The updated wish list allows students to select CBA, MGMT, MKTG, IS, FIN, HRM and SCM courses. There are some restricted courses in the College of Business that Study Abroad @ the Beach students are **not allowed** to put on their wish list or register in. --	---	----------------------------

Please note that as Study Abroad @ the Beach students are 'visiting students' and degree-seeking students at CSULB receive priority registration.

### Prerequisites

A prerequisite is a course that a student must pass before enrolling in the more advanced course. Some departments require that you complete prerequisites prior to registering for their courses. Prerequisites may be found under the course title in the CSULB Catalog or by clicking on the subjects above. Unless you are a first-time university student, please disregard any non-course number prerequisites (ex. GE Foundation, GE Composition, Exploration, placement tests etc.). Prerequisites taken at your home university must be noted and reviewed by a Study Abroad @ the Beach advisor before the first day of school for the following subjects:

### Helpful Hints:

1. Make sure you have met the prerequisites to enroll in the course. This is needed to make sure you are well prepared and will do well in the course. Some instructors and/or departments require our office to review your transcripts for prerequisite verification.
2. Check seat availability and if the class is being offered your term via the schedule of classes.
3. Plan ahead and be flexible! Since you will not know which exact courses will have seats available until the first day of school, have back-up or alternative courses in mind.
