspiring people and draw on their knowledge and success.

## Turning your passion into a career

The chance to turn a talent into a full-time career is something not everyone can achieve. At QUT, we can help you make it a reality. Translating creativity into something meaningful and productive is a real focus of our industry partnerships. You'll get to experience the real world of work through industry placements, tutorials by creative professionals, industry events, mentorships and competitions. Depending on your course, you could gain work experience with partners like Nova radio, Warner Brothers Movie World, the Royal Brisbane Show, the Queensland Ballet, the Royal Academy of Dance UK or any number of design, events, media and government organisations. You could put your skills into practice in real world theatre, dance, music, art, new media, film or television companies via internships, industry projects and other networking activities. You could even have the chance to win prizes in major industry competitions and have your work exhibited or published.

## Experience world-class facilities

When you have the chance to learn and experiment using the very best facilities, your experience is so much richer. QUT offers an awe-inspiring array of facilities packed with the latest technologies, reflecting those of industry. There are so many examples at QUT, but here are just a few.

QUT animators and design students get to play with new digital technologies, and learn in brilliantly equipped workshops, design studios and design fabrication labs which allow production of full-scale models and prototypes. Media, journalism and entertainment industries students can develop their skills in QUT's dedicated newsrooms, radio and TV studios, edit suites and production offices. Students can learn to create for public installations using QUT's stunning digital interactive space—The Cube—featuring one of the world's largest interactive touchscreens. While performers, technicians and creative managers learn their craft through major productions at QUT's Gardens Theatre, and the black box theatre, The Loft.

# Course information

## Bachelor of Creative Industries (KK33)

**CRICOS code:** 056186M  
**Indicative fee:** \$14,300 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

QUT's unique Bachelor of Creative Industries degree provides diverse knowledge, creativity and practical skills across a range of self-nominated creative disciplines. Graduates are sought after because they are prepared for careers that increasingly require multi-disciplinary skills and knowledge.

- Explore your creative talents within two or three study areas including areas other than creative industries, such as business and IT.
- Gain experience and contacts in your industry through professional industry placements and projects.

### Careers

- Advertising professional
- Art project manager
- Art writer
- Digital content developer
- Entertainment producer
- Events manager
- Fashion communication professional
- Journalist
- Marketing officer/manager
- Media industry specialist
- Music agent/manager
- Music publisher/writer
- Project manager
- Theatre professional
- Visual artist
- Web designer

**CORE UNITS:** Complete six of the following core units for an introduction to the principles of creative industries:

- Creative industries practice
- Creative industries theory
- Events and festivals
- Film, TV and new media production
- Photomedia and artistic practice
- Professional internships
- Project management for entertainment
- Visual communication

**MAJOR STUDY AREA:** Your major is the main area of study for what you aspire to become professionally. You will undertake eight units of study from one of the majors below:

#### ANIMATION

- Advanced concepts • Animation history
- CG toolkit • Character development
- Illustration • Real-Time 3D
- Virtual environments

#### ART AND DESIGN HISTORY

- Architectural and design history
- Art history • Artistic movements
- Australian art • Contemporary art issues
- Design and space • Modern art

#### CREATIVE AND PROFESSIONAL WRITING

- Creative writing styles
- Persuasive writing
- Scriptwriting
- Writing genres

#### DANCE STUDIES

- Analysis of dance • Choreography
- Dance genres and movements
- Dance history • Dance practice
- Dance styles • Teaching dance

#### DRAMA

- Creative industries management
- Events and festivals • Performing skills
- Understanding theatre
- Directing theatre

#### ENTERTAINMENT INDUSTRIES

- Entertainment business
- Entertainment law • Global entertainment
- Marketing • The entertainment industry

#### FASHION COMMUNICATION

- Contemporary, modern and historic fashion
- Fashion analysis • Fashion drawing
- Fashion sustainability • Product design
- The fashion business • The fashion industry

#### FILM, TELEVISION AND SCREEN

- Contemporary issues in screen studies
- Film and TV genres • Film and TV history
- Film, TV and new media production
- Production management • The film industry

#### INTERACTIVE AND VISUAL DESIGN

- Image production
- Typographic design
- Visual communication interaction
- Web design and development

#### JOURNALISM

- Digital and online journalism
- Editing • Journalistic inquiry
- Journalistic writing genres • Layout and design
- Theory and practice • Media design and layout

#### LITERARY STUDIES

- Contemporary literature
- Literary history
- Literary theory • Modern literature
- Writing genres

#### MEDIA AND COMMUNICATION

- Consumer culture • Media analysis
- Media audiences • Media industries
- New media development
- Written and verbal communication

#### MUSIC

- Music and sound concepts
- Music and sound production
- Music theatre skills
- Music screen subcultures
- The music industry

Only a sample of individual units are shown – view more online at [www.qut.edu.au/creative-industries](http://www.qut.edu.au/creative-industries)

**COMPLEMENTARY STUDIES:** Design your ideal degree by combining your core units and major with complementary studies either in creative industries or from a wide range of areas across the university.

Second major (eight units)  
Plus  
Optional studies (two units)

Two minors  
(two x four units)  
Plus  
Optional studies (two units)

- Second major and minor options include the above study areas in addition to:
- Advertising • Architectural studies • Entrepreneurship • Games design • Industrial design • Integrated marketing communication
  - Interior design • Landscape architecture • Marketing • Online environments • Public relations.

## Bachelor of Design (Honours) (DE42)

**CRICOS code:** 079947G  
**Indicative fee:** \$14600 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Specialise in six design areas, each supported by new digital technologies and well-equipped workshops and studios that offer a hands-on university experience.

- Undertake real-world projects and studio-based learning, where your creativity is encouraged within a vigorous design culture.
- Network with the design community through public lectures, collaborative design studios, student-run exhibitions and international study tours.
- Broaden your studies with another study area in design or across QUT.

Choose either:

- one second major,\*
- two minors,\* or
- one minor\* and four elective units

\* Some restrictions may apply in architectural studies and landscape architecture.

### Architectural studies

Create environments with positive impacts on human health, environmental quality, social relationships and urban systems.

- Study sustainable systems using advanced digital design tools and undertake architectural design projects in practical studio settings.
- Progress to a Master of Architecture and gain the required practical experience to become an architect.

### Professional recognition

Graduates of this course will be eligible to articulate to the Master of Architecture (DE80). The Master of Architecture (DE80) is packaged with offers for Bachelor of Design (Honours) (Architectural Studies) and is accredited by the Architects Accreditation Council of Australia and the Board of Architects, and recognised by the Australian Institute of Architects.

### Careers

- Architecture and building design

### Example units

- Architecture and the city
- Architectural design
- Architecture, culture and place
- Architecture in the 20th century
- Architectural technology
- Architectural visualisation
- Design and sustainability
- Integrated technologies
- Introducing design

### Fashion

Develop creative and design skills in fashion through studio and project-based work with a special emphasis on emerging digital technologies such as 3D printing.

- Showcase your work to industry professionals through Queensland's only internationally recognised four-year bachelor degree in fashion.
- Undertake an industry internship and a business-planning project, and have the opportunity to study or work overseas through international exchange and scholarship programs.

### Careers

- Designer for large fashion house
- Fashion stylist
- Independent fashion designer
- International trend forecaster
- Production manager
- Product developer

### Additional entry requirements

Portfolio (A4 size) and interview required. Visit [www.qut.edu.au/study/international-courses/bachelor-of-design-honours/bachelor-of-design-honours-fashion](http://www.qut.edu.au/study/international-courses/bachelor-of-design-honours/bachelor-of-design-honours-fashion)

### Example units

- Drawing for fashion
- Fashioning futures
- Introduction to fashion
- Sustainability: the materiality of fashion
- Unspeakable beauty: a history of fashion and style

### Industrial design

Play a part in creating products including new consumer devices, more efficient work products, safer industrial tools or even medical equipment. The course is practical and has a strong focus on technology and design leadership, which is highly valued in the business community.

- Undertake study trips and project presentations, and benefit from QUT's strong collaborative links with international and national professionals and business communities.
- Create innovative, attractive, sustainable and user-friendly products and systems and be involved in hands-on design units each semester.
- Learn the technical aspects of design, design management, CAID (computer-aided industrial design) technology, ergonomics, aesthetics, marketing and design leadership.

### Professional recognition

Graduates qualify for membership of the Design Institute of Australia, the professional body for Australian designers. The course is an educational member of the International Council of Societies of Industrial Design.

### Careers

- Computer-aided designer
- Corporate identity designer
- Design researcher
- Interaction designer
- Interface designer
- Industrial designer
- Model maker
- Special effects producer
- Usability expert

### Example units

- Applied design research
- Cultural and design
- Design and sustainability
- History, theory and criticism
- Industrial design
- Introducing design
- Introducing design history
- New product development
- Product usability
- Product technology
- Product visualisation
- Professional practice in industrial design

### Interactive and visual design

Gain practical skills in graphic design, advertising, designing for digital screens and new media technologies (such as web, mobile and virtual environments), interface design, usability and information architecture. This course offers a unique combination of traditional design skills and new technologies within a creative studio setting.

- Create a portfolio and exhibit creative work to industry professionals.
- Gain employment in web design, games development, multiplatform interactive entertainment, and multimedia installation production.

### Careers

- Advertising and marketing
- Design
- Electronic publishing
- Games design
- Interactive entertainment
- Interactive exhibition design
- Multimedia
- Print design
- Web design

### Example units

- Animation and motion graphics
- Design for interactive media
- Digital media
- Graphical development environments for media interaction
- Interface and information design
- Programming for visual designers and artists

## Interior design

Learn the theory of how people interact with environments psychologically and socially, as well as skills to develop design solutions within a range of settings.

- Conceptualise and develop your designs using models, full-scale material constructs and digital animations.
- You will learn to consider purpose, efficiency, comfort, safety and aesthetics of interior spaces.

### Professional recognition

Graduates qualify for membership of the Design Institute of Australia. The course is an educational member of the Interior Design/Interior Architecture Educators' Association of Australia and New Zealand.

### Careers

- Domestic interior designer
- Film, television or theatre production designer
- Furniture and exhibition designer
- Interior design consultant
- Interior designer in the retail, entertainment or hospitality industries

### Example units

- Colour studies
- Design and sustainability
- Design in society
- Design psychology
- Furniture studies
- Interior design
- Interior visualisation
- Interior technology
- Interior visualisation
- Introducing design
- Introducing design history
- Professional studies in interior design

## Landscape architecture

This course is the only landscape architecture degree in Queensland. Landscape architects are concerned with the design of external landscapes at all scales, to ensure the health and welfare of the environment and its people.

- Learn landscape design and theory, graphic and communication skills, environmental and sustainability issues relating to landscape architecture, and landscape construction.
- Gain experience with real-world projects and fieldwork during your studies that incorporate interdisciplinary professions and community consultation and engagement.

### Careers

- Landscape architect
- Landscape planner
- Urban designer
- Urban engineer

### Example units

- Design and sustainability
- History and criticism of landscape design
- Introducing design
- Landscape construction
- Landscape design
- Landscape horticulture
- Landscape systems
- Landscape visualisation
- People and place
- Professional practice in landscape architecture

## Bachelor of Fine Arts (KK34)

**CRICOS code:** 056185A

**Indicative fee:** \$13200 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February and July\*

**Duration:** 3 years (6 semesters) full time

Study a specialisation and gain in-depth knowledge in one of 11 majors ranging from acting to visual arts. Gain experience and contacts in your industry through professional industry placements and projects, and create a portfolio or performance to exhibit to industry professionals.

\* July entry is only available for selected majors and subject to approved advanced standing.

### Acting

Educate, train and nurture your creative potential from a novice to a professional. Work with production companies, directors for film and television, and have the opportunity to perform in a season of public productions for stage and film.

### Careers

Graduates work as actors for stage, film and television.

### Additional entry requirements

Audition video required. Visit [www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-acting](http://www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-acting)

### Example units

- Acting
- Theatre project
- Voice and movement

### Animation

Apply a unique combination of traditional animation skills and new technologies within a creative studio setting, in response to creative briefs. You will gain practical skills in motion graphics, 3D graphics, drawing and real-time modelling for virtual environments. Gain experience and contacts in your industry through professional placements and projects and choose independent study units where you can develop creative work.

### Careers

- Advertising
- Animator
- Real-time games
- Simulation animator for medical and architecture organisations
- Visual effects

### Example units

- Animation and motion graphics
- Animation production
- Character development, conceptual design and animation layout
- Introduction to 3D computer graphics
- Real-time 3D computer graphics
- Visual communication
- Virtual environments

## Creative and professional writing

Build specialist writing skills and work intensively on your writing in genres such as novels and short stories, creative non-fiction, youth writing and poetry. Write a sustained work in a genre of your choice and learn professional skills such as corporate writing, persuasive writing, editing and scriptwriting.

- Learn from highly experienced and published authors, scholars, and experts in professional writing.
- Undertake an internship at a writers' festival, literary event, publishing house or public reading workshop.

### Careers

- Corporate writer
- Editor
- Feature writer
- Fiction writer
- Journalist
- Publisher
- Reviewer
- Scriptwriter
- Travel writer

### Example units

- Corporate writing and editing
- Creative non-fiction
- Creative writing: the short story
- Editing and developing the manuscript
- Great books: the literary classics
- Media writing
- Persuasive writing
- Youth and children's writing

## Dance

Receive training in the core technique of contemporary dance and the experience of a broad range of other styles – ballet, funk, jazz, tap, yoga, alternative styles and dance from a diverse range of global cultures. This course develops the creative passions of future dance professionals who aspire to careers outside of dance performance.

You will be taught by internationally recognised specialists in dance and perform to the public and the dance industry.

### Careers

- Choreographer
- Community-based or commercial artist
- Dance health professional
- Dance researcher
- Dance teacher (with additional study)
- Independent artist
- Movement specialist

### Additional entry requirements

Audition by video. Students applying for any of the dance courses are required to enclose a personal statement, photographs and a statement from a medical practitioner which states you are physically capable of undertaking a full time dance training course. Visit [www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-dance](http://www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-dance)

### Example units

- Architecture of the body
- Choreographic studies
- Dance practice
- Latin dance party
- Performance in context
- Teaching dance
- World dance

## Dance performance

Undertake intensive daily training in the core techniques of ballet and contemporary dance supported by weekly duo, pas de deux, pointe, male coaching classes, pilates, yoga, body conditioning and alternative dance styles, making you internationally competitive. You will have the opportunity to undertake at least one tour either in Australia or overseas. This course boasts an enviable reputation and continues to lead in developing the creative passions of Australia's future dance artists.

### Careers

- Choreographer
- Dance performer
- Independent artist

### Additional entry requirements

Audition by video. Students applying for any of the dance courses are required to enclose a personal statement, photographs and a statement from a medical practitioner which states you are physically capable of undertaking a full time dance training course. Visit [www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-dance-performance](http://www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-dance-performance)

### Example units

- Architecture of the body
- Choreographic studies
- Dance technique studies
- Integrated professional skills
- Performance

## Drama

Combine creative experiences in performance making with highly theoretical studies that connect you with contemporary performance both nationally and globally. Learn from a range of industry professionals whose expertise and passion will inspire and guide you, and who in future years may become your mentors and colleagues.

- Develop skills in applied theatre, directing and collaborative production.
- Learn how to plan, fund and produce live events.
- Undertake a major production each year, guided by experienced directors and industry professionals.

### Careers

- Arts administrator
- Community artist
- Director
- Events and festivals organiser
- Performer
- Playwright
- Producer
- Youth arts worker

### Example units

- Applied performance
- Creative Industries events and festivals
- Directing for performance events and festivals
- Performing self
- Performing skills 1: character and scene
- Performing skills 2: style and form
- Production 1: story making
- Production 2: the collaborative artist
- Production 3: interpreting and adapting
- Staging Australia

## Film, TV and new media production

Develop your skills in producing, writing, editing, sound, cinematography or directing. Gain an understanding of the techniques used in audiovisual media, develop business and leadership abilities, and knowledge of how the industry works. With this film course for the digital age.

- Work with broadcast quality equipment, learn from lecturers with recognised industry experience, produce creative works for external clients, and showcase your work at public screenings in your final year.
- Graduates have made films that have won Oscars, Emmys, AFI awards, BAFTAs and screened at major international and Australian film festivals.

### Careers

- Cinematographers
- Director
- Film editor
- Film or TV researcher
- Positions in the film, television and screen industries
- Production manager
- Programmer
- Screen/media scheduling
- Scriptwriter
- Sound editor
- Vision editor

### Example units

- Introduction to film, TV and new media production
- Narrative production
- Film, screen and animation histories
- The movie, TV and new media business
- Multi-camera TV studio production
- Film and television scriptwriting
- Project development for film, TV and new media
- Contemporary issues in the screen industries

## Technical production

Gain skills in lighting, stage management, festival management, sound and multimedia, costume, props and stage design, with this intensive, highly practical course.

- Opportunities to work on theatre productions, fashion parades, music and dance performances and film shoots as part of your course.
- Gain experience through internships and industry placements at music festivals, state and local theatre, opera and dance companies, entertainment venues and touring shows.

### Careers

- Lighting, sound and scenic designer
- Operator or technician for performing arts, events or festivals
- Production manager
- Stage manager
- Technical direction

### Additional entry requirements

Telephone interview required. Visit [www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-technical-production](http://www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-technical-production)

### Example units

- Technical production practice
- Stage management
- Scenography and the art of technical theatre
- Intermedial applications for the theatre

## Visual arts

Work as a contemporary artist, art professional, curator or art teacher. Study both studio and art history units to develop your individual art practice.

- Explore your artistic practice in an open studio, encouraging, and self-directed environment.
- Discover how to critically evaluate your work and the work of others. Explore your art practice across a range of media.
- Combine with other art and design study areas.

### Careers

- Art teacher (with additional study)
- Community artist
- Creative director
- Curator
- Independent artist
- Visual designer

### Additional entry requirements

Portfolio required. Visit [www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-visual-arts](http://www.qut.edu.au/study/international-courses/bachelor-of-fine-arts/bachelor-of-fine-arts-visual-arts)

### Example units

- Australian art
- Contemporary Asian visual culture
- Digital media
- Modernism
- Post 1945 art
- Studio art practice
- Theories of spatial culture
- Video art and culture

## Bachelor of Journalism (KJ32)

**CRICOS code:** 040293F

**Indicative fee:** \$12 500 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February and July

**Duration:** 3 years (6 semesters) full time

Investigate, write and present news across platforms including online, print, radio and television. Hands-on production experience combined with knowledge of theory and context will provide you with a foundation for your journalism career in the 21st century.

- Access industry-standard equipment and facilities, dedicated newsrooms, radio and TV studios, editing suites and production offices.
- Gain professional media experience through industry placements and internships, contribute to QUT News bulletins for television and radio, and write online news for professional news outlets.

### Careers

- Corporate communications professional
- Journalist for newspaper, magazine, television, radio or online publications
- Media adviser
- Public relations specialist

### Example units

- Computational journalism
- Feature writing
- Investigative reporting
- Journalism ethics and issues
- Journalistic inquiry
- Media myth busting
- Newswriting
- Online journalism
- Radio and television journalism

## Bachelor of Media and Communication (KC30)

**CRICOS code:** 064644A  
**Indicative fee:** \$12 500 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Enhance your skills in sophisticated, transferable media and communication and learn about how the media works, its impact on society, and the issues that shape public debate about the media.

- Study the distribution of creative content on new media, television, radio, print Internet, mobile technologies, movies, advertising, public relations and music.
- Undertake internships and work placements with government departments, as well as media, advertising and public relations organisations.

### Careers

- Communication officer
- Digital content manager
- Marketing professional
- Market researcher
- Media planner or buyer
- Media sales executive
- Public relations specialist

### Example units

- Creative industries internship
- Media and communication: industries
- Media audiences
- Media myth busting
- Political communication
- Professional communication
- Strategic speech communication

## Bachelor of Mass Communication (IF27)

**CRICOS code:** 037542J  
**Campus:** Kelvin Grove and Gardens Point  
**Indicative fee:** \$13 100 per study period (48 credit points)  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Develop a breadth of skills across a range of communication disciplines and combine studies in creative industries and business. Tailor your studies to meet a specific career outcome or broaden your experience to create wider employment options. Gain experience through internships and work placements with media, advertising and public relations organisations.

Choose two majors from the following areas:

- Advertising
- Entertainment industries
- Journalism
- Media and communication
- Public relations

### Careers

- Copywriter
- Corporate communication manager
- Event manager
- Media adviser
- Media planner
- Media production specialist
- Public relations consultant
- Specialist journalist

### Example units

- Advertising copywriting
- Advertising theory and practice
- Feature writing
- Global entertainment
- Introduction to public relations
- Marketing and audience research
- Media audiences
- Professional communication

## Bachelor of Entertainment Industries (KK35)

**CRICOS code:** 073552G  
**Campus:** Kelvin Grove and Gardens Point  
**Indicative fee:** \$12 800 per study period (48 credit points)  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Work as an entertainment producer where you will originate, design and run entertainment projects. Learn the business, legal and creative skills needed for work in television, music, entertainment events, games, radio, marketing, sports media, theme park or movie industries.

- Graduates work as producers, researchers, online producers, publishers, agents or promoters within the growing entertainment industry.
- Gain experience and contacts in your industry through professional industry placements and projects.

### Careers

- Entertainment director
- Entertainment entrepreneur
- Entertainment manager
- Producer
- Publisher
- Promoter

### Example units

- Consumer behaviour
- Entertainment law
- Entertainment marketing
- Entertainment practice: balancing creativity and business
- Global entertainment
- Introduction to film, TV and new media production
- Project management for entertainment

## Bachelor of Music (KM32)

**CRICOS code:** 022140F  
**Indicative fee:** \$12 500 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Study current issues in music and develop practical skills in music and sound production or performance. You'll be encouraged to create works across musical boundaries.

- Gain experience and contacts in your industry through professional industry placements and projects.
- Choose independent study options where you can design and implement creative work.
- Develop your individual artistic identity and create works across musical boundaries.
- Learn about principles of performance, writing and arranging, production, and the music industry through expert workshops.

### Careers

- Composer
- Creative music producer
- DJ
- Mixer
- Performer
- Studio teacher

### Additional entry requirements

Audition video and written statement required. Visit [www.qut.edu.au/study/international-courses/bachelor-of-music](http://www.qut.edu.au/study/international-courses/bachelor-of-music)

### Example units

- Critical listening
- Creative performer
- Creative studio
- Music and sound production
- Music and sound concepts
- Music scenes and subcultures
- The music industry

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
059596B	IX34	Bachelor of Business/Bachelor of Creative Industries	Gardens Point	4 years	February	\$13 400
064813M	IX35	Bachelor of Business/Bachelor of Fine Arts (Creative and Professional Writing, Drama, Interactive and Visual Design, Visual Arts)	Gardens Point + Kelvin Grove	4 years	February	\$13 400
058291E	IX43	Bachelor of Creative Industries/Bachelor of Human Services	Kelvin Grove	4 years	February	\$12 600
059227E	IX56	Bachelor of Creative Industries/Bachelor of Information Technology	Gardens Point + Kelvin Grove	4 years	February	\$13 900
083024E	IX85	Bachelor of Fine Arts (Creative and Professional Writing)/Bachelor of Laws (Honours)	Gardens Point + Kelvin Grove	5.5 years	February	\$12 500
064812A	IX69	Bachelor of Fine Arts (Interactive and Visual Design)/Bachelor of Information Technology	Gardens Point + Kelvin Grove	4 years	February	\$13 500
059598M	IX36	Bachelor of Journalism/Bachelor of Business	Gardens Point + Kelvin Grove	4 years	February	\$12 900
083026C	IX84	Bachelor of Journalism/Bachelor of Laws (Honours)	Gardens Point + Kelvin Grove	5.5 years	February	\$12 500
064809G	IX67	Bachelor of Media and Communication/Bachelor of Business	Gardens Point + Kelvin Grove	4 years	February	\$12 900
083028A	IX86	Bachelor of Media and Communication/Bachelor of Laws (Honours)	Gardens Point + Kelvin Grove	5.5 years	February	\$12 500
077702M	IX70	Bachelor of Media and Communication/Bachelor of Nutrition Science	Kelvin Grove	4 years	February	\$13 600
077689C	IX75	Bachelor of Media and Communication/Bachelor of Public Health	Kelvin Grove	4 years	February	\$12 800

Double degrees require an enrolment of more than the standard credit point load in some semesters.

## World-leading precinct now even better

QUT's Creative Industries Precinct will receive an \$80 million boost with phase two of our Kelvin Grove facilities due for completion in 2015. World-class dance, drama, visual arts and music studio spaces, performance venues and creative research labs will be located here, alongside indoor and outdoor informal learning and social spaces. Using leading-edge technology, it will be a key facility for teaching and research in the visual and performing arts, creative arts events and exhibitions, and short courses open to the public. The new 13800m<sup>2</sup> development includes a six-storey building, visual arts studio building and four re-purposed heritage spaces.

# Education

## Be empowered to shape the future.

Would you enjoy the fulfillment of a career which helps grow young minds? Do you want the confidence gained by studying at Australia's top-performing education faculty? Education at QUT could be for you. Our innovative approach to teacher training and our focus on high-quality research has helped us develop an outstanding reputation in Australia and internationally. We are especially respected for our expertise in early-years teaching and learning, and childhood development. Many of our lecturers have an international profile for their research. The chance to learn from so many of our brightest minds means that studying here is an excellent way to boost your chances of a great career. It's also a truly rewarding experience for people who desire to inspire the next generation.

- ▶ Early childhood and early years
- ▶ Middle years
- ▶ Primary
- ▶ Secondary and senior years

## My story

Yui Matsuzawa

Education (Secondary) student

I enjoyed all of my teaching units at QUT. Dancing is another passion of mine, and I took two dance units as part of my course. In one class I learned Indigenous Australian, Polynesian, Chinese and Indian dance. The class was so much fun and I could learn about other cultures at the same time. In the other class, I practiced Funk and Jazz dance, which were new to me. It was difficult but I enjoyed learning new movements and challenging myself.

# Our results speak for themselves

## Learn about learning from the best

If you believe that passing on wisdom from one generation to the next is important, you've come to the right place. Many of QUT's people who will pass on their knowledge to you are world-renowned academics. Their expertise—often based on decades of experience and leading-edge research—ranges from inclusive education, maths and science teaching and school performance, to the psychology of child abuse and cyber-bullying. QUT researchers are also heavily involved in a push to improve the learning of science, technology, engineering, and mathematics (STEM) among primary students, with a major four year Australian Government sponsored research project emphasising QUT's wealth of knowledge on vitally important issues. Knowledge which you can draw upon through your daily studies, and through our innovative mentor programs.

## Top marks across the board

QUT Education is consistently rated among the best Education faculties in Australia. We were one of only five universities to receive a rating of 'above world standard' for our performance in education research in the 2012 report, 'Excellence in Research in Australia'. We're ranked in the top three Australian universities based on grants for education-related research, and we've received citations for outstanding contributions to student learning from the Australian Learning and Teaching Council. It's strong evidence of our commitment to staying at the forefront of ever-changing education practice.

## Hands-on learning

The best way to truly develop your skills as a teacher is to teach. So at QUT, you'll have the chance to gain practical work experience in real classrooms and early childhood centres throughout your studies.

This can give you a real advantage. You'll spend approximately 80 days in schools or early childhood settings. If you decide to focus on early childhood, you'll benefit from an extra 15 days working with children aged up to two.

Our internship programs are where it really gets interesting. These can give you the opportunity to experience a real teaching environment independently—but with support as you need it. We also offer many other hands-on experiences. Depending on your course, you can collaborate with the Queensland Performing Arts Centre, participate in the innovative Out of The Box festival, or sign up for our Graduate Schools Program. Real-world education experience: there's no better way to put all you've learned into practice, and build confidence for the big step into a rewarding teaching career.

## An international reputation

Your QUT education qualification can set you up for a career almost anywhere. We've always taken a global view of education, and have valuable partnerships with overseas universities and governments. We regularly exchange knowledge and ideas in the areas of teacher education, professional development and research, with organisations such as the Ministry of Education Malaysia, the PNG Department of Education, and Beijing Normal University, and every year we train groups of teachers from Jiangsu Provincial Education Department in China.

We're also involved in helping improve higher education teaching, learning and research training as a member of the Australian Government's Collaborative Research Networks program.

## Research that informs teaching

Our focus on high-quality research has furthered our outstanding reputation in education. In fact, QUT's Faculty of Education was one of only three universities nationwide to receive an "above world-standard" rating for its overall performance in research in the 2012 Excellence in Research for Australia (ERA) report.

QUT researchers in education have led the National Exceptional Teachers for Disadvantaged Schools program (NETDS), which creates a pathway for high quality pre-service teachers to be better prepared for teaching roles within low-socio-economic schools. NETDS has proven so successful that at least five other Australian universities have joined the program—it's just another way that QUT research informs effective teaching practices.

# Course information

## Bachelor of Education (Early Childhood) (ED39)

**CRICOS code:** 080481D  
**Indicative fee:** \$13500 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Become a specialist in the education and development of children from birth to primary school Year 3 and be able to teach across all curriculum areas, with the Bachelor of Education (Early Childhood).

You will gain extensive classroom experience through 95 days field experience plus a 20-day internship.

### Professional recognition

The Bachelor of Education (Early Childhood) is an Australian Institute for Teaching and School Leadership, Queensland College of Teachers, and Australian Children's Education and Care Quality Authority approved course. Graduates are eligible to apply for teacher registration.

### Credit for prior learning

Students admitted with a completed Diploma of Children's Services (Early Childhood Education and Care), or an Advanced Diploma of Children's Services, or an equivalent accredited qualification will be automatically granted credit (advanced standing) of 96 credit points. Prospective students who intend to apply for advanced standing for other prior study should contact the faculty to seek advice on the availability of suitable units.

### Career outcomes

As early childhood specialists, graduates are prepared to work as qualified teachers in early childhood education and care settings, kindergarten and Prep to Year 3 in primary school. Your qualification can also allow you to work in other locations within Australia and overseas.

The course is designed to prepare you with the knowledge and experience to manage learning programs for students in a range of educational settings and to cater for the diverse needs of students.

### Additional requirements

Student teachers of the Bachelor of Education (Early Childhood) must be issued with a blue card prior to having contact with children.

For further information on this course visit [www.qut.edu.au/study/international-courses/bachelor-of-education-early-childhood](http://www.qut.edu.au/study/international-courses/bachelor-of-education-early-childhood)

## Bachelor of Education (Primary)(ED49)

**CRICOS code:** 080480E  
**Indicative fee:** \$13500 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Prepare for employment as a primary school teacher and teach across all curriculum areas, with the Bachelor of Education (Primary).

You will gain extensive classroom experience through 80 days of field experience plus a 20-day internship.

### Professional recognition

The Bachelor of Education (Primary) is an Australian Institute for Teaching and School Leadership and Queensland College of Teachers approved course. Graduates are eligible to apply for teacher registration.

### Career outcomes

You will be prepared to teach Prep to Year 6 in a primary school. Teachers develop a range of skills which, in combination with work experience and personal qualities, may equip them for a variety of careers including community education officers and training developers. Your qualification can also allow you to work in other locations within Australia and overseas.

### Program structure

You will learn important skills and gain key knowledge including curriculum content, teaching strategies, assessment and feedback, and behaviour management. You will also learn to effectively engage with various stakeholders in school communities including parents, colleagues and external community partners. You can tailor the course to your particular interests by choosing option units. You can either choose units from a variety of topics, or focus on a particular topic of interest to form a minor area of study.

### Additional requirements

Student teachers of the Bachelor of Education (Primary) must be issued with a blue card prior to having contact with children.

For further information on this course visit [www.qut.edu.au/study/international-courses/bachelor-of-education-primary](http://www.qut.edu.au/study/international-courses/bachelor-of-education-primary)

## Bachelor of Education (Secondary) (ED59)

**CRICOS code:** 080477M  
**Indicative fee:** \$14400 per study period (48 credit points)  
**Campus:** Kelvin Grove and Gardens Point  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Specialise in two teaching areas and teach these two areas in secondary schools. You will gain extensive classroom experience through 80 days of field experience plus a 10-day internship.

### Professional recognition

The Bachelor of Education (Secondary) is an Australian Institute for Teaching and School Leadership and Queensland College of Teachers approved course. Graduates are eligible to apply for teacher registration.

### Careers outcomes

Graduates will have a solid foundation of knowledge to teach in secondary schools. Your career will be guided by, but not limited to, your chosen teaching areas. Teachers develop a range of skills which, in combination with work experience and personal qualities, may equip them for a variety of careers including community education officers and training developers. Your qualification can also allow you to work in other locations within Australia and overseas.

### Program structure

Students will select their two teaching areas. Discipline studies are often undertaken within another faculty of QUT and may require attendance at more than one campus.

### Current teaching areas include

- Biology
- Chemistry
- Earth and environmental science
- English
- Geography
- Health and physical education
- History
- Maths
- Physics

### Additional requirements

Student teachers of the Bachelor of Education (Secondary) must be issued with a blue card prior to having contact with children.

For further information on this course visit [www.qut.edu.au/study/international-courses/bachelor-of-education-secondary](http://www.qut.edu.au/study/international-courses/bachelor-of-education-secondary)

## Blue card

All preservice teachers must be in possession of a valid Suitability Card for Child Related Employment (blue card) issued by the Public Safety Business Agency and this card must be registered with Student Services at QUT.

Preservice teachers must undergo a criminal history check and be issued with a Suitability Card (blue card) by the agency before they are allowed to undertake field experience in a school or centre in Queensland. Your field placement cannot be confirmed until your blue card details are recorded on your QUT student record. Placement in other states of Australia may require a criminal check completed by the relevant state authorities.

Students should apply for a blue card as soon as they are accepted into their course. It is a requirement of all Queensland sites that preservice teachers show their valid blue card prior to starting their field experience. Blue cards are valid for three years.

Visit [www.qut.edu.au/bluecard](http://www.qut.edu.au/bluecard) for details.

## Literacy and numeracy requirement

All Bachelor of Education students are required to satisfactorily complete assessment criteria relating to Queensland College of Teachers literacy and numeracy standards in order to meet course and Queensland College of Teachers national accreditation requirements. Literacy and numeracy modules have been developed to support students to attain satisfactory standards on the relevant literacy and/or numeracy criterion during their assessment in the first year of study.

Students may also seek support from a range of advisers across QUT. Students will have the support of their Program Coordinator to identify the best approach.

## Prerequisite subjects for Bachelor of Education degrees

Bachelor of Education courses have prerequisite subjects instead of assumed knowledge due to Queensland College of Teachers requirements. This means you will need to have studied the required subjects to gain entry to these courses. The Queensland Curriculum and Assessment Authority subjects are:

- Senior English (4 SA)
- mathematics: maths A, B or C (4 SA)
- for students entering undergraduate primary and early childhood programs, a sound achievement (4 SA) in a Queensland Curriculum and Assessment Authority science subject, or equivalent subject from another jurisdiction.

# Engineering

- ▶ Urban development

## The environment to elevate your thinking

If you relish the chance to come up with innovative solutions to challenging problems, there's no better place than QUT. There are so many things here to be inspired by. The hub of QUT engineering teaching and research is our extraordinary \$230 million Science and Engineering Centre featuring one of the world's most advanced interactive learning spaces with an impressive two-storey array of multi-touch screens. It's an amazing space, but what makes it unique is the way it brings together students and experts from many different areas of study. Boundaries between disciplines have been erased, so people from the fields of engineering, science, maths and technology can work together in tackling some of the biggest problems of our age. Even if you'd like to focus on the more traditional areas of engineering, it's exciting to be studying in such a vibrant, world-changing environment. Search 'QUT The Cube' to find out more.

## My story

**Bruce Fernandes**

Mechanical engineering student

I'm studying mechanical engineering because I have always been interested in how things work. I particularly enjoy the design aspect of things because we often have design and build projects. This hands on experience reinforces the theoretical concepts that we learn, and it is very gratifying to see your designs come to fruition. Having always had an interest in science and making things, mechanical engineering was an obvious choice.

# A new way of thinking about working

## Take your career further

The quality of QUT engineering can give you the skills and the confidence to take on the world. You'll also be accredited to work internationally. All our undergraduate courses are professionally accredited by Engineers Australia—a signatory to the Washington Accord. This means your qualification is officially recognised in many countries, allowing you to travel far and wide in your career.

## Leading the way

At QUT, we can confidently say we're at the forefront of engineering practice in many areas. Our research, our facilities and our people are all truly world class. We are the only university in Australia with a degree in aerospace avionics. Our engineering labs are full of the latest signal processing equipment and most advanced computer hardware. Our students are involved in ground-breaking research through QUT's Australian Research Centre for Aerospace Automation. Our Medical Engineering Research Facility and the QUT Institute of Health and Biomedical Innovation are leading the world in areas such as biomaterials and tissue engineering, biomedical engineering, nanotechnology and renewable energy research. And QUT's ARC Centre of Excellence in Robotic Vision has just been awarded a \$19 million federal government grant for its seven-year research program. These are just a few of the exciting stories unfolding at QUT.

## Put yourself to the test

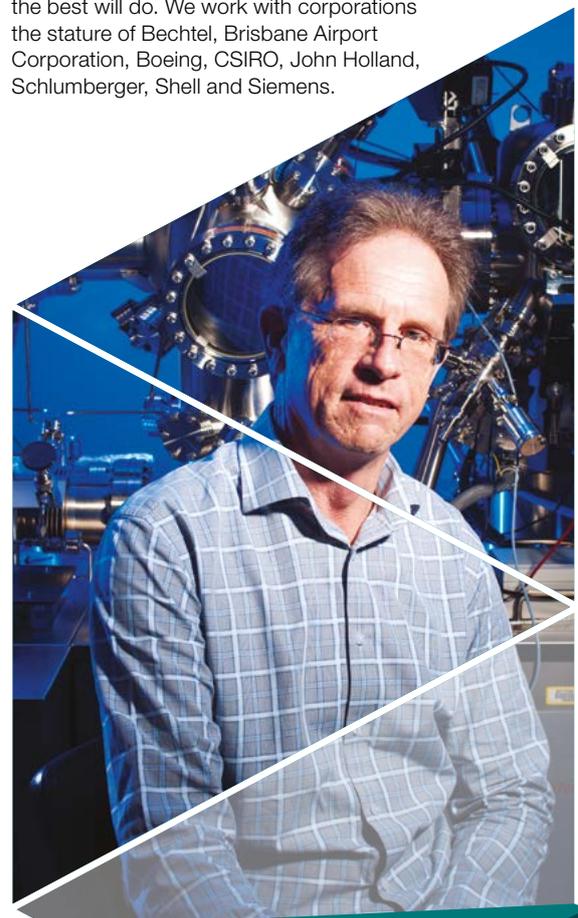

All the way through your course you'll have opportunities to apply your knowledge in practical ways. Not all of them are about assessment. QUT students are so enthusiastic about engineering, many actively participate in engineering competitions, societies and events. They travel and apply their skills to improve the lives of disadvantaged communities as part of Engineers Without Borders. They design, build and operate autonomous aerial vehicles and test them against other teams around the world in the UAV Outback Challenge. They support each other professionally and socially as part of GEMS (Girls in Engineering Making Statements). They build and race cars in the annual Formula SAE competition under the 'QUT Motorsport' banner.

## The master and the successor

At both lecturer and student level, QUT engineers excel. One of the lecturers—Professor Les Dawes—has previously been recognised with an Australian Award for University Teaching (Citation for Outstanding Contributions to Student Learning). This recognises his significant service to engineering as an educator and as a researcher. A younger but no less significant QUT Engineer, James Tilbury, was awarded the Queensland Rhodes scholarship in 2011 —the most prestigious award of its kind in Australia, which allowed him to study further at the UK's University of Oxford.

## Work with the best companies

We work closely with some of the world's leading engineering firms. They help shape our course content and deliver opportunities for students to take part in overseas internships, work experience placements and site visits. At QUT, only the best will do. We work with corporations the stature of Bechtel, Brisbane Airport Corporation, Boeing, CSIRO, John Holland, Schlumberger, Shell and Siemens.

# Course information

## Bachelor of Engineering (Honours) (EN01)

**CRICOS code:** 084921G

**Indicative fee:** \$15200 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February and July

**Duration:** 4 years (8 semesters) full time

Increase your knowledge across several engineering units in the first year before specialising in a certain discipline. Participate in student-led projects, international study tours, and obtain access to multimillion-dollar research facilities.

### Professional recognition

This course is accredited by Engineers Australia (EA). EA is a signatory to the Washington Accord, which permits graduates from accredited member courses to be professionally recognised in various countries across the world.

Process Engineering is a new major and as such has provisional accreditation by Engineers Australia.

### Real-world learning

Through world-class teachers in niche areas and problem-based learning, graduates gain the essential theoretical knowledge and practical experience to transfer immediately into the workforce.

During your course you will learn at QUT and in the workplace, and have the opportunity to join a range of student-led projects and clubs.

Our Work Integrated Learning program gives you the opportunity to combine workplace activities with academic study, assessment and support.

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
084925D	IX59	Bachelor of Engineering (Honours)/Bachelor of Business	Gardens Point	5 years	February	\$14 400
084923F	SE60	Bachelor of Engineering (Honours)/Bachelor of Information Technology	Gardens Point	5 years	February	\$14 500
084922G	SE40	Bachelor of Engineering (Honours)/Bachelor of Mathematics	Gardens Point	5 years	February	\$15 200
084924E	SE80	Bachelor of Engineering (Honours)/Bachelor of Science	Gardens Point	5 years	February	\$17 100

Double degrees require an enrolment of more than the standard credit point load in some semesters.

## My story

### James Moody

QUT electrical engineering and information technology graduate

James has had key roles at FedSat (Australia's first satellite project in 30 years) and CSIRO, and has judged some of the country's best ideas as a panellist on ABC TV's *The New Inventors*. James now has his own 'big idea' and is the founder of TuShare ([www.tushare.com](http://www.tushare.com))—a web-based community where people can give away things they no longer need to others. TuShare has the noble goal of reducing waste sent to landfill and enabling goods to reach their full lifespan.

# Health and community

## The difference is in your hands.

There's a wealth of health and community expertise and wisdom at QUT. The people who can share it with you are united by their desire to make a real difference to people's lives. That's just one of the reasons studying health and community with us is so rewarding. You'll also have the opportunity to practise what you learn so much sooner. QUT's multi-million dollar on-campus health clinics give students a practical workplace experience like no other. You'll have the chance to gain real-world experience in a facility just like those in industry. At QUT, you'll get involved in hands-on work early on, and experiencing it for real is the best way to prepare yourself to make a change for the better in your corner of the world.

- ▶ Human movement and exercise
- ▶ Medical radiation sciences
- ▶ Medical sciences
- ▶ Nursing
- ▶ Nutrition and dietetics
- ▶ Optometry
- ▶ Paramedic science
- ▶ Pharmacy
- ▶ Podiatry
- ▶ Psychology and counselling
- ▶ Public health
- ▶ Social work and human services

## My story

Kylie O'Keefe

Biomedical science graduate

My time at QUT helped me realise what I wanted to do with my degree. I did internships with business-based and science-based companies, and my lecturer was actually the one who introduced me to the boss at the company where I got my first job. That led to my current job in Copenhagen, working for a pharmaceutical company that develops treatments for skin conditions that affect millions of people worldwide.'

To hear more of Kylie's story visit the Study Health playlist at [www.youtube.com/TheQUTube](http://www.youtube.com/TheQUTube)

# Be at the leading edge of human care

## Learn from the people who wrote the book

QUT has a long and proud history as a leader in health and community studies. It's due to the unrivalled quality of our lecturers and researchers. Many of the texts used throughout Australia have been written by QUT people. Our nursing lecturers are renowned internationally for their advances in teaching and nursing practice. In medical sciences, we are home to the largest group of prostate cancer researchers in the country. We have leading researchers making world-first breakthroughs in wound care, chlamydial infection and vaccinations and eye reconstruction and vision correction. In nutrition and dietetics, we lead the largest childhood obesity program in Queensland. We don't just follow established ways of thinking. We lead. So if you'd like to learn from the best, look no further.

## Making a global difference

AT QUT, we believe in helping individuals lead happier, healthier lives. Yet we also take our responsibilities as global citizens seriously. So at QUT, there is a strong focus on improving the health of communities, treating and preventing disease, and improving clinical practice on a global scale. To do this, it's vital to have a global outlook, and to work with other experts around the world.

Our School of Biomedical Sciences works with other research institutes in Europe, USA and South-East Asia. QUT's School of Clinical Sciences has working arrangements with institutions in Singapore, China and Vietnam. Our School of Exercise and Nutrition Science is working closely with institutions and hospitals in Singapore and Vietnam in research and student training. The School of Optometry and Vision Science is the only optometry training facility in Queensland and has an international reputation for excellence in research. Our School of Psychology and Counselling has strong research links with prominent institutions in the United States, UK, Africa and South-East Asia.

If you aspire to make a difference on a bigger scale, QUT's global knowledge base and connections will stand you in good stead.

## Blurring the line between learning and working

Whatever field of health and community studies you take on, you'll have many opportunities to experience the real world of work before you graduate. This experience is designed to set you up for success. Our partnerships with the Queensland Government Department of Health can open doors to exciting clinical and work placements in many fields. And with our help, you can gain practical experience in major hospitals, clinics, community health centres, aged care facilities, correctional facilities, catering institutions and ambulance services. It's the very best in hands-on learning; an unmatched way to develop your industry contacts.

## World-class facilities

At QUT, you don't just learn in lecture theatres. You'll put theory into practice in our state-of-the-art, on-campus QUT Health Clinics. You'll be trained by accredited clinicians using industry standard equipment in exercise and movement science, nutrition and dietetics, optometry, podiatry, psychology and counselling, and wound healing. Every student studying health and community at QUT can gain hands-on experience, and our facilities are second to none. For example, QUT's optometry clinics feature advanced equipment, so many practising optometrists refer their patients here for testing. Our medical radiation students use QUT's advanced 3D Virtual Environment for Radiotherapy Training suite to develop their skills. Our Clinical Simulation Centre includes ambulance simulators, realistic patient simulators and full-size emergency environments which exactly mirror real situations. And our pharmacy students gain real experience in QUT's simulated counselling rooms and fully-equipped pharmacy.

# Course information

## Blue card

As required by the Commission for Children and Young People and Child Guardian Act (2000), students must undergo a criminal history check and be issued with a suitability card (blue card) before commencing field experience/practicum in an organisation where they may work with children or young people. This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program involving children or young people.

See [www.qut.edu.au/bluecard](http://www.qut.edu.au/bluecard)

For some courses with a clinical placement, blue card applications for February entry close on 10 December each year and July entry on 14 May each year.

## Bachelor of Nursing (NS40)

**CRICOS code:** 003501K  
**Indicative fee:** \$13 100 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

## Bachelor of Nursing – graduate entry (NS40)

**CRICOS code:** 003501K  
**Indicative fee:** \$13 100 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 2 years (4 semesters) full time

Become a registered nurse. You will work alongside other health professionals and prepare for professional practice in the Clinical Simulation Centre. Undertake substantial clinical practice in public, private hospitals or community services in Brisbane, regional and rural Queensland or possibly overseas.

The following applicants are normally eligible for 96 credit points (two semesters of study) of advanced standing on admission to the course as follows:

- graduate entry for applicants who have completed a previous degree equivalent to an Australian bachelor degree within the past 10 years
- diploma entry for applicants who have completed a Diploma of Nursing (Enrolled Nurse)
- overseas-qualified registered nurses will normally receive advanced standing equivalent to two semesters of study depending on prior qualifications and recency of experience.

### Professional recognition

Graduates may apply for registration as a nurse with the Nursing and Midwifery Board of Australia. This course is recognised by the Australian College of Nursing (ACN) as satisfying the academic requirements for admission as a professional member.

The Nursing and Midwifery Board of Australia has English language requirements for registration. For details see [www.nursingmidwiferyboard.gov.au](http://www.nursingmidwiferyboard.gov.au)

### Student registration

QUT automatically registers students enrolled in this course with the Nursing and Midwifery Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

## Careers

Registered nurse in:

- Alcohol and drug agencies
- Armed services
- Community health
- Domiciliary nursing services
- Nursing homes
- Public or private hospitals

With further study:

- Cancer nurse
- Community practice nurse
- Emergency nurse
- Intensive care nurse
- Medical/surgical nurse
- Mental health nurse
- Nurse practitioner
- Paediatric nurse

## Additional requirements

The clinical practice units require students to undertake placements of two or more weeks duration which may be scheduled during semester breaks. You will be required to wear a uniform and suitable footwear while on clinical practice. In addition, you will need to complete a course of Hepatitis B vaccinations, hold a senior first aid certificate and a blue card. The approximate cost of meeting these requirements is A\$550.

## English language requirements

Students entering this course on completion of a diploma course undertaken at an Australian institution will be required to submit current IELTS test results which meet QUT's IELTS requirements for this course.

## Example units

- Bioscience 1–3
- Clinical practice 1–5
- Diversity and health: Cultural safety, Indigenous perspectives
- Ethics law and health care
- Interpersonal processes and skills
- Nursing practice in context 1–5
- Pharmacology for health professionals
- Professional studies 1: Introduction to profession of nursing
- Professional studies 2: Research, evidence and nursing practice
- Professional studies 3: Transitioning to RN practice

## Graduate entry program structure

Graduate entry students will undertake a reduced theoretical component but will be required to complete the full clinical practice requirements of the three-year degree program.

## Bachelor of Public Health (PU52)

**CRICOS code:** 077691J  
**Indicative fee:** \$13200 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Develop and deliver health initiatives as a public health professional. You will develop industry contacts through work placements and can choose units from community nutrition, family and gender studies, general studies in psychology, Indigenous health or science studies.

### Professional recognition

Graduates are eligible for membership of the Public Health Association of Australia and the Australian Health Promotion Association.

### Careers

- Consultant
- Community health officer
- Policy officer
- Program evaluator
- Project officer
- Public health officer

With further study

- Environmental health
- Emergency and disaster management
- Health management
- Occupational health and safety

### Additional requirements

Students are required to undertake a course of Hepatitis B vaccinations and obtain a blue card (see page 46) before undertaking the professional practice unit in this course. There are additional costs of approximately A\$160 associated with this course.

### Example units

- Australian health care systems
- Contemporary public health
- Food and nutrition
- Health education and behaviour change
- Health policy, planning and advocacy
- Health promotion practice
- International health
- Introduction to epidemiology
- Professional practice
- Public health practice
- Qualitative inquiry in public health
- Statistical methods in health
- Sustainable environments for health
- Understanding disease concepts

## Bachelor of Health Information Management (PU51)

**CRICOS code:** 077705G  
**Indicative fee:** \$13300 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Provide information management solutions to support health care, planning, public health and medical research. Be responsible for providing accurate information to clinicians, health workers, health service managers and policy makers so they can make informed decisions on future health needs.

Graduates can expect to find employment in a range of environments including hospitals and other health facilities, government health departments, health insurance companies, health research centres, and health computing or software development firms. The course is well suited to students with an interest in health and IT-related studies.

### Professional recognition

Graduates of this course are eligible for full graduate membership of the Health Information Management Association of Australia.

### Careers

- Administrator
- Clinical data manager
- Corporate health officer
- eHealth project officer
- Health data and casemix analyst
- Health information manager
- Health policy officer
- Health privacy officer
- Health services manager
- Public health officer
- Public health program manager
- Risk manager

### Additional requirements

Students will undertake placements in health facilities and are required to complete Hepatitis B immunisation and hold a current blue card.\* Additional costs should be expected.

### Example units

- Advanced clinical classification
- Australian health care systems
- Business analysis
- Corporate systems
- eHealth concepts
- Health information management
- Integrated health information management practice
- Introduction to epidemiology
- Introduction to clinical classification
- Management
- Medical terminology, anatomy and physiology
- Practical clinical classification
- Quality management in health
- Statistical methods in health

\* Students will also require access to a computer with full internet access, web cam, headset and microphone.

## Bachelor of Clinical Exercise Physiology (XN54)

**CRICOS code:** 070085K  
**Indicative fee:** \$13700 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Work as an accredited exercise physiologist with the clinical skills to develop rehabilitation programs and provide advanced injury prevention and exercise programs for patients in hospitals and other clinical settings.

- Access the latest industry equipment in the biomechanics, motor control, exercise physiology and strength conditioning laboratories, and in the QUT Health Clinics.
- Complete more than 500 hours in practical placements in settings such as hospital clinics, rehabilitation centres and in the sports, health and fitness industries.

### Professional recognition

Graduates are eligible for professional membership of Exercise and Sports Science Australia (ESSA) as accredited exercise physiologists.

### Careers

- Allied health professional
- Exercise physiologist
- Exercise program manager
- Exercise therapist
- Private practitioner

### Additional requirements

There are additional costs of approximately A\$450 associated with this course. You will need to purchase a practicum shirt, have a current first aid certificate, a current CPR certificate that includes Automated External Defibrillation and anaphylaxis training and have Hepatitis B immunisation before starting third year and will also require a blue card (see page 46).

### Example units

- Anatomy
- Biomechanics
- Clinical exercise for cardio-respiratory and metabolic disorders
- Clinical exercise for neurological, psychological and musculoskeletal disorders
- Exercise and sport psychology
- Foundation psychology
- Foundations of motor control, learning and development
- Fitness, health and wellness
- Nutrition and physical activity
- Physiology
- Research in human movement
- Resistance training
- Principles of exercise prescription

## Bachelor of Exercise and Movement Science (XN53)

**CRICOS code:** 070083A  
**Indicative fee:** \$13 700 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Work in the exercise, health and sports science industries in roles that promote physical activity, exercise, health and wellbeing.

- Use the latest industry equipment in the biomechanics, exercise physiology and strength-conditioning laboratories and be taught by leaders in the field.
- Complete 140 hours of practical experience in fitness centres, sports associations or other related organisations.

### Professional recognition

Graduates are eligible for membership of Exercise and Sports Science Australia as exercise scientists.

### Careers

- Corporate health
- Exercise and movement science research
- Fitness and training
- Health promotion and wellness
- Strength conditioning and performance consultant

### Additional requirements

There are additional costs of approximately A\$450 associated with this course. You will need to purchase a practicum shirt, have a current first aid certificate, a current CPR certificate that includes Automated External Defibrillation and anaphylaxis training and have Hepatitis B immunisation before starting third year and will also require a blue card (see page 46).

### Example units

- Anatomy
- Biomechanics
- Exercise and sport psychology
- Fitness, health and wellness
- Foundation psychology
- Foundations of motor control, learning and development
- Nutrition and physical activity
- Physiology
- Practicum
- Principles of exercise prescription
- Research in human movement
- Resistance training

## Bachelor of Vision Science (OP45)/ Master of Optometry (OP85)

**CRICOS code:** 065380A/065379E  
**Indicative fee:** \$14 300 per study period (48 credit points) / \$13 600 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time/ 2 years (4 semesters) full time

This combined program comprises a Bachelor of Vision Science (OP45), followed by a Master of Optometry (OP85). You need to complete both degrees to apply for registration as an optometrist. Strict quotas apply. The Master of Optometry (OP85) is not available as a single degree. As an optometrist, you will have the clinical skills to treat patients with vision defects.

- QUT is the only optometry training university in Queensland.
- Practise your clinical skills with supervision from registered optometrists in the optometry clinic, part of the state-of-the-art QUT Health Clinics.

### Professional recognition

Graduates of the dual award program will be eligible to apply for registration with the Optometry Board of Australia.

### Careers

- Contact lens practice
- Low vision
- Optometrist
- Paediatric vision
- Private practice owner or partner
- Vision researcher

### Additional requirements

Students will be required to buy ophthalmic instruments for the Master of Optometry program, at an additional cost of approximately A\$5 400. You must also have a current first aid certificate (A\$150) and a blue card (see page 46) before entering the Master of Optometry.

### Student registration

QUT automatically registers students enrolled in this course with the Optometry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

### Example units

- Assessment of vision 5–6
- Australian health care systems
- Binocular vision
- Biomedical physics
- Cell and molecular biology
- Chemistry for health sciences
- Clinic externship 9–10
- Contact lens practice
- Diseases of the eye 5–6
- Disease processes
- Foundations of anatomy and histology
- Human physiology
- Interpersonal processes and skills
- Microbiology
- Ocular anatomy and physiology 3–4
- Ophthalmic optics 3–4
- Optics 1
- Ocular pharmacology
- Pharmacology for health professionals
- Primary care clinic 7–10
- Research methods in optometry and vision science
- Specialist clinic 8–10
- Therapeutic management of eye disease
- Visual science 3–4

## Bachelor of Nutrition Science (XN43)

**CRICOS code:** 077703K  
**Fee:** \$14 100 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Address nutrition issues and examine innovative ways to promote healthy lifestyle choices and prevent diet-related disease.

- Analyse food supply, government policy and eating behaviours, and study how the science of nutrition, biochemistry and physiology impact on nutrition, diet and chronic disease.
- Complete a practical placement in your final year to gain experience applying nutrition principles in the community.

### Professional recognition

Graduates are eligible to apply for membership of the Public Health Association of Australia, Sports Medicine Australia, the Nutrition Society, and associate membership of the Dietitians Association of Australia.

### Careers

- Community health nutritionist
- Health promotion officer
- Nutrition consultant
- Nutritionist
- Nutrition researcher
- Policy officer
- Public health officer

### Additional requirements

There are additional costs of approximately A\$350 associated with this course. Students are required to undertake a course of Hepatitis B vaccinations, TB screening and obtain a blue card (see page 46) before undertaking the professional practice unit in this course.

### Example units

- Biochemical pathways and metabolism
- Biochemistry
- Chemistry for health sciences
- Clinical practice in community and public health nutrition
- Community and public health nutrition
- Food and nutrition
- Food science
- Human anatomy and physiology
- Medical physiology
- Nutrition across the life cycle
- Nutrition and physical activity
- Nutrition science

## Bachelor of Nutrition and Dietetics (XN44)

**CRICOS code:** 077695E  
**Indicative fee:** \$14 400 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Learn advanced nutrition skills to advise on diet, food preparation and menu planning to treat chronic disease.

- Provide specialised advice to clients with dietary needs through the QUT Health Clinics under supervision from practising dietitians.
- Complete practical placements at community health centres, hospitals, aged care facilities, catering institutions and correctional facilities.

### Professional recognition

As a graduate, you are eligible to apply for the Accredited Practising Dietitian (APD) credential and will be a professional dietitian. You may also apply for membership of the Dietitians Association of Australia, the Public Health Association, Sports Medicine Australia, the Nutrition Society and other bodies.

### Careers

- Community health dietitian
- Consultant
- Dietetics researcher
- Food industry adviser
- Hospital dietitian
- Policy officer
- Private practice dietitian

### Additional requirements

You may incur additional costs such as travel and accommodation for placements off campus. Before taking a placement in Queensland Health or at an educational facility, you will require a course of Hepatitis B vaccinations, TB screening and blue card (see page 46). This will incur costs of approximately A\$350.

### Example units

- Biochemical pathways and metabolism
- Biochemistry
- Chemistry for health sciences
- Clinical practice in food service management
- Clinical practice in individual dietetic case management
- Community and public health nutrition
- Dietetic leadership and management
- Exercise and sports nutrition
- Food and nutrition
- Food science
- Food service management
- Health education and behaviour change
- Human anatomy and physiology
- Medical nutrition therapy 1
- Medical physiology 1
- Nutrition across the lifecycle
- Nutrition and physical activity
- Nutrition science
- Research methods

## Bachelor of Nutrition and Dietetics (Honours)(XN45)

**CRICOS code:** 080482C

**Indicative fee:** \$14 200 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February

**Duration:** 4 years (8 semesters) full time

At the end of the second year of study in the XN44 Bachelor of Nutrition and Dietetics students will have the option to apply for the Bachelor of Nutrition and Dietetics (Honours) course. Entry to the program is competitive based on grade point average (GPA). On entry to the course students will retain all of the credit they have successfully completed in the Bachelor of Nutrition and Dietetics course and will complete a further two years of full time study which will include an honours research project.

## Bachelor of Podiatry (CS44)

**CRICOS code:** 077686F

**Indicative fee:** \$14 100 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February; Graduate entry only: July

**Duration:** 4 years (8 semesters) full time

Become a podiatrist with the skills to diagnose and treat a broad range of conditions that are the result of foot and lower limb problems.

- Gain clinical, surgical, and therapeutic skills to treat patients with conditions such as diabetes, rheumatoid arthritis, sports injuries, or walking difficulties.
- Learn all aspects of podiatric practice and treat patients under the supervision of experienced clinicians at the QUT Podiatry Health Clinics—Podiatry Clinic.

### Professional recognition

This course is accredited by the Australian and New Zealand Podiatry Accreditation Council (ANZPAC).

You will be eligible for registration with the Podiatry Board of Australia and may also become a member of the Australian Podiatry Association and Sports Medicine Australia.

### Careers

- Complete further training as a podiatric surgeon
- Podiatrist in hospitals or private practice
- Specialise in paediatric podiatry, sports podiatry, forensic podiatry, community health research

### Additional requirements

You should expect additional costs of approximately A\$1000 for uniforms and podiatry equipment. You are required to have a current first aid certificate, a current CPR certificate that includes Automated External Defibrillation and anaphylaxis training and have Hepatitis B immunisation before starting third year and will also require a blue card (see page 46).

### Student registration

QUT automatically registers students enrolled in this course with the Podiatry Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

### Example units

- Anatomy
- Biomechanics
- Chemistry for health sciences
- Cell and molecular biology
- Clinical therapeutics for podiatrists
- Disease processes
- Human physiology
- Sports medicine and rehabilitation
- Pharmacology for health professionals
- Pharmacotherapeutics for podiatrists
- Podiatric anaesthesiology and surgery
- Podiatric clinical gait analysis
- Podiatric medicine 1–6
- Professional placement 1-2
- Radiographic image interpretation

## Bachelor of Podiatry (Honours) (CS46)

**CRICOS code:** 080485M

**Indicative fee:** \$14 100 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February

**Duration:** 4 years (8 semesters) full time

At the end of the second year of study in the CS44 Bachelor of Podiatry students will have the option to apply for the Bachelor of Podiatry (Honours) course. Entry to the program is competitive based on grade point average (GPA). On entry to the course students will retain all of the credit they have successfully completed in the Bachelor of Podiatry course and will complete a further two years of full time study which will include an honours research project.

## Bachelor of Behavioural Science (Psychology) (PY45)

**CRICOS code:** 034136C

**Indicative fee:** \$13 100 per study period (48 credit points)

**Campus:** Kelvin Grove

**Semester of entry:** February

**Duration:** 3 years (6 semesters) full time

The first step towards your career as a registered psychologist, this course will teach you skills in practical areas of psychology including counselling, individual differences and assessment, and psychopathology.

To pursue a career as a registered psychologist, you must be registered with the Psychology Board of Australia. Currently, this involves completing an approved fourth year of study in psychology, and a further two years of supervised work experience or two years of approved further study.

### Professional recognition

The Bachelor of Behavioural Science (Psychology) is accredited by the Australian Psychology Accreditation Council (APAC) as providing three-year undergraduate training in psychology.

### Careers

- Counselling
- Education
- Human resources
- Human services
- Market research
- Organisational development
- Policy
- Psychologist, with further study
- Public health

### Example units

- Advanced statistical analysis
- Counselling theory and practice 1
- Developmental psychology
- Forensic psychology and the law
- Individual differences and assessment
- Interpersonal processes and skills
- Interventions for addictive behaviours
- Introduction to family therapy
- Perception and cognition
- Physiological psychology
- Psychological research methods
- Psychology in professional contexts
- Psychopathology
- Research design and data analysis
- Social and organisational psychology

You can also undertake electives across a broad range of study areas.

## Bachelor of Human Services (SW03)

**CRICOS code:** 058285C  
**Indicative fee:** \$12200 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Gain an understanding of the social care, needs and rights of individuals, families and communities and how to support them in a range of professional roles.

- Specialise in child and family services, corrective services, disability services, or services to young people.
- Develop skills in casework and case management and complete two professional placements totalling 550 hours.

### Professional recognition

As a graduate, you may apply for membership of the Australian Community Workers Association.

### Careers

- Aged services worker
- Care coordinator
- Case manager
- Child protection worker
- Community corrections officer
- Community development worker
- Correctional counsellor
- Disability services worker
- Social policy officer
- Welfare worker
- Youth worker

### Additional requirements

You must obtain a blue card before undertaking the professional practice units (see page 46).

### Example units

- Casework and case management
- Community and place-based practice
- Complexity in social work and human services practice
- Human development and behaviour
- Human services practice placement (1–2)
- Introduction to human rights and ethics
- Legal and ethical dimensions of social work and human services
- Orientation to social work and human services
- People, community and disability
- Transition to practice
- Understanding families and relationships
- Working in human services organisations
- Working with Aboriginal and Torres Strait Islander peoples and communities

## Bachelor of Social Work (SW04)

**CRICOS code:** 063034B  
**Indicative fee:** \$12200 per study period (48 credit points)  
**Campus:** Kelvin Grove  
**Semester of entry:** February and July  
**Duration:** 4 years (8 semesters) full time

Learn to critically analyse human society and develop processes for helping people from a range of backgrounds. You can choose to specialise in child protection, international practice or research.

- You will complete 1000 hours of professional practice in public hospitals, youth agencies, child and youth mental health services, or child safety areas.

### Professional recognition

You may apply for membership of the Australian Association of Social Workers (AASW).

### Careers

- Child protection
- Corrections
- Counselling
- Family support
- Hospital, mental health and disability social work
- Income support
- International aid and development
- Internationally recognised social worker
- Juvenile justice
- Social policy
- Youth services

### Additional requirements

You must obtain a blue card before undertaking the professional practice units (see page 46).

### Example units

- Casework and case management
- Community and place-based practice
- Complexity in social work and human services practice
- Health, wellbeing and social work
- Human development and behaviour
- Introduction to human rights and ethics
- Legal and ethical dimensions of social work and human services
- Linking social work theory and practice
- Macro context of social work practice
- Mental health and social work
- Orientation to social work and human services
- People, community and disability
- Practice theories
- Professional practice processes and assessment
- Understanding families and relationships
- Working in human service organisations

## Bachelor of Pharmacy (CS45)

**CRICOS code:** 055902G  
**Indicative fee:** \$13900 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Prepare for a career as a pharmacist, dispensing medications and counselling patients on their appropriate use. Gain practical experience in prescription processing, product labelling, and the therapeutic use of over-the-counter medications in QUT's pharmacy counselling room and compounding laboratory.

- Benefit from small class sizes, modern facilities, and clinical placements in community or hospital pharmacy environments.

### Professional recognition

This course is accredited by the Australian Pharmacy Council.

You will require approximately 12 months of pre-registration training supervised by a registered pharmacist to meet the registration requirements of the Pharmacy Board of Australia.

Further IELTS requirements may apply. Refer to [www.pharmacyboard.gov.au](http://www.pharmacyboard.gov.au) for more information.

Graduates will be eligible for membership of a number of professional associations including the Pharmaceutical Society of Australia (PSA), the Pharmacy Guild, and the Society of Hospital Pharmacists of Australia (SHPA).

### Careers

Pharmacist, working in:

- Community pharmacies
- Drug regulatory and research roles in the Pharmaceutical industry
- Hospitals

### English entry requirements

IELTS of 7.0 with no sub-score less than 6.5.

### Additional requirements

You should expect additional costs of approximately A\$400 for laboratory uniforms and Hepatitis B vaccination.

### Student registration

QUT automatically registers students enrolled in this course with the Pharmacy Board of Australia in accordance with the Health Practitioner Regulation National Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

### Example units

- Biochemistry
- Cell and molecular biology
- Chemistry for health sciences
- Foundations of clinical practice
- Introduction to pharmacy practice
- Molecular basis of therapeutics
- Human physiology

\* This course structure is under review

## Bachelor of Biomedical Science (LS40)

**CRICOS code:** 052768K  
**Indicative fee:** \$14800 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

Work in a diverse range of fields related to human health and disease. You can choose a major from the five key biomedical scientific disciplines including anatomical sciences, cell and molecular biotechnology, human biochemistry, human physiology and infectious diseases. By choosing additional units from these areas you can design your course to meet your needs.

Students are given the opportunity to gain real-world experience through work integrated learning and clinical or industry placements.

### Professional recognition

Depending on the major selected graduates will be eligible for membership into one or more professional organisations including Australian Society for Medical Research, Australian Association of Clinical Biochemists, Australian Society for Biochemistry and Molecular Biology, Australian Society for Microbiology, Australian and New Zealand Society for Cell and Developmental Biology.

### Careers

- Biomedical research
- Clinical science
- Foundation for postgraduate medical schools entry exams (GAMSAT)
- Pathway to research honours
- Scientific laboratory fields

### Additional requirements

You should expect additional costs of approximately A\$350 for laboratory coats and manuals.

### Example units

- Anatomical imaging
- Biochemistry
- Biomedical physics
- Biomedical skills 1–2
- Biomedical work integrated learning
- Cancer biology
- Cell and molecular biology
- Clinical physiology professional internship
- Forensic anatomy
- Human systematic anatomy
- Medical biotechnology
- Medical physiology 1–2
- Molecular systems biology
- Neuroscience
- Pathogen biology and pathogenesis

## Bachelor of Medical Imaging (CS42)

**CRICOS code:** 080490C  
**Indicative fee:** \$13100 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

Gain advanced knowledge of current diagnostic techniques and experience in QUT's X-ray laboratories. As part of your course you will complete clinical work placements in hospitals and private practice. In your final year, you will complete the equivalent of one year of supervised clinical practice, which is required for professional accreditation.

### Professional recognition

Course accreditation is being sought 2014-15 with the Medical Radiation Practice Board of Australia.

### Careers

- Radiographer
- Medical equipment sales
- Medical imaging technologist

### English entry requirements

IELTS of 7.0 with no sub-score less than 6.5.

### Additional requirements

You must be vaccinated for Hepatitis B, have cardiopulmonary resuscitation (CPR) certification and obtain a blue card before undertaking the clinical placement components in this course (see page 46). There will be additional study costs of approximately A\$400 to cover these requirements.

### Example units

- Advanced imaging practice 1–2
- Clinical radiography 1–5
- Complementary imaging techniques
- Computed tomography imaging
- Evidence-based clinical practice
- General radiography 1–2
- Human anatomy and physiology
- Magnetic resonance imaging
- Radiation safety and biology
- Radiographic practice
- Regional and sectional anatomy for medical imaging
- Systematic imaging pathology

### Student registration

QUT automatically registers students enrolled in this course with the Medical Radiation Practice Board of Australia in accordance with the Health Practitioner Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

## Bachelor of Medical Imaging (Honours)(CS48)

**CRICOS code:** 080484A  
**Indicative fee:** \$12600 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 4 years (8 semesters) full time

At the end of the second year of study in the CS42 Bachelor of Medical Imaging students will have the option to apply for the Bachelor of Medical Imaging (Honours) course. Entry to the program is competitive based on grade point average (GPA). On entry to the course students will retain all of the credit they have successfully completed in the Bachelor of Medical Imaging course and will complete a further two years of full time study which will include an honours research project.

## Bachelor of Radiation Therapy (CS41)

**CRICOS code:** 073449G  
**Indicative fee:** \$12800 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February  
**Duration:** 3 years (6 semesters) full time

You can treat cancer patients and administer prescribed radiation doses as a radiation therapist. This course will provide you with advanced skills using equipment and techniques similar to those used in industry. You will complete clinical placement in oncology departments, QUT is the only university in Queensland offering undergraduate qualifications in radiation therapy.

### Careers

- Radiation therapist treating cancer patients

### Professional recognition

Course accreditation is being sought 2014-15 with the Medical Radiation Practice Board of Australia.

### English entry requirements

IELTS of 7.0 with no sub-score less than 6.5.

### Additional entry requirements

You must be vaccinated for Hepatitis B, have cardiopulmonary resuscitation (CPR) certification and obtain a blue card before undertaking the clinical placement components in this course (see page 46). There will be additional study costs of approximately A\$400 to cover these requirements.

### Example units

- Advanced treatment planning topics
- Applied medical imaging
- Clinical radiotherapy 1–4
- Human anatomy and physiology
- Radiation physics
- Radiation safety and biology
- Radiation therapy 1–4
- Regional and sectional anatomy for radiation therapy
- Specialised radiotherapy technique
- Treatment planning 1–4

### Student registration

QUT automatically registers students enrolled in this course with the Medical Radiation Practice Board in accordance with the Health Practitioner Law Act 2009. Details about student registration are available from the Australian Health Practitioner Regulation Agency at [www.ahpra.gov.au](http://www.ahpra.gov.au)

## Bachelor of Medical Laboratory Science (LS47)

**CRICOS code:** 076173F

**Indicative fee:** \$14800 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February and July\*

**Duration:** 4 years (8 semesters) full time

Gain employment in the pathology industry as a medical laboratory scientist. This course provides a foundation for a career in biomedical and clinical research.

During your studies you will undertake a work integrated learning internship where you will interact directly with and be mentored by practising medical scientists or clinical researchers.

### Professional recognition

As a graduate, you will be eligible for membership with the Australian Institute of Medical Scientists, and will have completed the academic and work placement requirements for admission as a full member.

Depending on your clinical discipline(s) of employment, you will be eligible to apply for membership of various professional organisations including:

- The Australasian Association of Clinical Biochemists,
- Australian Society of Microbiology,
- Australian Society of Cytology,
- Human Genetics Society of Australasia,
- Haematology Society of Australia and New Zealand,
- Australian and New Zealand Society of Blood Transfusion,
- Australian Society of Thrombosis and Haemostasis.

### Careers

- Biochemist
- Clinical laboratory scientist
- Medical scientist
- Microbiologist
- Pathology scientist
- Operations manager

### Additional requirements

Students are required to undertake work experience in a practising pathology laboratory. You must provide proof of successful vaccination against Hepatitis B before undertaking this placement.

You may need to obtain a blue card before undertaking the clinical placement components in this course (see page 46). There will be additional study costs of approximately \$350 to cover these requirements.

### Example units

- Applied clinical haematology
- Biochemistry
- Chemical pathology
- Chemical structure and reactivity
- Diagnostic endocrinology
- Foundations of anatomy and histology
- Histopathology
- Human physiology
- Mathematics and statistics for medical sciences
- Microbial diagnostics
- Pathology
- Principles of immunology
- Quality and analysis in clinical pathology
- Transfusion and transplantation science
- Work integrated learning internship 1–2

\* July intake may be available to students who receive advanced standing

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
060816G	IX51	Bachelor of Behavioural Science (Psychology)/Bachelor of Business	Gardens Point + Kelvin Grove	4 years	February	\$13200
076302B	IX76	Bachelor of Behavioural Science (Psychology)/ Bachelor of Justice	Gardens Point + Kelvin Grove	4 years	February	\$12700
083021G	IX82	Bachelor of Behavioural Science (Psychology)/Bachelor of Laws (Honours)	Gardens Point + Kelvin Grove	5.5 years	February	\$12800
065387E	HL20	Bachelor of Behavioural Science (Psychology)/Bachelor of Social Work	Kelvin Grove	4.5 years	February	\$12600
085232C	IX88	Bachelor of Biomedical Science/Bachelor of Laws (Honours)	Gardens Point	5.5 years	February	\$13700
085233B	IX92	Bachelor of Biomedical Science/Bachelor of Business	Gardens Point	4 years	February	\$14100
070079G	HL24	Bachelor of Exercise and Movement Science/Bachelor of Behavioural Science (Psychology)	Kelvin Grove	4 years	February	\$13700
070078J	IX17	Bachelor of Exercise and Movement Science/Bachelor of Business	Gardens Point + Kelvin Grove	4 years	February	\$13900
058291E	IX43	Bachelor of Creative Industries/Bachelor of Human Services	Kelvin Grove	4 years	February	\$12600
058290F	IX45	Bachelor of Human Services/Bachelor of Justice	Gardens Point + Kelvin Grove	4 years	February	\$12300
077689C	IX75	Bachelor of Media and Communication/Bachelor of Public Health	Kelvin Grove	4 years	February	\$12800
065615J	HL47	Bachelor of Nursing/Bachelor of Behavioural Science (Psychology)	Kelvin Grove	4 years	February	\$11900
077687E	HL26	Bachelor of Nursing/Bachelor of Public Health	Kelvin Grove	4 years	February	\$11800
077702M	IX70	Bachelor of Media and Communication/Bachelor of Nutrition Science	Kelvin Grove	4 years	February	\$13600

Double degrees require an enrolment of more than the standard credit point load in some semesters.

## My story

### Daisy Barham

Nutrition science student

The beauty of studying at QUT is the diversity of electives on offer. I was able to study things that were particularly relevant to me, like government policy and sustainability. While at QUT I also participated in an eight-week placement with Queensland Health which was great; I worked with a local primary school to teach the kids about healthy foods and foods to avoid. My degree in nutrition has given me a really solid platform to share my skills with the rest of the world. I think that's pretty exciting.

To hear more of Daisy's story visit the Health playlist at [www.youtube.com/TheQUTube](http://www.youtube.com/TheQUTube)

# Information Technology

**Don't just adapt to change.  
Create change.**

There's no faster-moving industry than information technology. The speed of change is staggering. QUT houses Queensland's largest IT school and keeps ahead of the game with strong industry relationships. Study IT at QUT and you can gain up-to-the-minute industry experience throughout your course, with opportunities for paid work experience with leading players in IT and interactive entertainment. There's no better way to get up to speed and carve out a career path that lets you do what you want to achieve. We also have deep and ongoing relationships with the world leaders in networking and enterprise software, so you can be sure you're learning the latest, from the very best. And our \$230 million Science and Engineering Centre brings together technology, science, engineering and mathematics in a unique collaborative environment that can take your thinking further. Imagine the opportunities a QUT degree in IT could create for you.

- ▶ Computer science
- ▶ Information technology
- ▶ Games and interactive entertainment
- ▶ Health information management
- ▶ Information systems

## My story

**Shainiel Deo**

Information technology graduate

Shainiel, along with Phil Larsen and Luke Muscat, are the team behind the Fruit Ninja international success story, which has become one of the most popular gaming brands in the world.

Halfbrick Studios, the company Shainiel founded, has been rated among the top game developers globally in the notable pocketgamer.biz list.

# Opening digital doorways worldwide

## Mix it with the biggest and best

Imagine having the chance to rub shoulders with some of the most influential tech organisations in the world as part of your degree. QUT offers you just that. SAP is the technology leader in business management software and solutions, and QUT is the SAP University Competency Centre (UCC) for Asia Pacific Japan. This partnership gives you direct access to the latest products and knowledge from SAP and their partners. We are also a global partner in the Cisco Networking Academy program, which teaches students how to design, build and maintain computer networks. Cisco Systems is the worldwide leader in networking for the internet. We also maintain strong links with global companies such as Microsoft, Oracle and Infosys.

In gaming and interactive entertainment, Brisbane is a significant global player. Study at QUT and you can benefit from the energy and success of the local industry. Brisbane is a hub of gaming talent, producing games like Hellboy, Fruit Ninja, Jetpack Joyride, and Star Wars: The Force Unleashed. Recently, QUT graduates turned their company Halfbrick Studios into a multimillion dollar success story. Their video game Fruit Ninja is one of the most successful mobile games of all time.

## Leading thinking

QUT's IT research is another measure of the excellence of the school as a whole. Our research productivity is ranked higher than any other university in Australia, and was ranked higher than European universities between 2008 and 2010, by the world's top six information systems journals. We have also produced more award-winning doctorate students in the field than any other Australian university. Our research includes leading-edge study into robotics and computer vision, computational modelling and simulation science, business process management, games technology and information security.

## Do what inspires you

QUT's flexible degrees let you build a qualification that supports your interests and aspirations. They also let you shape a program of study that best meets the demands of employers who seek graduates with multiple skills and practical smarts. At QUT, you're not locked into a single path of study, and you can add or change programs as your interests change. A QUT degree could position you for a range of technical and consulting careers in areas which are looking to hire good people in many places around the world. QUT graduates are in great demand from organisations in the digital sectors of aviation, mining, engineering, finance, creative industries, networking and communications.

# Course information

## Bachelor of Games and Interactive Entertainment (IT04)\*

**CRICOS code:** 059710E

**Indicative fee:** \$14,000 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February

**Duration:** 3 years (6 semesters) full time

Build a strong foundation in both entertainment technology and creative skills, complemented with options in games programming, graphics programming and game artificial intelligence.

- Choose a second IT discipline or a minor in animation, digital media, entrepreneurship, game design, mobile and network technologies, software technologies or sound design.
- Complete a major group project in your third year, producing a significant piece of digital work using PC, mobile devices, consoles or virtual reality.

### Professional recognition

The software technologies major within this course is accredited by the Australian Computer Society (ACS). ACS accreditation is internationally recognised by the Seoul Accord. [www.seoulaccord.com](http://www.seoulaccord.com)

### Careers

- Animator
- Computer games developer
- Multimedia designer
- Simulation developer
- Software engineer
- Web designer

### Majors and unit examples

#### Animation

- Animation and motion graphics
- Real-time 3D computer graphics
- Virtual environments

#### Game Design

- Advanced game design
- Concept development for game design and interactive media
- Design for interactive media

#### Software Technologies

- Data structures and algorithms
- Modelling and animation techniques
- Programming
- Real time rendering techniques

\* This course is under review.

## Bachelor of Information Technology (IN01)

**CRICOS code:** 012656E

**Indicative fee:** \$14,000 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February and July

**Duration:** 3 years (6 semesters) full time

Build and apply innovative IT solutions across diverse industries, as well as entrepreneurship skills to teach you how to commercialise your ideas. During your third year you will have the opportunity to gain valuable experience through an industry work placement.

### Professional recognition

Graduates are eligible for membership of the Australian Computer Society (ACS).

### Careers

- Computer scientist
- Electronic commerce developer
- Network administrator
- Systems analyst
- Web designer
- Database administrator

#### CORE UNITS

- Impact of IT
  - Computer technology fundamentals
  - Designing for IT
  - Build IT systems
- And two additional core units

#### MAJOR

Information systems  
**OR**  
Computer science  
(10 units)

#### SECOND MAJOR

**Choice of**  
Technology innovation and design  
**OR**  
Computational and simulation science  
(8 units)

#### OR

#### CHOICE OF 2 MINORS

(each minor consists of 4 units):

- Business Process Management
- Computational and Simulation Science
- Computer Science
- Data-centric Computing
- Enterprise Systems
- Human-Computer Interaction (HCI)
- Information System
- Intelligent Systems
- Mobile Application
- Networks and Security
- Programming
- Social Technology
- Software Development
- Technology Innovation
- University Wide Minor

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
084923F	SE60	Bachelor of Engineering (Honours)/Bachelor of Information Technology	Gardens Point	5 years	February	\$14500
063024D	IX63	Bachelor of Games and Interactive Entertainment/Bachelor of Business	Gardens Point	4 years	February	\$13400
063031E	IX64	Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics	Gardens Point	4 years	February	\$14100

080489G	SE50	Bachelor of Science/Bachelor of Information Technology	Gardens Point	4 years	February	\$16300

Double degrees require an enrolment of more than the standard credit point load in some semesters.

# Law and justice

- ▶ Justice
- ▶ Law
- ▶ Legal practice

## Before you practise, do it for real

In developing QUT's law and justice programs, we've created an experience which closely reflects what goes on in industry. So you can step into the world of work with real confidence. You'll learn from highly respected lecturers who maintain strong links with industry. Many are leading players in legal practice, so their knowledge of current justice and legal developments is totally relevant and up to the minute. Our course content has been designed in close consultation with the brightest minds in the industry. Realistic courtroom and legal proceedings form a key part of your studies. Industry placements can prepare you for the challenges of the legal and justice systems. Graduating with the skills to work in complex environments means you can confidently pursue the things you believe in.

## My story

Lana Lopes Da Silva

Justice student

I'm very interested in law and want to get a deeper understanding of the causes of crime and the processes. Law and justice is a very important part of society and I like to specialize in the area of human rights where I can help disadvantaged communities. All of the law subjects are really fascinating and it provides me with a good foundation and knowledge to start my law career. QUT is a highly regarded university and they offer a range of opportunities to prepare me for my future.

# The courtroom is your classroom

## Setting precedents

We're Australia's largest law school and one of the most respected. Employers in all areas of law and justice actively seek QUT graduates for their practical skills and ability to quickly become effective and successful practitioners.

Law research at QUT is rated 'above world standard' by the Australian Government's Excellence in Research for Australia (ERA) initiative. We are the only university in the Asia-Pacific region to offer a Master of Laws in Intellectual Property with the support of the World Intellectual Property Organization (WIPO) and IP Australia. And QUT is the only university in Brisbane to deliver the practical legal training required for admission as a lawyer. The QUT Crime Club offers students a unique experience. It's an innovative crime-solving activity that provides a real-world training experience for law and justice students.

Our teaching staff consistently win awards for excellence. QUT law lecturers, Associate Professor Rachael Field and Mr James Duffy, won the Australasian Law Teachers Association award for innovation in 2013, as did Professor Des Butler in 2014.

## Specialise wherever your interest lies

QUT staff have a wealth of knowledge in all aspects of law and justice. We're committed to helping you pursue your passions—whether you want to strive for fairness and equity, or are fascinated by the forces at work behind criminal behaviours. At QUT, you can specialise in criminal justice, organised crime and corruption, or youth crime. You can study commercial or property law, international law, or intellectual property and communications law. You can investigate criminology, intelligence, or the complex world of terrorism and security. You can pursue your passion for human rights or indigenous justice—and much more.

## Realistic experience

Entering a legal hearing or courtroom for the first time can be daunting for some. QUT's real-world facilities, however, help make the transition from study to the high-pressure environment of an active case easier. Mock trials teach you the art of courtroom procedure and debate. You can apply theory in a courtroom setting and be coached by experienced lawyers and judges. And the newly refurbished QUT Moot Court features high definition display screens and the latest in AV and computer equipment. A realistic setting for learning advocacy and courtroom procedure.

## A research leader

QUT is recognised for our focus on advancing the law and justice professions, as well as our specialised academic expertise and research. Our law research is rated 'above world standard' by the Australian Government's Excellence in Research for Australia (ERA) initiative. We're leaders in commercial and property law, crime and justice, health law, intellectual property and innovation law, international law and global governance, and environment and natural resources law.

# Course information

## Bachelor of Laws (Honours) (LW36)

**CRICOS code:** 083020J  
**Indicative fee:** \$11 000 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February and July  
**Duration:** 4 years (8 semesters) full time

Learn theoretical and practical knowledge in the key areas of law and develop your skills in legal research, problem solving, and oral and written communication.

## Bachelor of Laws (Honours) (Graduate Entry) (LW37)

**CRICOS code:** 083020J  
**Indicative fee:** \$11 000 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Learn theoretical and practical knowledge in the key areas of law and develop your skills in legal research, problem solving, and oral and written communication.

The graduate entry program is open to graduates of non-law degrees and recognises the prior learning and experiences that have been acquired. Applicants must have completed a three-year bachelor's degree from an approved university. Students who are admitted to the graduate entry course automatically receive one year of advanced standing, which allows you to complete the degree in three years full time. No further acceleration is possible.

### Careers

- Barrister
- In-house lawyer
- Lawyer
- Mediator
- Policy officer
- Solicitor
- Specialist solicitor

### Example units

- Administrative law
- Civil procedure
- Commercial remedies
- Constitutional law
- Contracts
- Corporate law

- Criminal law
- Evidence
- Dispute resolution
- Equity and trusts
- Property law
- Torts

## Bachelor of Justice (JS32)

**CRICOS code:** 006117E  
**Indicative fee:** \$12 300 per study period (48 credit points)  
**Campus:** Gardens Point  
**Semester of entry:** February and July  
**Duration:** 3 years (6 semesters) full time

Prepare for a career as a justice professional in areas such as criminology, policing, intelligence, sociology, law, psychology and ethics, policy and governance.

Graduates will be able to think and act ethically with a social justice orientation.

### Careers

- Advocate
- Defence services
- Criminologist
- Customs
- Policy officer
- Private security

### Example units

- Crime in popular culture
- Cyber crime and online fraud
- Death investigation
- Forensic psychology and the law
- Introduction to criminology and policing
- Official corruption
- Policy, governance and justice
- White collar crime

## Graduate Diploma in Legal Practice (LP41)

**CRICOS code:** 009034F  
**Indicative fee:** \$23 450 (indicative) full course fee based on 7 units\*  
**Campus:** Gardens Point  
**Semester of entry:** January and June  
**Duration:** 24 weeks full time

The Graduate Diploma in Legal Practice provides you with the practical legal training (PLT), knowledge, understanding, skills, values and attitudes that you need to fulfil the PLT requirements for admission to the legal profession. Admitted legal practitioners can practise law as entry level lawyers in private firms, government, community legal services or as an in-house legal officer. The program offers problem-solving scenarios and reflects the daily realities of a modern legal practice, with a four-week work placement in a law firm or government department.

### Professional recognition

The course satisfies the practical training requirements for admission to the legal profession in Queensland.

### Entry requirements

A completed bachelor degree, higher award or equivalent study in law, which is approved or admission to the Australian legal profession. Students who have overseas degrees will need to have their degree assessed by the Queensland Legal Practitioners Admission Board. They will assess if the degree holder is required to complete any additional undergraduate units prior to admission to this course. This letter should be submitted with your QUT application.

\* subject to annual review

## World class teachers

### Adjunct Professor John Kelly

Recognised as a leading energy and natural resources lawyer by Chambers Global for five consecutive years and Best Lawyers' 2013 Brisbane Mining Lawyer of the Year, John leads a team of high-quality academics and practising lawyers who designed and teach QUT's real-world mining and resources law subject. QUT's law students learn what is expected for success in the real world of mining and resources law, and benefit from John's substantial knowledge, skills, experience and connections.

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
085232C	IX88	Bachelor of Biomedical Science/Bachelor of Laws (Honours)	Gardens Point	5.5 years	February	\$13700
083027B	LW44	Bachelor of Justice/Bachelor of Laws (Honours)	Gardens Point	5.5 years	February	\$12400
083022G	IX81	Bachelor of Laws (Honours)/Bachelor of Business	Gardens Point	5.5 years	February	\$12900

058290F	IX45	Bachelor of Justice/Bachelor of Human Services	Gardens Point + Kelvin Grove	4 years	February	\$12300

Double degrees require an enrolment of more than the standard credit point load in some semesters.

## My story

Hannah Gassman

Business and law graduate

The double degree not only gave me greater career options at the end of my course, it also assisted me in obtaining my graduate position. I was able to show potential employers that I understood both the business and legal sides of the profession.

Now that I'm working as a solicitor and advising clients, I feel my business degree has helped me to consider not only the legal issues, but also the business ramifications legal issues can have, and how these can best be managed.

# Science and mathematics

## Your launch-pad to greater things.

With the opening of our extraordinary \$230 million Science and Engineering Centre, QUT has become a beacon for those wanting to study science and mathematics in the most inspiring environment in the southern hemisphere. At QUT, old ways of thinking are out. Study science or mathematics here and be challenged and inspired every day. At QUT, we're breaking down the boundaries between disciplines, so you'll experience truly collaborative learning. You'll have access to the most advanced technology, and be exposed to more of the people at QUT who can open your mind to greater career possibilities. At QUT, theory and practice go hand in hand, so you'll find yourself becoming just as skilled in the field and in the lab as you will be when you're working at your desk. Science and mathematics need adventurous thinkers. QUT is the place for you to become exactly that. QUT mathematics graduate, Brody Foy, is living proof. He has become Queensland's 2014 Rhodes Scholar, allowing him to take a PhD at Oxford University in Mathematics, modelling the spread of lung cancer.

## My story

### David Wearing

Information technology graduate

I chose QUT based on reputation. The infrastructure and the lab facilities were great. I also received a bursary that assisted in purchasing textbooks that I would have been otherwise unable to afford. I'm now with Google and get to enjoy lots of travel. In my role I'm a wearer of many hats—programmer, project manager, network engineer, systems administrator, security engineer and travelling resource. Google has, hands down, the best company culture with constant learning opportunities.

# Top answers in science and mathematics

## The very best teachers

Many of our science and engineering staff are among the most respected in Australia, and are highly rated by their professional peers in the Australian Learning and Teaching Council (ALTC). QUT lecturers have received no less than 10 ALTC awards since 2006. These awards acknowledge their achievements in teaching excellence, and their outstanding contribution to student learning and programs that enhance learning.

## Putting your knowledge to work

At QUT, we have a real focus on the practical application of knowledge. Study here, and you'll have an almost unlimited number of opportunities to experience science and mathematics as they are applied in the wider world. You'll gain industry experience through expert guest lectures, site visits and work experience. You'll be encouraged to develop the critical thinking skills you'll need to tackle real-world problems, and graduate ready for industry.

Field work will form a large part of your studies. You might inspect active volcanoes, visit some of the oldest rocks in Australia, or study the Great Barrier Reef first hand. Field experiences range from day trips to Queensland's Sunshine Coast and North Stradbroke Island to week-long trips to the Flinders Ranges in South Australia, the Whitsunday Islands in northern Queensland, or the north island of New Zealand.

## Collaboration is the key

At QUT, we have many rich and rewarding partnerships with leading industry and government organisations, giving students the opportunity to learn from and collaborate with people at the forefront of industry practice. These partnerships include Bechtel, Brisbane Airport Corporation, the Royal Australian Chemical Institute, Schlumberger, Woolworths, and Australia's national science agency, the Commonwealth Scientific and Industrial Research Organisation (CSIRO).

## Leading thinking

QUT takes research very seriously. Our research students work alongside world-class experts in some of Australia's key cooperative research centres and institutions. We also ensure the latest research methods and findings are integrated into all our courses, so you'll not only have the opportunity to develop effective investigative skills, you can also be sure that your course material is up to date and completely relevant. Our science and mathematics research currently encompasses these vital areas:

- Aviation and airports
- Biogeoscience
- Biosecurity
- Biotechnology
- Chemistry
- Conservation
- Energy
- Food security
- Mathematical sciences
- Molecular medicine
- Physics
- Plant and animal genetics.

## Bachelor of Science (ST01)

**CRICOS code:** 077696D

**Indicative fee:** \$15900 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February and July

**Duration:** 3 years (6 semesters) full time

Explore real-world problems from multiple scientific perspectives and learn the tools of the trade. You may find yourself out in the field, working in the laboratory or learning about the impact of scientific discovery on people, policy, industry and the planet. Your major will provide you with in-depth knowledge and expertise in a scientific discipline, and you can choose a second major or complementary study options.

### Careers

- Biological product management
- Environmental scientist
- Laboratory technician
- Mine geologist
- Policy development

### Professional recognition

#### Biological Sciences

Professional recognition can be achieved through membership of an appropriate scientific society, such as the Australian Society for Biochemistry and Molecular Biology, the Ecological Society of Australia, the Australian Society of Horticultural Science and others.

#### Chemistry

Graduates completing the chemistry major are eligible for membership of the Royal Australian Chemical Institute.

#### Earth Sciences

Graduates are eligible for membership in a number of professional societies, such as the Geological Society of Australia, Australian Institute of Geologists and other overseas professional societies.

#### Environmental Science

Graduates are eligible for membership of the Environment Institute of Australia and New Zealand and a variety of other scientific societies, including the Soil Science Society of Australia and the Ecological Society of Australia.

#### Physics

Graduates are eligible for membership of the Australian Institute of Physics.

### CORE UNITS

- Grand Challenges in Science
  - Quantitative Methods in Science
  - Experimental Science 1
  - Experimental Science 2
- Plus 2 core units

### MAJORS

(choice of one major):

- Biological sciences
- Chemistry
- Earth science
- Environmental science
- Physics

### SECOND MAJOR

- Biological sciences
- Chemistry
- Computational and Simulation Science
- Earth science
- Environmental science
- Human Biomolecular sciences
- Innovation and Entrepreneurship
- Policy and Governance
- Physics
- Science Communication
- Sustainable Environment for Health

### OR

#### CHOICE OF 2 MINORS

- Analytical Chemistry
- Applied Ecology
- Astrophysics
- Biological Sciences
- Cell and Molecular Biotechnology
- Chemistry
- Computational & Simulation Science
- Earth Science
- Environmental Science
- Environmental Systems
- Forensic Science
- Biotechnology and Genetics
- Geology
- Human Health and Disease
- Industrial Chemistry
- Innovation & Entrepreneurship
- Materials
- Medicinal Chemistry and Biology
- Physics
- Science Communication
- Spatial Science
- Sustainable Environments for Health
- Wildlife Biology
- University Wide Minors

## Bachelor of Mathematics (MS01)

**CRICOS code:** 049433D

**Indicative fee:** \$15600 per study period (48 credit points)

**Campus:** Gardens Point

**Semester of entry:** February

**Duration:** 3 years (6 semesters) full time

Solve real-world problems and prepare for your future career by combining underlying theory with modelling, computational skills and the latest computer technology. QUT's Mathematical Sciences School is a leader in delivering world-class teaching and research outcomes with advanced, relevant and modern courses designed for the real world.

### Professional recognition

Upon graduation you may be eligible for membership in the Australian Mathematical Society (AMS) and ANZIAM (Australia and New Zealand Industrial and Applied Mathematics, a division of AMS).

### Careers

- Computer game programmer
- Market research manager
- Mathematician
- Quantitative analyst
- Statistician

### Applied and computational mathematics

- Applied transport theory
- Partial differential equations
- Dynamical systems
- Computational fluid dynamics

### Decision science

- Operations research
- Financial mathematics
- Financial data analysis and forecasting

### Statistical science

- Modelling Dependent Data
- Probability and Stochastic Modelling 2
- Statistical Inference
- Statistical Techniques

## Double degrees

CRICOS code	Course code	Course title	Campus	Duration (full time)	Semester of entry	Indicative fees per study period (48 credit points)
084922G	SE40	Bachelor of Engineering (Honours)/Bachelor of Mathematics	Gardens Point	5 years	February	\$14500
063031E	IX64	Bachelor of Games and Interactive Entertainment/Bachelor of Mathematics	Gardens Point	4 years	February	\$14 100
059226F	SE30	Bachelor of Information Technology/Bachelor of Mathematics	Gardens Point	4 years	February	\$14500
059601K	IX30	Bachelor of Mathematics/Bachelor of Business	Gardens Point	4 years	February	\$14 100
078353G	SE20	Bachelor of Science/Bachelor of Mathematics	Gardens Point	4 years	February	\$15900
083029M	IX80	Bachelor of Science/Bachelor of Laws (Honours)	Gardens Point	5.5 years	February	\$13700
080489G	SE50	Bachelor of Science/Bachelor of Information Technology	Gardens Point	4 years	February	\$16300
084924E	SE80	Bachelor of Engineering (Honours)/Bachelor of Science	Gardens Point	5 years	February	\$17 100

Double degrees require an enrolment of more than the standard credit point load in some semesters.

# How to apply

If you're applying for entry to an honours, graduate certificate, graduate diploma or masters by coursework program, you can follow these steps. You can also view the entire application process online at [www.qut.edu.au/international/applying](http://www.qut.edu.au/international/applying)

## 1 Choose a course

Visit [www.qut.edu.au/international/find-a-course](http://www.qut.edu.au/international/find-a-course) to view courses.

## 2 Confirm the closing dates

Some courses have early closing dates. Check the key dates for postgraduate coursework applications at [www.qut.edu.au/apply](http://www.qut.edu.au/apply). We encourage you to apply well before the closing date as places can fill quickly and applications may be considered up to one year in advance of entry.

## 3 Check the entry requirements

Some courses require you to have completed a specific undergraduate degree, others may accept studies from a relevant area, and you may also be required to have work experience in the field. If you have overseas qualifications these will be assessed with your application. For more information about entry requirements see [www.qut.edu.au/international/applying/step-3-check-you-meet-the-entry-requirements](http://www.qut.edu.au/international/applying/step-3-check-you-meet-the-entry-requirements)

## 4 Check the course fees and possible financial support

## 5 Find out about credit for prior learning

You may be eligible for credit for prior learning (which we call 'advanced standing') if you have undertaken previous postgraduate study or have relevant work experience.

Please indicate on your application form that you wish to be considered for credit and include your course information (syllabus or unit outlines) with your application for individual assessment. Find out more at [www.advancedstanding.qut.edu.au](http://www.advancedstanding.qut.edu.au)

## 6 Collect your supporting documentation

You may need to provide details of previous study or employment and supporting documents (originals or certified copies).

Find out more at [www.qut.edu.au/international/applying/step-6-gather-supporting-documents](http://www.qut.edu.au/international/applying/step-6-gather-supporting-documents)

## 7 Submit your application

Apply using the QUT F form attached to this guide and available at [www.qut.edu.au/international/applying/step-7-submit-your-application](http://www.qut.edu.au/international/applying/step-7-submit-your-application)

Submit your application, including the application fee of A\$55 (\$50+10% GST) and all certified supporting documents, to QUT or your agent. This fee is non-refundable.

## 8 Accept your offer

If your application is successful, we'll send you an offer including Acceptance of Offer and Student Declaration forms. Ensure you meet all conditions (if any) and return your signed Acceptance of Offer form, student declaration and payment to QUT Admissions or your QUT agent.

## 9 Apply for a visa

Once you've accepted your offer, you'll need to apply for a student visa. Once you sign and return your Acceptance of Offer form and pay your fees, we'll issue you with your electronic confirmation of enrolment (CoE). Use your CoE to apply for your student visa through an Australian embassy or consulate.

## 10 Travel to Brisbane

You will need to prepare to come to Brisbane. We recommend that you arrive two weeks before your course starts so that you have enough time to find accommodation and settle in. QUT's International Student Services can provide information regarding pre-departure, organising accommodation and airport reception at [www.qut.edu.au/international/student-support-and-orientation](http://www.qut.edu.au/international/student-support-and-orientation)

When you arrive, you must attend international orientation, where you will find out more about enrolment and your classes.

## Minimum English language requirements

Test scores must be no more than two years before you start your QUT course.

**L** – Listening; **R** – Reading; **S** – Speaking; **W** – Writing

QUT now also accepts the Pearson Test of English (PTE) Academic, Cambridge English: Advanced (CAE) and Cambridge English: Proficiency (CPE) test results. The schedules can be found at [www.qut.edu.au/international/applying/step-3-check-you-meet-the-entry-requirements](http://www.qut.edu.au/international/applying/step-3-check-you-meet-the-entry-requirements)

# International student fee and refund policy

## 1. Overview

- 1.1 This policy outlines QUT's principles and guidelines for international student fees and refunds
- 1.2 This policy complies with the **Education Services for Overseas Students (ESOS) Act 2000**.
- 1.3 In accordance with QUT's **Student Rules** international students are required to pay tuition fees. An international student is defined as a student who is not:
  - a citizen of Australia or New Zealand; or
  - an Australian permanent visa holder.

## 2. Application fee

- 2.1 A non-refundable application fee is payable with international applications. The Registrar may exempt some cohorts from the application fee.
- 2.2 Applications may attract a late fee if not lodged by the application due date

## 3. Prepaid tuition fee (deposit amount)

- 3.1 International students are required to pay the deposit amount stipulated in their letter of offer as a condition of their acceptance. The deposit amount is a pre-payment which is allocated to tuition fees when they are invoiced

### Sponsored students

- 3.2 Sponsored students who provide a valid financial guarantee or sponsorship agreement from their sponsor at the time of acceptance of offer are not required to pay the deposit. Sponsored students who do not provide valid documentation must pay the full deposit amount in accordance with clause 3.1 in order to accept their offer.

## 4. Other fees and charges

- 4.1 A non-refundable registration fee is payable for all English language students.
- 4.2 Other **administrative charges** are levied for services as published on the QUT website.

## 5. Tuition fee calculation

- 5.1 International tuition fees are determined at a unit level and normally increase each year. The total amount payable for each teaching period is the sum of fees for individual units. International tuition fees are published in **Table C** on the QUT website.
- 5.2 English language course students pay a separate charge for airport reception, accommodation services and English language support.
- 5.3 International student tuition fees do not include the costs of textbooks, **Overseas Student Health Cover (OSHC)**, **administrative charges**, **additional compulsory course costs**, computer costs, stationery, photocopying, or living and personal expenses such as food, accommodation, transportation, or leisure activities.
- 5.4 For English language courses, unit tuition fees are final on the first day of classes of the teaching period. For all other courses, fees are final as at the **Census date** of each teaching period.

### Research higher degree students (PhD, Professional Doctorate and Research Masters)

- 5.5 Most research students are able to commence their studies at any time in the year. Tuition fees for many thesis units are time based and will be pro-rated for the first and last teaching periods based on the student's commencement and completion dates. International tuition fees are published in **Table C** on the QUT website.

## 6. Fee payment

- 6.1 Fees must be paid in Australian dollars using QUT's payment facility, **QUTPay**.
- 6.2 Fees must be paid by the due date stated on the **Tax Invoice**.
- 6.3 Tax Invoices can be accessed via **eStudent**. An email notification is sent to the official QUT student email account when a Tax Invoice is available on-line.
- 6.4 QUT cannot accept payment for living or personal expenses.

## 7. Non-payment of fees

- 7.1 Failure to pay all outstanding fees by the due date will result in a sanction on the student's record and suspension of access to some or all university services. A late payment fee will be levied on the outstanding amount.
- 7.2 If fees remain unpaid in full or part after census date and after the appeal period, the student's enrolment in all units in current and future study periods will be cancelled.  
International student visa holders whose enrolment is cancelled for non-payment of fees will be reported to the Australian Government. This may have implications for the student's visa.
- 7.3 If a student's enrolment is cancelled for non-payment of fees, a 50% retention fee, based on 50% of the tuition fees for enrolled units as at the census date for that teaching period, will be applied to the student's account. Re-instatement of enrolment will only be possible in a subsequent teaching period, subject to payment of all outstanding debts, including the retention fee, and meeting all entry requirements for re-admission.

## 8. Leave of absence

- 8.1 Leave of absence will only be approved for international student visa holders under exceptional medical or compassionate (bereavement) grounds.
- 8.2 Leave of absence is not available to commencing students.
- 8.3 Tuition fees will not be charged for the teaching period if Leave of Absence is requested and approved prior to the census date of the teaching period.

## 9. Refunds

### English Language Courses (including Packages)

- 9.1 A student who withdraws from an English language course:
  - before the first day of classes for the teaching period will be charged a cancellation fee of \$5,000 or the total deposit amount paid (whichever is the lower);
  - on or after the first day of classes for the teaching period, will be charged a retention fee of 100% of the tuition fees for that teaching period and a cancellation fee of \$5,000 or the balance of the deposit amount paid (whichever is the lower).

### Courses other than English Language Courses

- 9.2 A student who withdraws from any course other than an English language course:
  - before or on the census date of the teaching period will be charged a cancellation fee of \$5,000 or the balance of the deposit amount paid (whichever is the lower);
  - after the census date of the teaching period, will be charged a retention fee of 100% of the tuition fees for that teaching period and a cancellation fee of \$5,000 or the balance of the deposit amount paid (whichever is the lower).

### Special Circumstances

- 9.3 A student who withdraws from a course due to a new valid accepted offer to study at QUT in a future teaching period will be exempted from the cancellation fee.
- 9.4 A continuing student who withdraws from a Degree program in the 2<sup>nd</sup> or later teaching period will be exempted from the cancellation fee.
- 9.5 A student may apply with their refund application to have the cancellation fee reduced to \$500 or 5% of the deposit amount paid (whichever is the lower) if they can provide independent, certified evidence of:
  - a student visa refusal; or
  - unexpected serious illness or other compassionate grounds, such as death in the immediate family; or
  - unexpected political, civil or natural events which would compromise their ability to commence or continue with their study.
- 9.6 A student may apply for **withdrawal without financial penalty** for tuition and retention fees by submitting an application in accordance with the instructions contained on the QUT website.

## 10. Offer withdrawn by QUT

- 10.1 If an offer of a place is withdrawn by QUT on the basis of incorrect or incomplete information supplied by the applicant/student, QUT reserves the right to charge a cancellation fee of \$5,000 or the total deposit amount paid (whichever is the lower).

## 11. Sponsored students

- 11.1 Sponsored students fees are subject to the fee and refund conditions contained in this policy.
- 11.2 QUT will charge sponsors directly for each study period in which the sponsored student is enrolled and for which there is a valid financial guarantee or sponsorship agreement.
- 11.3 The sponsored student will be liable for any tuition fees for which there is no valid financial guarantee or sponsorship agreement or if the sponsor does not pay fees to QUT by the due date. In these circumstances, sponsored students will be subject to the same conditions for non-payment of fees in accordance with clause 7.

## 12. Exclusion

- 12.1** The following conditions will apply to students who are excluded from their course for academic performance or misconduct:
- If the event that led the exclusion occurred before the census date of the teaching period, the student will be eligible for a full refund of tuition fees for that teaching period and all future teaching periods;
  - If the event that led to the exclusion occurred after census date of the teaching period, the student will be charged a retention fee of 100% of the tuition fees for that teaching period.

## 13. Australian permanent residency

- 13.1** If Australian Permanent Resident status is obtained before the Census date of the teaching period in which the student is enrolled, they will be considered for a Commonwealth Supported Place or full fee paying domestic place in the same course subject to availability of places, course quotas and the fulfilling the requirements stated in clause **14.2**.
- 13.2** Students must provide original/certified documentary evidence of their Australian Permanent Resident status (visa date stamp in passport) and pay fees up front by the census date for the teaching period. Students who are offered a Commonwealth Supported Place must also complete a Request for Commonwealth Assistance form by the census date of their first teaching period.
- 13.3** If a student fails to successfully complete all necessary requirements detailed in clause 14.2 by the Census date of the teaching period, they will remain an international student liable for international student tuition fees for that teaching period.

## 14. Provider default

- 14.1** In the unlikely event that QUT is unable to deliver a course as offered, the deposit and any other tuition fees paid by student for that course will be refunded in full within 14 days after the agreed starting day of the course or within 14 days after the notification that the course is no longer offered.

## 15. Payment of refunds

- 15.1** Requests for tuition fee refunds must be submitted to Student Business Services on the appropriate refund application form together with any relevant supporting documentation.
- 15.2** Refunds are paid in Australian dollars.
- 15.3** Refunds will be made payable to the student and can be paid via:
- cheque
  - electronic funds transfer to an Australian bank account
  - telegraphic transfer to an offshore bank account.
- Note: Students may request QUT to transfer funds directly to another Australian higher education institution if they are transferring between institutions. In this case, the bank account details for that institution must be completed on the refund application.
- 15.4** Refunds will be paid within 28 days of receipt of a complete refund application with all required supporting documentation.
- 15.5** Students who have paid extra fees may keep the credit balance in their account to offset tuition fees payable for the next teaching period.
- 15.6** English language students with package offers who meet the English language entry score for their principal course at QUT but who have paid for more English language classes, can have the unused portion of their tuition fees credited towards their principal course.

## Sponsored students

- 15.7** Refunds relating to payments made by sponsors on behalf of sponsored students will be returned to the sponsoring body.

## Overseas Student Health Cover

- 15.8** Requests for refunds of Overseas Student Health Cover (OSHC) by onshore students must be made directly to the student's OSHC provider. Offshore students and sponsored students should contact QUT for OSHC refund requests.

## 16. Appeal process

- 16.1** If a student is not satisfied with the outcome of a refund request or cancellation for non-payment of fees, a written appeal can be submitted to the Director, Student Business Services.

# Your next step

Your whole future is waiting for you.
